NOTIFICATION

The 31st October 1884.—I, the Lieutenant-Governor has been pleased to make the following Port and Pilot rules for the Port of Chittagong. They will take effect from the 1st November 1884.

The Port of Chittagong, and the navigable river and channels leading thereto, having, with the sanction of the Governor-General of India in Council, been declared subject to the provisions of Act XXII of 1855, have become subject to Act XII of 1875 (the Indian Ports Act) in accordance with the provisions of section 3 of the latter Act.

The limits of the said Port of Chittagong are as follow:—

To the north-east,—a line drawn across the river Karnafulee from the boundary pillar at the mouth of the Chaktai nulla to the boundary pillar on the opposite bank of the said river.

To the south,—a line drawn from Jooldia staff to Patunga beacon.

These limits include so much of the river Karnafulee and the shores thereof as lie within fifty yards of high-water mark at ordinary spring tides.

The limits of the navigable river and channels leading to the said Port of Chittagong are as follow:—

To the north-east,—the Port of Chittagong as above defined.

To the south,—a line drawn west from Norman's Point light-house.

To the north,—the port as defined above, and from Patunga beacon a line drawn due west seawards.

To the west,—a line drawn parallel to a line between Patunga beacon and Norman's Point light at a distance of four miles.

To the east,—the south bank of the Karnafulee river between Jooldia and Norman's Point light-house.

All parts of the river Karnafulee between the said limits and below high-water mark at ordinary spring tides are subject to the said Act.

Port dues shall be levied at the following rates:—

Balam boats of 10 tons and upward for every ton of burthen.

All other sea-going vessels of 10 tons and upwards, 4½ annas for every ton of burthen.

Port Rules.

The following Port Rules are hereby notified for general information and guidance.

Rule I.—Within 24 hours after arrival within the limits of the port, the master of every vessel shall report to the Port Officer the arrival of which shall be put into moorings or up such berth as may be appointed by the Port Officer, from which she shall not depart (except in case of emergency) without the sanction of the said officer. Every vessel shall remain at her berth when required by the Port Officer to do so.

Rule II.—Every vessel lying within the limits of the port shall be moored and shall be kept under way.

Rule III.—Unless moored head and stern, every vessel within the port, or in the navigable channel leading thereto, shall lie close to the shore, or shall in any way obstruct the passage of boats inshore.

Rule IV.—Every vessel in moorings shall use her bower chain for her stern moorings, or such other chain that may be approved of by the Port Officer, who, in case of approaching bad weather, may have the same changed or doubled at his discretion.

Rule V.—Every vessel within the port shall rig in her jib and driver booms, and, if required to do so, take in all boats hanging at the davit as soon as she has moored, and shall so retain them, unless otherwise authorized by the Port Officer.

Rule VI.—Every vessel entering the port between the 15th day of May and 15th day of November shall send down her top-gallant yards, and have mast ropes rove ready to send down her top-gallant masts at short notice on receiving instructions from the Port Officer.

Rule VII.—No ballast shall be discharged from shipboard, or landed from boats, or taken from the shore or river banks within the port and its approaches without the previous sanction of the Port Officer, who may appoint ballast guards to supervise the work.

Rule VIII.—Vessels of less than 12 feet draught, proceeding up or down the river, are prohibited from anchoring in the fairway.

Rule IX.—All vessels anchored in the stream within the port and its approaches shall exhibit between sunset and sunrise, where it can be best seen, but at a height not exceeding 20 feet above the hull of the vessel, a white light in a globular lantern of eight inches in diameter, and so constructed as to show a clear, uniform and unbroken light, visible all round the horizon, at a distance of one mile. Vessels under weigh at night shall show the lights prescribed by the Board of Trade Regulations.

Rule X.—All ballams, cargo-boats, bhurs, and budgrows, when under weigh after dark within the port, shall carry a white light in a lantern in the forepart of the vessel, where it can be distinctly seen.

Rule XI.—Except in cases of emergency, no vessel shall be moored, or unmoored, and no hawse and moorings shall be left out between sunset

"	of 100	to 199 tons	...	4
"	of 200	" 299 "	...	5
"	of 300	" 499 "	...	6
"	of 500	" 699 "	...	7
"	of 700	" and upwards	...	10

Rule XIV.—Vessels shall not anchor in fairway off the bar, or on the bar, and any vessel so anchoring shall be liable to a fine not exceeding Rs. 100 for every day or portion of a day on which she may remain in the fairway or on the bar.

Rule XV.—No vessel dropping up or down the river shall anchor in the fairway unless she be of heavy draught or of great length. Any vessel on the move or waiting the next tide shall sheer out of the channel and anchor as far out of the fairway as she can do without risk.

Rule XVI.—Vessels occupying moorings or using the heave-up boat will be subject to the undermentioned charges :—

	Rs.
Occupying moorings, per diem ...	6
Occupying swinging buoys ...	3
For mooring at or unmooring from the fixed fore-and-aft moorings with the use of heave-up boat on each occasion ...	16
For mooring at or unmooring from swinging moorings with the use of heave-up boat on each occasion ...	10
Harbour Master's fee for mooring or unmooring a vessel on Sundays and holidays ...	10
Use of heave-up boat for assisting a vessel, per diem ...	32
Running out anchors for vessels on shore, or going on the hard, to clear bottom on each occasion ...	32
Use of Government hawser, per diem ...	10
Shifting a vessel's berth for the convenience of the owners ...	16
Vessels occupying the jetty head for loading or discharging cargo other than salt, per diem ...	20
Vessels occupying the jetty head for loading or discharging salt, per thousand maunds ...	10
Salvage on anchors and cables, per cwt. ...	8-8

Rule XVII.—No person, unless authorized by the Port Officer, shall creep or sweep within the port for anchors, cables, or other stores lost, or supposed to be lost, therein.

Rule XVIII.—Any sampan, cargo-boat, or other vessel going alongside an arriving steam-vessel before she is anchored, shall be liable to a penalty not exceeding Rs. 100.

Rule XIX.—The Port Officer, or any one deputed by him, shall not be interfered with in the execution of his duty.

Rule XX.—No vessel shall use any of the moorings, whether fixed or swinging, without permission of the Port Officer.

Rule XXI.—All applications to be hauled into, or cast off from, the moorings, or for any other assistance, shall be made either personally or by letter to the Port Officer. Applications will, as far as possible, be complied with in order according to date of receipt.

Rule XXII

Signals for the Port of Chittagong.

Storm signals will be only used within the limits of the Port of Chittagong to give notice to the shipping and general public of the early approach of a severe cyclone with its attendant storm-wave. The following are the storm signals which will be used within the limits of the port. They will be hoisted on the flagstaff yard-arm at Sudder ghât and on the Jooldia flagstaff yard-arm on receipt of instructions from the Meteorological office.

A ball indicates that a severe cyclone, of which the centre is in the neighbourhood of Akyab, will probably advance towards Chittagong.

1. Day warning signal.

A drum indicates that a severe cyclone with its attendant storm-wave is approaching Chittagong.

2. Day danger signal.

Three lights in a vertical plain indicate that a severe cyclone, of which the centre is in the neighbourhood of Akyab, will probably advance towards Chittagong.

3. Night warning signal.

Two lights in a vertical line indicate the early approach of a severe cyclonic storm and its attendant storm-wave to the Port of Chittagong.

4. Night danger signal.

Rule XXIII.—Vessels lying in the stream or the moorings shall at times have at least one anchor at the bow, with cable bent and ranged ready to let go. Vessels with no spare hawse pipe for cables shall have good hawser bent ready for letting go.

Rule XXIV.—Every ship or vessel within the port shall remove any anchor or spar, or other obstructions from her sides.

Rule XXV.—No person shall use or use naked light of any description in the hold or between-decks of any vessel lying in the port. Closed lanterns, secured by lock and key, and in charge of an officer of the vessel, shall alone be taken between-decks or into the hold.

Rule XXVI.—Fires shall be permitted only in galleys or fire-places regularly constructed for the purpose; such fires to be kept alight only between daybreak and 9 P.M. Fires for cooking shall not be allowed on board of vessels in dock.

Rule XXVII.—With a view to the extinction of fires, all vessels in port shall be provided with three buckets for every hundred tons of registered measurement up to 600 tons, and two additional buckets for every 100 tons above 600: provided that the total number of buckets shall not be required to exceed 50 in any vessel. One-half of such buckets shall be left constantly hung up on the quarter-deck or other convenient place.

Rule XXVIII.—When fire has broken out in any vessel, the officers in charge of all vessels in neighbouring moorings or anchorage shall furl their awnings, get their force-pumps ready for use, and prepare for slipping their cables and chains, seeing specially that the pins of the shackles can be immediately knocked out.

Rule XXIX.—No vessel shall lie at single anchor in the port unless a pilot or assistant harbour master is on board; and a fee of Rs. 10 per diem will be charged for his services.

Rule XXX.—All vessels about to leave the port shall hoist the Blue-Peter at the fore at least twenty-four hours before leaving the moorings, and shall keep it hoisted until the pilot takes charge of the vessel to take her to sea.

Rule XXXI.—No vessel shall steam, sail, or be towed up on the flood or down on the ebb within port limits except with the permission of the Port Officer.

Rule XXXII.—River steamers and tug steamers having no vessels in tow are permitted to move up on the flood, or down on the ebb, at their own risk and at a speed sufficient to keep the vessels under command; but in no case shall the speed exceed four miles an hour through the water.

Rule XXXIII.—For the use of the Government Launch Fire-engine, a charge of Rs. 50 will be made for every twelve hours and part thereof.

Rules for Pilots in the Port of Chittagong.

I.—Pilots in charge of inward-bound vessels are directed to hoist the vessel's number, and, if salt laden or from dutiable ports, are to have the ensign hoisted at the main-mast head for the information of the Customs Inspector, Jaldia.

II.—A pilot on taking charge of an inward-bound vessel shall, immediately on boarding her, hoist his distinguishing number, and hand over to the master of the vessel the following papers:—(1) Port Rules, (2) Pilotage Rules, (3) Medical Inspection Rules, (4) Customs Regulations. If any case of cholera, small-pox, or other epidemic disease common in India is on board he shall at once report the fact to the Port Officer, stating the number of cases, and shall await orders before taking up any anchorage in the harbour.

III.—A pilot detained on board at Jaldia will, in the event of the captain refusing to take steam, report the matter to the Port Officer and await orders.

IV.—The pilot shall not give over charge of his vessel in the river unless she has been moored or he has been relieved by a harbour master or other officer authorised to take charge.

V.—Pilots on arrival off town shall state the time of arrival, the vessel's name, the place where she has been left, and, if moored, with how much chain each way. This information is to be entered in a book kept at the Port Office for that purpose.

VI.—Every pilot shall on arrival report to the Port Officer the number of pilots on the station, and also any alterations he may have observed in the river on his way up.

VII.—No pilot shall take charge of an outward-bound vessel without an order signed by the Port Officer, or proceed unless the vessel has obtained her customs clearance. If the vessel is to take steam, he should not break ground without satisfying himself that the tug is engaged to take the vessel to sea, or to remain by her till the vessel is outside the Outer Bar.

VIII.—The pilot shall ascertain that the vessel has two serviceable bower anchors, and if she has not a sheet or spare anchor fit for a bower over her side, that she has one in such a position on deck that it can easily be brought into use in case of necessity. Also that a kedg with line ready bent be on deck and ready for immediate use.

IX.—If a pilot appointed to take a vessel to sea during neaps considers her draught too much, and that it would involve a risk and responsibility which he is unwilling to take, he should at once communicate the fact to the master and report to the Port Officer, for orders, fully explaining his grounds of objection.

X.—If after a pilot joins a vessel he finds that she is of larger draught than she was reported to be, or that she takes in any cargo that alters her draught, he will at once report the matter to the Port Officer and await orders.

XI.—Pilots are on no account to cross the bar between sunset and sunrise, on pain of dismissal, without the permission of the Port Officer in writing, the cost of lighting the buoys being defrayed by the ship concerned.

XII.—A pilot shall not relinquish charge of a vessel unless on account of sickness or other unavoidable necessity. If he is in any way impeded in the performance of his duty, he should report the circumstances to the Port Officer, and, if necessary, anchor the vessel.

XIII.—Pilots shall attend the Port Office daily, and shall not leave town without permission of the Port Officer being previously obtained.

XIV.—Until further orders, pilots shall be governed by the following rules as to the draughts

of vessels to be moved either up or down, in or out:—

- (a)—They may move a vessel in or out without steam at a draught of 18 feet, and with steam to any reasonable draught.
- (b)—Vessels of 275 feet length and upwards shall not be brought up above Moiscally without permission from Port Officer, to whom her length and draught must be reported in writing.

XV.—No pilot on his way up or down the river, and not employed on any special duty, shall pass a vessel having a pilot signal flying without boarding her and ascertaining why she is without a pilot, and if required shall take charge of her, and take her on her way and stop by her until she can be left in safety.

XVI.—Masters are requested to report when there appears to have been any unnecessary delay in getting the pilot on board.

XVII.—If a vessel loses an anchor or anchors, the pilot shall immediately submit a report to the Port Office. The report should be attested by the master of the vessel, and to enable the Port Officer's Department to identify the lost articles, it shall indicate accurately the following particulars:—

- (1)—Locality of the loss.
- (2)—Bearings of known objects.
- (3)—Description, weight, and distinctive marks of anchors.
- (4)—Description and quantity of cable.

XVIII.—Should a vessel ground, collide with any vessel or buoy, or meet with any casualty while under weigh or at anchor, the pilot shall, on the first opportunity, forward to the Port Officer a report in writing of the occurrence, containing the following particular:—

- (a)—Locality of the accident.
- (b)—Bearings of any known object in view.
- (c)—The vessel's draught of water.
- (d)—The time of tide.
- (e)—Hour of the day the accident occurred.
- (f)—Manner in which the pilot was executing or attempting to execute.
- (g)—The damage, if any, sustained.
- (h)—The time the vessel was on shore.
- (i)—Quantity of water made by the vessel.

XIX.—Pilots, before leaving a vessel, shall obtain a certificate from the master as to how he has performed his duty, and present the same to the Port Officer on arrival.

XX.—Pilots, whilst in town, should daily inspect carefully the channel and the river-book kept at the Port Office.

XXI.—If a pilot considers himself aggrieved by any conduct on the part of the master of a vessel, he shall submit his complaint in writing to the Port Officer for his consideration and orders.

XXII.—Masters or agents are requested to give at least 24 hours' previous notice when a pilot is required to shift or take a vessel to sea or for any other purpose, to enable the Port Officer to send for pilots from the mouth of the river, if required.

XXIII.—The cutter with pilots shall cruise in the day backwards and forwards from the Outer Bar buoys to off the mouth of the Sangoo river during the south-west monsoon, weather permitting, and shall remain day and night on her station, viz. three miles outside the Bar buoys during the north-east monsoon. The senior pilot on board will be held responsible should any complaint be made owing to delay being incurred in getting, or putting on, or taking a pilot out from a vessel.

XXIV.—The sanctioned pilotage charge is as follows:—

Draught in feet.	8	9	10	11	12	13	14	15	16
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
In or out	30	36	42	50	60	70	80	95	110

Draught in feet.	17	18	19	20	21	22	23
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
In or out	125	140	160	180	205	230	260

When the draught exceeds by more than six inches any depth here provided for, the next foot of draught shall be charged for.

For every foot, or part of a foot, exceeding six inches above 23 feet, an additional sum of Rs. 32 will be charged. Three-fourth rates will be charged for steamers and vessels towed by steam.

XXV.—In every case in which the services of a port pilot are not used, and the vessel is piloted by a person specially licensed to pilot in the Chittagong river, half the sanctioned charge for pilotage shall be paid.

XXVI.—All persons specially licensed to pilot in the Chittagong river shall be subject to the control of the Port Officer in regard to their pilotage work.

AFRICA—EAST COAST.

GULF OF ADEN.

Buoyage of the reefs at the entrance to Zeyla.

WITH reference to Notice to Mariners No. 57, issued from this Department, 11th October 1884, relative to the intended buoyage of the reefs at the entrance to Zeyla, information has been received announcing that the buoys were laid down on the 14th September 1884:—

EFAT SHOAL BUOY—A red iron conical buoy has been moored in 7½ fathoms, at low water ordinary spring tides, at the East end of the shoal off Efat Island, and the following bearings are given:—

Centre of Zeyla town	S 24° W.
Right extreme of Sadalden Island	S 55° W.
Right extreme of Efat Island	N 71° W.

FILFIL SHOAL BUOY—A red iron conical buoy has been laid in 6 fathoms, at low water ordinary spring tides, at the West end of Filfil shoal, with:—

Centre of Zeyla town	S 48° W.
Right extreme of Sadalden Island	N 88° W.
Right extreme of Efat Island	N 53° W.

CHANNEL REEF BUOY—An iron conical buoy with black and white vertical stripes has been laid down on the Channel reef in 4 fathoms, at low water ordinary spring tides, in the following position:—

Centre of Zeyla town	S 36° W.
Right extreme of Sadalden Island	S 81° W.
Right extreme of Efat Island	N 53° W.

There is a small white beacon like a mosque just inside the North end of Efat Island.

Directions.—Vessels bound for Zeyla can either make Efat shoal buoy or the Filfil shoal buoy, and if the weather is clear the town will be seen before getting up to the buoys. Efat shoal buoy should be passed to the Eastward, and Filfil shoal buoy to the Westward, giving Channel reef buoy a berth of half a mile on either side. The directions given in the Gulf of Aden Pilot will then suffice. If the Channel reef buoy be washed away, great care is necessary in passing the reef, as it is difficult to distinguish and steep-to, and seems to be of larger dimensions than those given in the Gulf of Aden Pilot.

The Bearings are Magnetic.

ARTHUR W. STIFFE, Captain, I.M.,

Port Officer of Calcutta.

- Letter from Director-General of Ordnance to the Military Department, No. 159E, dated 14th April 1884.

RESOLUTION.

The papers read above relate to medical attendance on, and supply of medicines to, Government clerks and their families. Doubts having arisen as to the application of these orders in the case of certain offices, the Governor-General in Council is pleased to prescribe the following rules in supersession of all previous orders on the subject, with effect from the 1st January 1885 :—

- (1) All clerks of all Government offices are entitled to gratuitous medical attendance and medicines for themselves.
- (2) All clerks of Army Head Quarters Offices are entitled to similar privileges for themselves and their families.
- (3) Subject to the above rules, clerks drawing Rs. 250 per mensem and upwards are entitled to the services of the Civil Surgeon, and those drawing less than that amount to the services of the Assistant Surgeon or medical subordinate provided for the purpose, it being understood that, in conformity with paragraph 4 of circular letter, dated 31st August 1869, above quoted, the attendance of the Civil Surgeon should be given in all cases of emergency or of great danger or difficulty, when applied for by the subordinate medical attendant.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Local Governments and Administrations noted in the margin for information and guidance. In places where there is no druggist's shop, medicines may continue to be supplied from the Government Stores;

Bengal.	British Burma.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE EXCISE DEPARTMENT FOR 1883-84.

FINANCIAL DEPARTMENT—EXCISE.

Darjeeling, the 27th October 1884.

RESOLUTION.

READ—

The Board's Report on the Administration of the Excise Department for 1883-84.

The proposal to which reference was made in the Resolution recorded last year, for appointing a special Commission to consider and report upon the system of excise on country spirits in all its aspects after careful local enquiry, was carried into execution during the year under review. The Commission has since the close of the year submitted a report, which has been under the separate consideration of Government, and, as all questions connected with country spirits will be dealt with in the orders finally disposing of it, it will be unnecessary to enter at any length into the discussion of such questions in this Resolution.

2. The financial results of the administration of the Excise Department are shown in the following statement:—

PERIOD.	Revenue.	Charges.	Net revenue.	Percentage of charges.
	Rs.	Rs.	Rs.	
Average of 1878-79 to 1882-83	83,79,296	2,69,118	81,10,178	3.2
1882-83	97,81,850	2,65,438	95,16,414	2.7
1883-84	1,04,23,171	2,55,087	1,01,68,084	2.4
Difference of the past two years	+6,41,321	—10,349	+6,51,670	—3

There was thus an increase in revenue of Rs. 20,43,875 over the average of the preceding five years, and of Rs. 6,41,321 as compared with last year. Moreover, there was a decrease of Rs. 10,349 in charges, as compared with 1882-83. The largest increase of revenue occurred in Patna (Rs. 1,11,190), Chittagong (Rs. 57,126), Calcutta, Suburbs, and Howrah (Rs. 41,797), Shahabad (Rs. 37,890), Monghyr (Rs. 31,580), and Lohardugga (Rs. 31,025). Only seven districts show a decrease, viz. Gya (Rs. 15,263), Nuddea (Rs. 6,305), Purneah (Rs. 3,172), Rajshahye (Rs. 2,786), Dinagepore (Rs. 1,648), Noakholly (Rs. 1,559), and Backergunge (Rs. 469). The increase in each of the divisions as a whole, together with the incidence of the revenue, was—

DIVISION.		Increase.	Incidence per 100 of population.
		Rs.	Rs.
Burdwan (without Howrah town)	82,416	14
Presidency (without Suburbs)	54,717	10
Calcutta, Suburbs, and Howrah	41,797	237
Rajshahye	42,114	8
Dacca	14,048	8
Chittagong	59,279	8
Patna	2,04,276	17
Bhagulpore	56,909	14
Orissa	25,106	13
Chota Nagpore	60,659	14

Compared with 1882-83, there was no change in the incidence in the Presidency Division, while there was an increase of Re. 1 in each of the Divisions of Burdwan, Rajshahye, Dacca, Patna, Bhagulpore, Orissa, and Chota Nagpore; of Rs. 2 in the Chittagong Division; and of Rs. 5 in Calcutta. Apart from Calcutta, the districts in which the incidence was highest are Darjeeling (Rs. 69), Patna (Rs. 44), Gya (Rs. 28), Hooghly (Rs. 25), and 24-Pergunnahs (Rs. 24). It was lowest in Noakholly (Re. 1), Khoolna, Jessore, Dinagepore, Backergunge, Tipperah, and Singbhoom (Rs. 5). The population being taken at 66 millions, the excise revenue during the year gives a rate of two annas and five pie per head, or Re. 1.8 for every ten of the population.

3. The fluctuations under each head of the revenue are exhibited in the following table:—

ARTICLES.	REVENUE.			IN 1883-84 COMPARED WITH 1882-83.		IN 1883-84 COMPARED WITH 1878-83.

Total	83,79,296	97,81,850	1,04,23,171	6,46,473	5,153	20,73,999	30,124

The heads under which the receipts fell below those of the preceding year are *charas*, *majum*, *chundoo*, *spirits used for arts*, and *miscellaneous*. Under all other heads there was an increase, especially under *country spirits*, *ganja*, and *opium*.

4. There was a small increase from 4,560 to 4,614 during the year in the total number of shops licensed for the sale of *country spirits*. Of these, 481 were licensed under the sudder distillery system against 466, and 4,133 under the outstill system against 4,094 in the preceding year.

5. The number of licenses taken out for the wholesale sale of *country-made rum* rose from 18 in 1882-83 to 24 in the year under review. Of these, 5 were taken out in Calcutta, 3 in Darjeeling, 2 in Dacca, and 4 in Mymensingh. On the other hand, the number of licenses for the retail sale of rum decreased from 115 to 103. The quantity of rum of *country* manufacture passed for consumption amounted to 13,832 gallons against 13,847, the duty realized therefrom showing a small advance from Rs. 74,020 to Rs. 75,124. The total realizations under rum amounted to Rs. 1,14,576 against Rs. 1,08,761. There was again a falling off in the importation of Shahjehanpore rum, the quantity imported in 1883-84 being 17,500 gallons against 18,340 gallons in the previous year. The Assam Administration has raised a question whether that province should not be credited with the duty paid in Calcutta, or received by the Bengal Government on account of rum imported for consumption into Assam. The matter is under consideration.

6. The total number of licenses, wholesale and retail, for the sale of *imported wines* was 999 against 941 in the previous year, while the revenue rose from Rs. 1,94,090 to Rs. 2,00,795. The quantity of foreign wines, spirits, and beer imported and the customs revenue realized therefrom were—

				Number of gallons.	Revenue. Rs.
In 1882-83	508,076	31,881
„ 1883-84	601,404	37,598

It is remarked that the demand for claret in this country is declining; that as regards sherry, the public taste has followed the lead of England, where the trade has suffered severely; that champagne has recovered the decline of the previous year; that there has been a continued falling off in the importations of brandy and gin; and that the importations of whisky, rum, beer, and porter have increased.

7. The number of licenses issued for the sale of *tari* fell from 30,311 in 1882-83 to 20,138 in 1883-84. This decrease is due to the orders issued last year under which unfermented *tari* was exempted from the operation of the Excise Act throughout the Dacca Division. The revenue amounted to Rs. 6,63,693 against Rs. 6,61,887, the increase being obtained chiefly in Hooghly, 24-Pergunnahs, Calcutta, Gya, Shahabad, Durbhunga, and Bhagatpore.

8. The number of licenses taken out for the sale of *pachwai* was 2,25 against 2,159 in the previous year, and the revenue from license-fees rose from Rs. 1,76,613 to Rs. 1,83,054. The increase was chiefly obtained in Bankoora, Midnapore, Moorshedabad, Darjeeling, Mymensingh, the Sonthal Pergunnahs, and Manbhoom, while there was a decrease in the revenue in Burdwan, Beerbhoom, 24-Pergunnahs, Rajshahye, Julpigoree, Dacca, Furreedpore, Chittagong, and Maldah. The increase in Bankoora and Midnapore is attributed to the reduction in the number of outstill shops in the Sonthal parts of the districts, some of which worked in concert with *pachwai* shops. The vendors being relieved of the outstills, the fees for their *pachwai* shops were increased. The increase in Moorshedabad and Sonthal Pergunnah is attributed to the establishment of a larger number of shops, in Darjeeling to the growth of population and development of business, in Mymensingh to the adoption of steps for preventing illicit manufacture, and in Manbhoom to the fact that certain outstill vendors who had taken settlement of *country* liquor shops at a high license-fee were induced to take a neighbouring *pachwai* shop also in order to protect the more valuable custom of their outstills. On the other hand, the decrease in Burdwan is ascribed

partly to the high price of rice, from which alone pachwai is brewed in that district, and partly to the increased competition of country spirit and in Beerbhoom to the concessions made to the Sonthals in regard to home brewing. The decrease in the remaining districts was insignificant and calls for no special remark.

9. The quantity of ganja consumed in Bengal depends mainly upon the outturn of the Rajshahye crop. All ganja remaining in the wholesale golahs after two years is destroyed, and thus the annual consumption within the province can seldom very largely exceed the quantity produced, although it may, and frequently does, fall below it. The system under which excise duties are levied on ganja is as follows. Licenses for the cultivation of the hemp plant for the manufacture of ganja are granted by the supervisor of the ganja mehal, and all stages, both of the cultivation and of the manufacture, are subjected to strict supervision to prevent the risk of illicit transactions. All ganja thus produced is stored by the wholesale dealers in licensed golahs, which can be opened only at regular intervals, and in the presence of responsible Government officers. The retail sale is carried on by licensed vendors, who obtain their licenses under the auction system. All ganja issued from a wholesale golah to a licensed vendor is carefully weighed and examined in the presence of an Excise Deputy Collector or Sub-divisional Officer at the time of issue, and a fixed duty has to be paid before it leaves the golah. The tax on ganja thus consists of two parts, the fixed duty paid on the quantity which passes into consumption, and the license-fees. Any increase in either or both of these must tend, *pro tanto*, to raise the price of ganja to the consumer, and therefore to diminish the consumption of the drug.

The ganja crop of the year was much more plentiful than in the previous year, being 8,982 maunds against 6,264 maunds, and the result was a considerable fall in prices. The wholesale price of flat ganja ranged between Rs. 10 and Rs. 25 against Rs. 12 and Rs. 40, and that of round ganja between Rs. 12 and Rs. 35 against Rs. 15 and Rs. 45. There was an increase in the number of shops from 3,271 to 3,298; in the quantity consumed from 5,645 maunds to 5,881 maunds; in the revenue from license-fees from Rs. 7,95,223 to Rs. 8,44,776 and in the revenue from duty; from Rs. 10,65,274 to Rs. 11,28,937. The increase in the revenue, notwithstanding the late enhancement of duty, is no doubt in a great measure the result of the prosperity and increased spending power of the people. The increase was most marked in the Presidency and Patna Divisions. There was an actual decrease in the consumption in the Rajshahye, Dacca, Chittagong, and Chota Nagpore Divisions, notwithstanding which the revenue shows an increase. A considerable quantity of illicit ganja has, for years past, found its way into the district of Midnapore from the adjoining Tributary States, and it has been found necessary in the interests of the revenue to prohibit the cultivation of the plant altogether in the State of Mohurbhunj. These orders were not issued until after the close of the year under review.

The Excise Commission have given reasons for suspecting extensive smuggling of ganja, and illicit sale by vendors under cover of their licenses. This matter will be separately enquired into.

10. The price of excise opium remained unaltered during the year. There was a decrease of 19 in the number of licenses issued, an increase of 116 maunds in consumption, and of Rs. 1,09,553 in the revenue realized. Almost half the increase in the revenue occurred in the Chittagong district (Rs. 54,550), where the increase in the quantity of the drug purchased (58 maunds) is due to the extension of smuggling into Arracan. It is understood that while on the Chittagong side the system is that generally in force in Bengal, on the Arracan side there is a system of farming by a monopolist. There the sales are limited, and this is due to the policy which has been deliberately adopted with respect to Burmah, viz. to keep down the quantity of opium available for sale in that province. The Board write—

If the authorities in British Burmah are interested in keeping the supply of opium down to a minimum, it is for them to guard their frontier and seaports against smuggling, long and difficult as the frontier may be to guard. It does not appear to the Board why the Bengal Government should spend money on police or other agency to prevent opium smuggling when the result of successful prevention must be to diminish the provincial excise revenue. On principle, therefore, the Board think it should be maintained that the cost of

any preventive measures undertaken should be debited to Burmah. To be effective they are likely to be expensive. To prevent this smuggling, it is obvious that opium must be made as dear in Chittagong (or very nearly so) as it is in Arracan. The Board do not think the mere raising of the wholesale price at the Government treasury from Rs. 28 to Rs. 30, or even Rs. 32 a seer, would be sufficient. Some plan of a much more radical character would be required. * * the Board are of opinion that to nearly double the retail price would hardly be fair to the *bond fide* consumers in Chittagong. They would take measures to obtain the drug cheap from Calcutta and other districts, and smuggling, though diminished on the Arracan frontier, would be indefinitely increased elsewhere.

The Board, after a careful consideration of the subject, have come to the conclusion that so long as the Burmah system is maintained, it appears impossible to make any change in the Chittagong system which will not be injurious to the revenue, unfair to the *bond fide* consumers of opium, and fraught with difficulties as to smuggling into Chittagong from other Bengal districts, to which the smuggling on the Arracan frontier is nothing in comparison.

The Lieutenant-Governor agrees generally in the views expressed by the Board. The question, however, is one of no small difficulty, and Mr. Rivers Thompson desires that the Board will continue to give it their closest attention. It may be possible to come to some arrangement with the Government of British Burmah, by which the pronounced differences of system in the administration of the department in respect of opium between Chittagong and Arracan may be somewhat shaded off. Until this is done, it seems *prima facie* unlikely that any complete remedy can be applied to the evils complained of. A copy of this Resolution will be forwarded to the Chief Commissioner of Burmah.

An important seizure was made by the Hooghly police, in which over six maunds of contraband opium were confiscated. The offender was tried, convicted, and punished with imprisonment and fine.

11. The number of arrests for offences against the excise laws was 4,092 against 3,757 in the previous year, and the number of persons convicted was 3,386 against 3,104. Of the persons arrested, 3,563 were other than licensed vendors, 528 committed breaches of license, and one was employed in the Excise Department. Compared with 1882-83 there was greater activity both on the part of police and excise officers in the detection of breaches of the law.

12. The names of the officers selected by the Board for special mention will be noted in the Appointment Department. The Lieutenant-Governor again desires to thank the Board for their careful and efficient administration of the Excise Department during the year.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Secretary to the Government of Bengal.

**RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE
TRIBUTARY STATES OF ORISSA FOR THE YEAR 1883-84.**

POLITICAL.

Darjeeling, the 27th October 1884.

RESOLUTION.

READ—

The Annual Report on the Administration of the Tributary States of Orissa for the year 1883-84.

Read also—

The Reports for 1881-82 and 1882-83, and the orders of Government recorded thereon.

Of the 19 Killahs or States under the general designation of the Tributary Mehals, five were, during the year under review, as in the preceding year, under direct management, two—Angul and the Khondmals—being Government estates, and three, Baramba, Dhenkenal and Mohurbhunj, managed for their minor Chiefs. The other 14 States were administered by their own Chiefs under the general supervision of the Superintendent.

2. Of the 17 Native States one, “Pal Lehara,” pays tribute to Keonjhar, to which it was formerly subordinate. From the remaining 16 Native States the total tribute payable to this Government was Rs. 33,249-7-11. There was no balance outstanding from the previous year; and of the demand for the year under review, Rs. 10,633-14-5 had been paid in advance. The collections amounted to Rs. 26,112-0-3, of which Rs. 22,629-6-1 were for the current year and Rs. 3,482-10-2 in advance.

3. At the six stations where proper rain-gauges are kept, an average rainfall of about 55 inches was shown. But the rainfall, though not below the average, ceased early, and the crops in consequence suffered. It does not appear, however, that any great suffering was caused to the people, although the price of grain rose by more than 30 per cent. in some States. The Superintendent remarks that, if the present season be favourable, no serious distress need be apprehended. The returns of the Meteorological Department are up to date quite favourable from all the reporting stations, but these do not give the reports from the interior of the country, and it would be well for the Superintendent to impress on the Native Chiefs the advisability of procuring accurate information as to the condition of the people in order that steps may be taken, if necessary, for their relief.

4. The general health of the people is stated to have been much better than in the preceding year. There was the usual outbreak of malarious fever in certain parts; but except a few instances of cholera in Angul and of small-pox in Angul, Hindole and the Khondmals, the States were free from epidemics. But little appears hitherto to have been done in extending vaccination through the States. There was a very severe epidemic of small-pox in the Mohurbhunj State in 1882-83, which lasted three months, and carried off the Maharajah and his Rani. The people are reported to be still partial to inoculation, and to have no faith in vaccination. The Lieutenant-Governor considers that advantage should be taken of the fact that five of the States are now under direct management to encourage the spread of vaccination. It is probable that, if the Chiefs of the other States have its advantages prominently brought to their notice, they will be more inclined to enforce its adoption in their own States. In Cooch Behar the practice of inoculation was, during the administration of the State by this Government, prohibited, and the inoculators induced to adopt the profession of vaccinators. The results were excellent; and the Lieutenant-Governor recommends that the Superintendent should adopt some similar measures in the States under his management. The recent appointment of one vaccinator for the Khondmals and of two for Dhenkenal will have but slight effect until the preference of the people for the more dangerous prophylactic be overcome.

5. The population is generally scanty, and having abundance of waste lands to cultivate is disinclined to emigration. The trade and commerce, owing to the miserable condition of communications, are of no importance. There are said to be coal-fields in Talchere and Angul, and it is possible, if the

Cuttack and Benares Railway be constructed, that they may be found of value. At present they cannot be worked. Although the Mahanuddi, Brahmani and Byturni rivers either pass through or take their rise in the Tributary Mehals, they are only navigable for native boats from June to December, and the navigation is much impeded by large rocks. There are no land routes deserving the name except some local roads in Dhenkenal, Keonjhar and Mohurphunj. The two existing lines from Cuttack to Sumbulpore, one through Angul and the other through Sonapore, are submerged in parts during the rainy season, and are neither bridged nor metalled. Some of the Chiefs have made praiseworthy efforts to improve the state of their roads, but much of their effort has hitherto been wasted owing to want of system and supervision. The Superintendent reports that he is endeavouring to work out a scheme which will supply proper professional supervision to all public works throughout the Tributary Mehals, and that he hopes to overcome the chief difficulty, viz. that as to ways and means. The Lieutenant-Governor will await the further report promised on this subject. From the remarks made by the Superintendent, however, it would seem that not only is there an absence of supervision over the work executed, but a want of co-operation among the Chiefs themselves and the officers in the States under the management of this Government as to the construction of roads. In submitting his proposals, the Superintendent should report whether it would not be feasible to form a scheme for a regular system of roads by which all the States might benefit, each contributing a proper share in the construction.

6. The only State in which the people manifested any resistance to the authority of their Chief was that of Nilgiri; and it was reported that a party, discontented with the action of the Dewan, whose services had been lent to the Rajah, had committed many acts of violence. The Superintendent himself went to Balasore, and after holding an enquiry submitted a report to this Government. The Dewan was finally removed, and at the repeated request of the Rajah for a European officer, the services of Mr. Ricketts, the then Sub-divisional Officer of Bhuddruck, were lent to the State by Government. The disturbances have since subsided.

7. The total number of civil and revenue suits instituted during the year was 6,774 against 6,131 in the year 1882-83. The number of such suits pending from the previous year was 1,362, and of those pending at the close of the year under review 1,553. There were 6,583 cases disposed of, and of these 2,661 were contested. The tehsildars and managers disposed of 6,028 of the suits.

8. There were 1,456 offences reported and 1,104 returned as true. The Superintendent remarks that the difference is great, and that an attempt will be made to ascertain the cause. There were 321 true cases of theft, 24 of offences affecting human life, and 5 of dacoity and robbery. The number of crimes of violence appears very large, considering the scanty population. Altogether there were 1,000 cases brought to trial, affecting 2,129 persons. Of persons brought to trial, 1,072 were convicted, 921 acquitted, and 108 remained under trial at the close of the year. Serious charges, such as in a regulation district are tried by the Court of Session, are heard by the Superintendent and Assistant Superintendents; and the tehsildars and managers try the petty offenders. Appeals from the orders of the Assistant Superintendents and the Manager of Mohurphunj, and in criminal cases from the orders of the Manager of Dhenkenal, are heard by the Superintendent; those from the orders of the tehsildars and the Manager of Baramba, and from decisions of the Manager of Dhenkenal in civil and revenue cases, are heard by the Assistant Superintendent. The managers, again, hear appeals from the orders of their assistants.

9. With regard to forest conservancy, the Superintendent remarks:—"The Tributary Mehals are without doubt among the best timber-producing tracts in India, but unfortunately the Native Chiefs, by whom a greater portion of it is owned, have hitherto taken little care of their forests. They have established no reserves, and the forests are recklessly wasted without any corresponding gain to agriculture or to the general wealth or prosperity of the country." The advice given to the Chiefs on this subject appears from the first to have been totally ignored by them. As the country is opened

up, and the timber becomes more valuable, the Chiefs will no doubt be induced, in view of their own interests, to preserve the forests. In the meantime the Superintendent can do no more than impress on them the future advantage they will gain by preservation. No officer could be spared from the Forest Department of this Government or of the North-Western Provinces during the past cold season to examine and advise the formation of reserves in the forests of Dhenkenal and Mohurbhunj, as the late Superintendent had suggested. The Lieutenant-Governor will, however, endeavour to procure the services of an officer for the purpose during the ensuing cold season. The Khondmal forests were, it is stated, during the year examined by the Conservator and Deputy Conservator, and considered to be valuable. No report or recommendations regarding them have, however, as yet been received by this Government. The Superintendent considers that it would, in a political point of view, be a very dangerous experiment to insist on the formal reservation of these forests, and that whatever is done should be done gradually and with the consent of the Khonds themselves. As the Superintendent expresses his intention of visiting this part of the country next cold weather, and taking some steps towards an indirect forest conservancy, the Lieutenant-Governor will await his report before passing further orders on the subject. The reserved forests in Angul were brought by a Government notification of the 6th December under section 19 of the Indian Forest Act. The reserves notified have not yet been accurately surveyed, but the total area is reported approximately at 170,880 acres. The reserves in Angul are not at present worked, and are to be allowed rest for 10 or 12 years. It is satisfactory to note that, as regards Angul, the demarcation of boundaries has been practically completed.

10. The number of schools shown in the returns for the year was 1,060 and of pupils 13,667. The former increased by 56 and the latter by 1,091 as compared with the preceding year. Of the schools, 7 were Government schools, 26 cess schools, 138 primary fund and 889 unaided schools. The total expenditure for the year was Rs. 60,029, of which Rs. 7,589 were contributed by Government. For the purpose of regular inspection of all schools, the mohals are divided into five circles, each of which is under a sub-inspector. One of these is paid from the Khondmal Education Fund; half of the pay of another from the funds of the Dhenkenal State; and the charges of the rest are paid by Government. The arrangements are stated to be insufficient and generally unsatisfactory, and the whole subject to be under consideration.

11. No change was made during the year in the number and sites of the post offices in the Gurjhat. There were 11 offices maintained from the Gurjhat post office fund, and the road establishment connected with these offices is paid by the Postal Department, the charges of the office establishments and contingencies being paid from the post office fund. The latter fund is made up by voluntary contributions by the Chiefs, the contribution of each being settled by the Superintendent's office. Some of the Chiefs fell greatly into arrears, there being no means of realizing the dues from them; but there appears a probability that the receipts will soon be sufficient to meet the expenditure. In addition to the post office lines maintained from the fund, there are four Government post office lines, viz. those from Cuttack to Angul, from Cuttack to Dhenkenal, from Balasore to Mohurbhunj and from Rosul Kunda in Ganjam to Bisipara in the Khondmals, and two private lines from Bhuddruck to Keonjhar and from Baripada to Bahalda.

12. The total current demand for the year under the head of land revenue in Angul was Rs. 32,983. There was no balance outstanding at the close of the year. Of the total demand of miscellaneous revenue, including arrears amounting to Rs. 6,630, the outstanding balance, which was entirely on account of judicial fines, was Rs. 403. Since the introduction of the sub-divisional system of accounts, payments into and from the sub-treasury are reported to be made regularly and punctually without any inconvenience. The excise revenue, owing to keener competition, increased from Rs. 1,244 to Rs. 1,579. The permanent retention of three peons for process service has been sanctioned since the close of the year. The only fund at the disposal of the Superintendent for roads and other improvements on the estate is the 10 per cent. assignment on the revenue collections, amounting during the past year to Rs. 3,245, and of this small sum good use appears to have been made. Owing

to the large number of life-tenures that had become liable to re-assessment, an application made by the Superintendent for an extra establishment was approved in July 1883. The Superintendent now reports that at the time of submitting the application there were 11 cases for disposal, involving a total area of 5,887 acres, but that 29 fresh cases, affecting an area of 7,563 acres, have since come up. Assessment was completed in only four cases, however, with an area of about 5 acres, and measurement only in four other cases. The amount of work shown as done appears extremely small, but no explanation is given. The Superintendent states that he is not satisfied that the detailed measurement or assessment was necessary, and that he will reconsider the question before applying for an extension of time for the employment of the extra establishment. The Lieutenant-Governor will await his report.

13. In Baramba the settlement operations are reported to be nearly complete. The jumma assessed at the new settlement amounts to Rs. 28,365— an increase of over Rs. 5,000 above the former assessment. Of the debt of Rs. 10,000, Rs. 9,500 have been paid off. The collections on account of land revenue amounted to Rs. 14,159, and miscellaneous revenue Rs. 5,493. Efforts should be made to reduce the heavy arrears.

14. The minor Rajah of Dhenkenal, now in his 19th year, passed at the last matriculation examination of the Calcutta University in all subjects except English, and in that he failed only by a few marks. A European tutor has been appointed for him and for the minor Chief of Mohurbhunj. The young Chief of Dhenkenal married a daughter of the Rajah of Banai, in the Central Provinces, in February last. The settlement of the State lands is reported to be not yet completed. Endeavours should be made to complete it, if possible, by the time the minor Chief assumes the administration. The total current demand for the year was Rs. 1,09,102 against Rs. 1,73,622 for the preceding year. This large apparent decrease, however, is nominal, as the preceding year's demand included Rs. 67,242 on account of the nazarana refunded by Government. The collections made during the year, including current and arrear demands, amounted to Rs. 1,06,370, and in addition to this amount Rs. 24,155 under land revenue and Rs. 512 under miscellaneous revenue were collected in advance for the current year. The sum of Rs. 1,04,585 was invested during the year in Government promissory notes. The management of the jail dispensary and schools appears to have been creditable. The total expenditure on public works amounted to Rs. 35,809. The Superintendent states that on his visit to Dhenkenal during last cold weather, he found that the system followed in regard to many public works was very unsatisfactory. Most of the roads constructed were only fair-weather ones, and were impassable during the rainy season. The Lieutenant-Governor approves of the Superintendent's orders to the Manager to prepare estimates for completing the metalling and bridging of five of the most important roads already made, and to postpone the construction of other new roads until those in existence have been completed. Every effort should be made to provide the State with good roads while it is still under direct management.

15. The State of Mohurbhunj, with an area of 4,243 square miles and a population of 385,737 souls, is the most important of the Tributary Mehals. The late Chief died in May 1882, and the State is now under direct management for his minor son, Sriram Chunder Bhunj, who is at present over 12 years of age. The Superintendent reports that, during the two years that the State has been under direct management, improvements have been made in almost every department of its administration. Justice is more speedily administered, the system of granting rent receipts in printed cheque forms is being gradually introduced, projects for the improvement of the State by tanks, irrigation bunds, and roads have been started, and the people are beginning to appreciate the advantages of the new system. The total demand for the year was Rs. 3,32,099, of which Rs. 1,82,505 were collected and Rs. 10,604 remitted. Of the balance, Rs. 1,38,989, remaining unrealized at the close of the year, Rs. 64,642 were due from the zemindari mehal of Nyabasan in Midnapore under the management of the Collector of that district. Labour is cheap and plentiful, the resources of the State are great, and they will probably be well developed during the remaining years of the minority. The construction of good roads, the proper settlement and collection of the land revenue demand, and the

preservation of the extensive and valuable forests, should for some years fully employ the attention of the officers and all the spare resources of the State. The minor was at the time the report was submitted studying at the Ravenshaw Collegiate School in Cuttack.

16. The Superintendent's report regarding Athmullik is again satisfactory. Although the revenue the Rajah derives from his State is under Rs. 11,000 per annum, he so well husbands his resources that he is able, while maintaining his own dignity, to meet the expenses of his Government, and even to effect public improvements. He has, it is stated, opened out a difficult pass and constructed a good road leading to it, has established a school in his killah, a dispensary, and a post office entirely at his own cost. Mr Rivers Thompson desires that his sense of the high character and continued good administration of the Rajah may be conveyed to this Chief.

17. But few details are given in the report regarding the State of Boad. During the year under review, Baboo Madhu Sudan Rantra was Dewan, and since his appointment no complaints have been made against him. The Rajah is believed to be still heavily in debt.

18. The Superintendent was not able to visit the Daspala State during the year, and though he reports that the administration of the State has much improved of late, he gives no details as to what improvements have been made. It is, however, at least satisfactory to find that the State is now less disturbed than formerly. The Superintendent should, if possible, visit this State during the next cold season, and impress on the Rajah the necessity of improving its material condition.

19. The Rajah of Hindole appears to be disposed to improve his State as far as his means permit. He reduced his debts from Rs. 6,494 to Rs. 4,366, has established two schools, and has undertaken to construct a road and dispensary as soon as his debts are cleared off. He was, during the year, very unfortunate in his domestic concerns: his only son and heir and an infant daughter died, and all the buildings in his palace and nearly all his moveable property with a portion of his office records were destroyed by fire.

20. The State of Keonjhur is one of the largest of the Tributary Mehals, its area being 3,096 square miles, but the revenue is under Rs. 90,000 per annum. The Maharajah continued to bear the good character he had hitherto borne; but the Superintendent should advise him of the advantages to be gained by improving the internal communications of his State.

21. The small States of Pal Lehara, Khandpara, Tigira, Runpore, and Nursingpore are in a very backward condition. The introduction of improvements in these petty mehals no doubt greatly depends on the personal character of their Chiefs, but the success which has attended the administration of an able Dewan in Talchere within the last four years indicates to what an extent under good advice and guidance the grossest mismanagement may be ameliorated.

22. The administration of the Nilgiri State is reported to have been in a more or less chaotic condition throughout the year under report. The Rajah's authority was for some time set at naught, and some cases of violence were reported. The services of Baboo Bholanath Das as Dewan were not found conducive either to good administration or to improvement of the relations between the Rajah and his people, and it was found necessary to dispense with them. At the special and urgent request of the Rajah for the appointment of a European officer in the stead of the late Dewan, the Lieutenant-Governor sanctioned the appointment of Mr. Ricketts, and it is hoped that officer will be able to restore tranquillity. The senior Rani, who opposed the adoption by the Rajah of a son of the late Chief of Mohurbhunj to the exclusion of a son of his own brother, is dead, but there are, it appears, still many who support the claims of the alleged first adopted son. The question is at present unsettled, but the Lieutenant-Governor is of opinion that it should not remain undecided until the Rajah's death. The delay has no advantages to recommend it, and can only result in ultimate disappointment to one or other of the claimants and to dissensions in the meanwhile. The Superintendent should, therefore, submit a detailed report on the contested claim to adoption in order that a final decision may be made at an early date as to which of the

claimants shall, in case of survival, be recognized as the heir on the death of the present Rajah.

23. Mr Smith held the office of Superintendent of the Tributary Mehals from 1st April to 6th July 1883. He then went on privilege leave for three months, and during the period of his leave Mr. Larminie acted for him. Mr. Smith returned on the 6th October and remained in charge till his appointment as Officiating Commissioner of the Presidency Division. From 25th November Mr. Larminie was again in charge till the end of the year. The Lieutenant-Governor desires to express his thanks to Mr. Larminie for his careful and interesting report. The Superintendent's remarks, contained in paragraphs 402 to 408 of that report, regarding the officers subordinate to him, will be recorded in the Appointment Department.

ORDER.—Ordered that a copy of the above Resolution be forwarded to the Superintendent of the Tributary Mehals of Orissa, for information and guidance.

Ordered also that a copy of the Report, together with a copy of the Resolution, be forwarded to the Government of India, in the Foreign Department, for information.

Ordered also that a copy of the remarks regarding the conduct of the officers engaged in the administration of the States during the year be forwarded to the Appointment Department of this Office for record.

Ordered also that a copy of the Resolution be published in the *Calcutta Gazette*.

RESOLUTION.

READ—

Letter No. 242I., dated Cuttack, the 8th September 1883, from the Commissioner of the Orissa Division.

Resolution No. 13I., dated the 9th January 1884, by the Government of India on the Bengal Irrigation Revenue Report for 1882-83

Letter No. 26I. of 15th January 1884, from the Government of India.

Memorandum No. 2140I.R., of the 6th October 1884, from the Revenue Department.

Letter No. 839A. of the 23rd September 1884, from the Board of Revenue, Lower Provinces.

OBSERVATIONS.—The Government of India, in the letter quoted above, expressed an opinion that the proposal made by the Commissioner of the Orissa Division in his Revenue Report for 1882-83, to enquire into the present system of charging water-rates in Orissa, was deserving of consideration. The Board of Revenue have since asked that, should a Commission be appointed to consider the matter, the propriety of levying an owner's rate on land irrigated or protected should be remitted to it for report. The Lieutenant-Governor has decided to accept these recommendations, and also to include in the points referred to the Commission certain alleged irregularities in the system of recovering water-rates by the certificate process.

RESOLUTION.—His Honor the Lieutenant-Governor has been pleased to appoint a Commission, consisting of the officers named below, to enquire into certain matters in connection with the Orissa canals :—

Lieutenant-Colonel J. M. McNeile, R.E., Joint-Secretary, Public Works Department, President.

Mr. R. H. Wilson, B.C.S.

Major C. W. I. Harrison, R.E., Superintending Engineer, Public Works Department, North-Western Provinces, Members.

The Commission will meet as soon as possible after 1st December next, and will enquire into, and report on, the following points :—

I.—The alleged oppressive procedure on the part of the Canal Revenue authorities in the assessment and recovery of water-rates, and especially on the operation of the "Certificate Procedure" Act (VII of 1880), which is stated to have been used in a hasty and injudicious manner, and to have caused considerable discontent among the ryots.

II.—The existing tariff of water-rates, both for long and short leases.

III.—The proposed imposition of an owner's rate, either on "Irrigated" or "Protected" lands.

The Commission should also express their view, from a consideration of the various facts which may be elicited in the course of the enquiry, as to the advisability of making any, and if so what, changes in the existing system of assessment and collection, and of the distribution of duties regarding assessments and the supply of water between the Engineer and Revenue officers.

ORDER.—Ordered that copies of this Resolution be forwarded to the officers nominated to serve on the Commission; to the Commissioner of the Orissa Division and to the Superintending Engineer, Orissa Circle, for information and guidance; to the Revenue, Appointment and Financial Departments of this Government; the Board of Revenue, Lower Provinces; and the Examiner, Public Works Accounts, Bengal, for information.

**RULES FOR THE ELECTION OF MUNICIPAL COMMISSIONERS,
UNDER ACT III (B.C.) OF 1884 FOR THE
SUBURBS OF CALCUTTA.**

The 25th October 1884.—The following rules for the election of Municipal Commissioners for the Municipality of the Suburbs of Calcutta have been laid down by the Lieutenant-Governor under section 15 of Act III (B.C.) of 1884.

Of the Number of Commissioners and Wards.

1. The Suburban Municipality shall be divided into six wards, in the following manner:—

Ward No. I, comprising the police thanas of Cossipore, Chitpore and Ooltadanga.

Ward No. II, comprising the thanas of Mannicktollah and Baliaghatta.

Ward No. III, comprising the thanas of Entally and Baniapookur.

Ward No. IV, comprising the thanas of Ballygunge and Tollygunge.

Ward No. V, comprising the thanas of Bhowanipore and Alipore.

Ward No. VI, comprising the thanas of Watgunge, Ekbalpore and Garden Reach.

2. There shall be thirty Municipal Commissioners, of whom ten shall be nominated by Government and twenty elected under these rules to represent the several wards.

3. The twenty elected Commissioners shall be allotted to the several wards in the following manner:—

To Ward No. 1, three Commissioners.

„ No. II, three „

„ No. III, three „

„ No. IV, two „

„ No. V, five „

„ No. VI, four „

Of the Qualification of Voters.

4. Persons otherwise qualified to vote must be males, who have resided within the limits of the municipality for one year previous to the date of the election.

5. Subject to the above rule, all persons who have, during the year immediately preceding the election, paid an aggregate amount of not less than Rs. 3 in respect of any rates imposed by the Act, and who have been duly registered as hereinafter provided, shall be qualified to vote.

6. Subject to the proviso contained in Rule 4, any person who, being a member of a joint undivided family, one of the members of which has, during the year preceding such election, paid, in respect of any of the rates imposed by the Act, an aggregate amount of not less than Rs. 3, is a graduate or licentiate of any University, or holds a certificate as a pleader or mooktear, or holds any office or employment carrying a salary of not less than Rs. 50 per mensem, shall be entitled to vote.

7. Each voter shall be entitled to vote for the ward in which he ordinarily resides, and for no other. Each voter shall have as many votes as there are vacancies, and may give as many of these votes as he pleases to any one or more candidates.

Of the Registration of Voters.

8. For each ward a register shall be prepared by the Municipal Commissioners, in which shall be entered the names of the persons qualified to vote at elections. This register for each ward shall be prepared as soon as possible after the approval of these rules by Government, and hereafter shall be revised annually, and republished on the 1st October in each year.

9. When the registers are ready, copies of them shall be affixed at the principal civil and criminal courts, and at the office of the Commissioners, and so much of them as may refer to each ward shall be affixed at each police-station in that ward, and at such other places as may be deemed by the Chairman to be necessary.

10. Objections to, and claims for, the registration of voters may be made at any time being not less than 18 days before the election. All such objections and claims shall be heard by three Commissioners, to be appointed by the Chairman, who do not stand for election in the ward to which the objections and claims apply. The decision of the majority shall be final.

11. No person shall be qualified to vote unless his name has been entered in the register of voters.

Of the Qualification and the Nomination of Candidates.

12. The Chairman shall, at least 30 days before the date fixed as hereinafter provided for the commencement of the elections, issue notices calling for nominations of candidates.

13. Any person qualified to vote under these rules shall be qualified for nomination as a candidate.

14. Any four persons registered as qualified to vote in any ward may nominate a candidate for election to represent such ward. The nomination shall be made in writing in the form annexed to these rules, and the candidate shall signify on the nomination paper his consent to the nomination. The nomination paper shall be delivered at the Municipal Office not less than ten days before the date fixed for the election.

15. The Chairman shall forthwith ascertain whether the nominators and the candidate respectively are qualified in accordance with these rules. If satisfied in this respect, he shall insert the name of the candidate in a list of candidates for the Commissionership or Commissionerships to be filled up. Such list shall also contain a specification of the qualifications of the candidate, and specifications of the names and qualifications of the persons nominating him.

16. On or before the morning of the ninth day previous to the election, the Chairman shall cause a copy of the list to be affixed at the Municipal Office, and another at each police-station within the ward.

17. Any registered voter may, within 48 hours from the publication of the list at the Municipal Office, object in writing to any such nomination; his objection shall specify the grounds on which it is made, and shall be delivered at the Municipal Office.

18. Such objection shall, within 24 hours, be decided summarily by the Sub-Committee appointed by the Chairman under Rule 10, and the decision, which shall be immediately announced, shall be final.

Of the manner of holding Elections.

19. The election of Commissioners in each ward shall be held on such date (not being less than 30 days after the publication of the registers of voters under Rule 9) as the Chairman, with the sanction of the Local Government, may appoint. This date shall be announced by advertisement in the *Calcutta Gazette*, and in such newspapers as the Chairman may think desirable; also by a notice affixed at the Municipal Office and at each police-station in the ward, and at any other place which may seem to the Chairman to be necessary for the due publication of the notice.

20. Elections shall be held at the following places:—

No. I	Ward	Obitpore police station.
" II	"	Baliaghatta ditto.
" III	"	Entally ditto.
" IV	"	Ballygunge ditto.
" V	"	Municipal Office.
" VI	"	Garden Reach police-station.

21. The Municipal Commissioners shall appoint polling officers and other establishments, and may define their duties so far as they may not be defined by these rules.

22. The allowances of establishments shall be fixed by the Commissioners, and these, as well as all other expenses incurred in conducting the elections, shall be paid from the funds of the municipality.

23. If the number of candidates be not greater than the number of vacancies, the Chairman shall declare the candidate or candidates to be duly elected. If there be any vacancies for which no candidates have appeared, the Chairman shall report the fact for the information of Government.

24. If the number of candidates be greater than the number of vacancies, the Chairman shall issue a public notice (to be affixed at the Municipal Office, at the police-stations, and at as many as possible of the chief public offices, and to be otherwise notified in such manner as may seem to him necessary), declaring the day and hours in which, and the place at which, the election is to be held, and also the names of the candidates.

25. The poll shall commence at 8 A.M. and shall close at 6 P.M.

26. Each candidate may appoint, by a letter to the Chairman, a copy of which shall be delivered by the candidate to each agent to serve as his authority, not more than two agents to be present at the polling place to watch the proceedings on his behalf, and to bring to the notice of the polling officers any instance of false personation or other malpractice which may come to their knowledge as the election proceeds. Such agents shall be bound to obey any directions which the presiding officer shall give them for the purpose of keeping order; and no election shall be invalidated on the ground that the presiding officer has exceeded his powers in this respect.

27. The polling officer shall be provided with a list of the registered voters qualified to vote within the ward.

28. The votes shall be taken by means of voting papers.

29. A voter may either attend at the polling place and record his vote, or he may forward his vote to the polling officer, so that it may reach him before the hour fixed for the close of the poll.

30. Any voter wishing to obtain a voting paper beforehand may apply, not less than five clear days before the day fixed for the election, at the Municipal Office for a voting paper. The application shall be in writing, and shall bear the signature of the voter written with his own hand; it shall specify his address and his number on the register. A voting paper in the form appended to these rules, shall be at once forwarded to the voter by post, or by such other mode of conveyance as may be convenient.

31. The voter having received this voting paper may—

- (1) Return it by post, duly filled up, to the Municipal Office, in a closed cover marked "Voting paper—Ward No.—;" or
- (2) Present it himself at the polling place within the time fixed for the poll.

32. All voting papers received at the office in accordance with the first clause of the last rule shall be made over unopened to the polling officer to be opened by him publicly at the polling place within the hours fixed for the poll.

33. Should any cover received at the Municipal Office, and not marked as required by Rule 31, be found to contain a voting paper otherwise in order, such paper shall be immediately placed in a cover and sent to the polling officer to be dealt with according to Rule 32.

34. No duplicate voting papers shall be issued, but any voter, to whom a voting paper may have been forwarded under these rules, may nevertheless attend and vote in person at the polling place. In this case the original voting paper shall be considered as cancelled.

35. The voting papers sent out from the office under Rule 30 shall be printed on paper of a different colour from that used for papers to be furnished at the polling place. They shall bear the signature of the Chairman stamped upon them, and shall be numbered consecutively, and duplicates of them similarly numbered shall be kept in counterfoil.

36. Any voter who may present himself at the polling place to vote shall appear before a polling officer, who shall question him as to his name, address,

and number on the register, and after noting these facts in a voting paper (numbered consecutively), and in the counterfoil, shall hand over the voting paper to him.

37. The voter shall, if he can read and write, record his own vote on it, and shall present it to the presiding officer, who shall initial it, and shall enter the vote on the copy of the register made over to him under Rule 27.

38. If the voter be unable to read and write, his vote shall be recorded for him by an officer authorized by the Chairman; the paper shall then be returned to him for presentation to the presiding officer, who shall deal with it as directed in the preceding rule.

39. In all cases in which the voting paper is filled up in a language other than English, the name of the voter and of the person or persons for whom he votes shall be entered in English by an officer authorized by the Chairman.

40. If a voting paper received by post is not in order, the polling officer shall nevertheless receive and record the vote, at the same time recording the objection and separating the voting paper from those papers to which there is no objection.

41. If an objection, on the ground of personation, of non-registry or any other cause, be made to the polling officer in any case, the vote shall nevertheless be noted and separated as above, and the objections shall be recorded.

42. Any agent appointed by a candidate in accordance with Rule 26 may inspect any voting paper. He may, at any time up to the close of the poll, object in writing to the reception of any vote, stating the grounds of his objections, and he shall sign such statement.

43. If in any case the presiding officer shall find that a second voting paper is presented, purporting to be on account of a person whose vote has been already recorded, he shall proceed in the same manner as in the case mentioned in Rule 41.

44. At the close of the poll, the presiding officer shall transmit to the Chairman all objections, together with all the records relating to them. The Chairman, or, if he be prevented from attending, a Sub-Committee of Commissioners appointed by him, shall proceed on the next following day, not being a Sunday or holiday, to hear and determine such objections, and the decision shall be final.

45. At the close of the poll, the polling officer shall forward to the Chairman all the voting papers, arranged according to their consecutive numbers, in a packet duly sealed and secured.

46. As soon as may be after the decision of objections has been concluded, the Chairman shall publish, in the *Calcutta Gazette*, and at the Municipal Office, the names of the person or persons in whose behalf votes have been recorded, and the number of votes given for each of them; and the candidates for whom the greatest number of votes shall have been given shall be declared to have been duly elected.

47. If the same person be a candidate for election in more than one ward, on his election for one ward he shall cease to be eligible in any other ward.

48. In case of an equality of votes, the Chairman shall give a casting vote.

49. No election shall be invalidated on a point of form, provided that these rules have been substantially obeyed.

50. No election shall be invalidated on account of any irregularity whatever, unless it shall appear that that irregularity was such as materially to affect the result of the election.

51. No person in the employment or pay of the Municipality shall, directly or indirectly, engage in canvassing for votes, or otherwise assist in the election of any candidate, otherwise than by giving his own vote. Any breach of this rule will render the offender liable to dismissal.

COLMAN MACAULAY,

Secretary to the Government of Bengal.

ORDERS DECLARING THE NUMBER OF COMMISSIONERS TO BE
ELECTED FOR EACH WARD IN THE HOWRAH MUNICIPALITY.

The 13th October 1884.—In continuation of the notification dated the 29th September 1884, published at pages 1013 to 1015, Part I, of the *Calcutta Gazette* of the 1st October 1884, the Lieutenant-Governor is pleased to declare that the number of Commissioners to be elected for each ward in the Howra Municipality shall be as follows:—

For each of the Wards Nos. I, IV, V, VI, VII, and IX, two Commissioners.

For each of the Wards Nos. III and VIII, three Commissioners.

For each of the Wards Nos. II and X one Commissioner.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

**RULES FOR ELECTION OF MUNICIPAL COMMISSIONERS
UNDER ACT III (B.O.) OF 1884.**

The 29th September 1884.—The following rules for the election of Municipal Commissioners in all Municipalities in the Burdwan, Presidency, Rajshahye, Dacca, Chittagong, Patna, Bhagulpore, Orissa, and Chota Nagpore Divisions (except Howrah and the Suburbs of Calcutta), have been laid down by the Lieutenant-Governor under section 15 of Act III (B.C.) of 1884:—

Of the qualification of voters.

1. Persons otherwise qualified to vote must be males, who have resided within the limits of the municipality for one year previous to the date of the election.

2. Subject to the above rule, all persons who have, during the year immediately preceding the election, paid an aggregate amount of not less than Re. 1-8 in respect of any rates imposed by the Act, and who have been duly registered as hereinafter provided, shall be qualified to vote.

3. Subject to the proviso contained in rule 1, any person who, being a member of a joint undivided family, one of the members of which has, during the year preceding such election, paid in respect of any of the rates imposed by the Act an aggregate amount of not less than Re. 1-8, is a graduate or licentiate of any University, or holds a certificate as a Pleader or Mooktear, or holds any office or employment carrying a salary of not less than Rs. 50 per mensem, shall be entitled to vote.

Of the registration of voters.

4. As soon as possible after these rules shall have been published, the Magistrate of the district shall cause to be prepared a register of persons qualified to vote. Such register shall be prepared from the assessment lists, from enquiries made by persons specially deputed for the purpose, and in such other manner as may appear expedient. Such register shall from time to time be corrected and added to as the Magistrate may direct. It shall be the duty of the Chairman of the Municipality to furnish the Magistrate or the Sub-Divisional Officer with any available information required for the preparation and correction, from time to time, of the register in question.

5. At least one month before the date fixed for the elections as hereinafter provided, an extract from the register, showing the persons qualified to vote within each Ward, shall be published at suitable places within that ward. A copy of the whole register shall also be published at the municipal office.

6. The Magistrate, or such other gazetted officer as he may depute for the purpose, shall sit to hear and decide objections to, and claims for, registration of voters on some date of which at least three days' notice shall have been given, and which shall be at least ten days after the publication of the lists in question, and at least one week before the date fixed for the commencement of the elections; and such decision shall be final.

7. The ward lists as amended, after the hearing and decision of claims and objections, shall be considered as the final lists of persons entitled to vote at the elections, and no person whose name does not appear in the ward lists shall be permitted to vote.

Of the qualification and the nomination of candidates.

8. Any person qualified to vote under these rules shall be qualified for nomination as a candidate.

9. Any rate-payer qualified to vote may nominate any other qualified person as a candidate.

10. The Magistrate shall, at least six weeks before the date fixed for the commencement of the elections, issue notices calling for nominations of candidates. Such nominations shall be delivered at the municipal office within fourteen days from the date of publication of the notices in question. No names of candidates shall be received after the expiration of such period.

11. The preliminary list of candidates, with the names of the person nominating them, shall be published in each ward, and at the municipal office at least three weeks before the date fixed for the commencement of the elections. A notification shall at the same time be published, fixing a date for the hearing of objections to candidates. Such date shall be at least one week later than the publication of the notification in question.

12. The Magistrate, or such other gazetted officer as the Magistrate may depute for the purpose, shall hear and decide all objections to candidates; and such decision shall be final. Before publishing the final list, he shall ascertain that all the candidates are eligible and willing to stand for election.

13. The final list of candidates shall be published in each ward, and at the municipal office, at least one week before the date fixed for the commencement of the elections. No candidate whose name is not contained in such list shall be eligible for election.

Of the manner of holding elections.

14. The elections for the different wards shall be held on such date as may be fixed by the Lieutenant-Governor and notified in the *Calcutta Gazette*.

15. The Magistrate shall decide at what place the election for each ward shall be held.

16. The date fixed for the election in each ward shall be duly notified by beat of drum, and by the publication of notices in such ward at least one month beforehand.

17. Each voter shall be entitled to vote for the ward in which he ordinarily resides, and for no other. He shall be entitled to vote for as many candidates as there are vacancies for such ward.

18. All persons wishing to vote must be present at the elections. No votes by proxy or in writing shall be received.

19. The Magistrate, or such other gazetted officer as the Magistrate may depute for the purpose, shall preside at the election for each ward, assisted by a Committee of not less than three and not more than five rate-payers of the ward, nominated by the Magistrate.

20. The proceedings shall commence by the presiding officer explaining the nature and objects of the meeting to the assembled voters. He shall then read out the list of candidates, and state the number of vacancies.

21. Each candidate shall then be proposed by one qualified voter, and seconded by another. Subject to the control of the presiding officer on points of order, each candidate and his proposer and seconder shall be permitted to address the assembled voters on the subject of his candidature. The names of candidates not duly proposed and seconded shall be removed from the list.

22. In the case of the number of the candidates duly proposed and seconded not being greater than the number of vacancies, the presiding officer, if he is satisfied that not less than 10 per cent. of the registered voters for the ward or wards in which the election is taking place are present, shall at once declare such candidates to be duly elected.

23. If the number of candidates duly proposed and seconded exceeds the number of vacancies, the presiding officer shall proceed to call for a show of hands in favour of each candidate. The presiding officer shall decide and state which of the candidates have received the largest number of votes by the said shows of hands. Should no poll be demanded against any one candidate, he shall declare such candidate to be duly elected.

24. Any defeated candidate, or his proposer or seconder, may demand a poll on his behalf, as against any or all of the candidates selected under the above rule.

25. When a poll is demanded, the votes shall then and there be recorded by the presiding officer with his own hand. All objections to voters shall, if possible, be summarily decided by the presiding officer, after reference to the register. No objections shall be entertained other than objections arising out of matters subsequent to registration under rule 6.

26. The presiding officer shall then and there declare such candidates as have a clear majority of votes to be duly elected. Provided that no candidate shall be declared to be duly elected unless at least 10 per cent. of the registered voters for the ward have appeared and recorded their votes.

27. If 10 per cent. of the registered voters for the ward are not present (Rule 22), or have not appeared and recorded their votes (Rule 26), the presiding officer shall report that the electors have failed, under section 16 of the Act, to elect Commissioners for the ward.

28. In case of an equality of votes for the same vacancy, and when the number of vacancies does not admit of all the candidates who have obtained an equality of votes being elected, the presiding officer shall postpone the election, fixing at the same time a date upon which the proceedings shall be re-commenced. When the majority for any candidate consists only of disputed votes, with reference to which further enquiry appears to be necessary, the result of such enquiry shall be notified on a subsequent date.

29. The list of duly returned candidates for the whole municipality shall be forwarded to the Commissioner of the Division for publication in the *Calcutta Gazette*.

Miscellaneous.

30. No person in the employment or pay of the municipality shall, directly or indirectly, engage in canvassing for votes, or otherwise assist in the election of any candidate, otherwise than by giving his own vote. Any breach of this rule will render him liable to dismissal.

31. All costs incurred in the preparation of the register of voters, the publication of notices, the holding of elections, or taking any other necessary actions under these rules, shall be payable by the Commissioners out of the municipal fund.

COLMAN MACAULAY,

Secretary to the Govt. of Bengal.

The 29th September 1884.—The following rules for the election of Municipal Commissioners in the Municipality of Howrah have been laid down by the Lieutenant-Governor under section 15 of Act III (B.C.) of 1884:—

Of the number of Commissioners and Wards.

1. There shall be 30 Commissioners, of whom 20 shall be elected under these rules, and 10 shall be appointed by Government.

2. The municipality shall be divided into 10 wards in accordance with the schedule annexed.

Of the qualification of voters.

3. Persons otherwise qualified to vote must be males, who have resided within the limits of the municipality for one year previous to the date of the election.

4. Subject to the above rule, all persons who have, during the year immediately preceding the election, paid an aggregate amount of not less than Rs. 3 in respect of any rates imposed by the Act, and who have been duly registered as hereinafter provided, shall be qualified to vote.

5. Subject to the proviso contained in rule 3, any person who, being a member of a joint undivided family, one of the members of which has during the year preceding such election, paid in respect of any of the rates imposed by the Act an aggregate amount of not less than Rs. 3, is a graduate or licentiate of any University, or holds a certificate as a Pleader or Mooktear, or holds any office or employment carrying a salary of not less than Rs. 50 per mensem, shall be entitled to vote.

Of the registration of voters.

Secretary to the Govt. of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different District of Bengal, as reported to Government during the week ending the 1st November 1884.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date
BENGAL.			
<i>Western Districts.</i>			
BURDWAN DIV.	1 Burdwan, Nov. 1 '84	Nil	Weather—cool and clear. Not much farther change of prospects now expected.
	Cutwa	3.97	Price of rice rising and is from 11½ to 14 seers per rupee. Public health fair.
	Culina	1.89	
	Raneegunge	2.28	
	2 Bankoors, " 1 "	1.74	Weather—heavy rain at the close of last week and beginning of this week, clear since, and cloudy again at the close of this week. <i>Amun</i> crops promising well. Price of rice still falling and now varying from 17 to 23 seers per rupee.
	Bishonpore	1.61	Recent rain did a little damage to winter paddy and <i>rubbee</i> crops that have been sown. Generally speaking, however, the rain was very beneficial, especially to tanks and crops on high lands. Public health continues good.
	Maliara	3.04	
	Khattra	2.89	
	3 Beerbhoom, " 1 "	0.79	Weather—showery at beginning of the week; afterwards fine. Prospects of <i>amun</i> crops somewhat improved by recent rain. Outturn of paddy expected to be on an average an eight anna crop. Prices show a tendency to fall. General health satisfactory.
	Rampore Hant	1.67	
PRESIDENCY DIV.	4 Midnapore, " 1 "	1.50	Weather—cool and clear. More than 12 inches of rain fell at Cutai last week; prospects of standing crops decidedly good. Fever very prevalent in the Ghatal and Sudder sub-divisions.
	5 Hooghly, " 1 "	.69	Weather—seasonable. Prospects of crops favourable. Prices still high, but expected to fall very shortly. Fever prevails.
	Sorampore	1.40	
	Jshanabad	1.92	Weather—fair. Prospects of crops everywhere good.
	Howrah, " 3 "	0.03	
	Ooloobariah	2.81	
	<i>Central Districts.</i>		
	6 24-Pergha, Nov. 3 '84	Nil	Weather—seasonable. Prospects of <i>amun</i> paddy continue satisfactory. <i>Rubbee</i> crops promise well. Public health generally good.
	7 Nuddea, " 1 "	.43	Weather—cloudy, rainy, and cool. The late rain has been very beneficial. The existing <i>amun</i> and <i>rubbee</i> crops doing well. Fever continues.
	Kooshtea	2.53	
	Meherpore	3.53	
	Choodanga	3.34	
	Ranaghat	3.48	
RAJSHAHY DIV.	8 Khoolna, " 1 "	0.50	Weather—very cloudy and stormy since yesterday. Prospects very favourable, but if rain continues crops will suffer.
	9 Jessore, " 1 "	0.77	Weather—cloudy and windy at the latter part of the week. Prospects of <i>amun</i> crops continue to be good. Sowings of <i>rubbee</i> crops going on. No more rain wanted. Fever prevalent.
	Jhenida	2.37	
	Magoorah	2.54	
	Narail	2.19	
	Bongong	2.80	
	10 Moorshedabad, " 1 "	0.23	Weather—rain at the beginning of the week, and since then cool, but somewhat cloudy. The recent rain improved prospect of <i>amun</i> crops throughout the district. As, however, the area planted out is limited, not more than a six-anna crop can be expected. <i>Rubbee</i> crops being sown under favourable circumstances. Public health fairly good, although a few cases of cholera are reported from Jungipore.
	11 Dinagapore, Oct. 31 84	.60	Weather—showery and cool. <i>Amun</i> paddy has been benefited by recent rain. Sugarcane being cut. Pulses and mustard doing well. Rice selling at from 10 to 14 seers per rupee.
	12 Rajshahye, Nov. 1 "	1.74	Weather—rather cloudy. Prospects much improved by late rain, particularly in Nowgong. <i>Amun</i> crops fairly promising. <i>Rubbee</i> crops generally well spoken of. Health fair. Slight cholera still in Nowgong.
	Nattore	2.0	
RAJSHAHY DIV.	13 Rangpore, " 1 "	1.76	Weather—seasonable. Prospects of <i>amun</i> crops bad. Other standing crops doing well. Fever prevalent.
	Nulphamari	.25	
	Gaibanda	1.03	
	Kurigram	1.33	
	14 Bogra, " 1 "	1.01	
	15 Pubna, " 1 "	1.09	Weather—cool and cloudy. The recent rain will add much to the yield of paddy which has survived drought, but it will principally improve spring crops, which are all doing well. Rice a little cheaper. Cholera and fever everywhere prevalent.
	16 Darjeeling, " 1 "	2.90	Weather—cool, still threatening rain. The recent rain has done much good, and improved prospects of crops generally. Cholera has commenced earlier, and fever more prevalent than usual at this time.
RAJSHAHY DIV.	17 Julpigoro, " 1 "	2.40	Weather—clear and bright. Heavy rain fell on Sunday. Prospects of <i>kaimanti</i> crops fair. Wheat and barley being sown. Mustard coming up.
		0.43	Weather—getting colder every day. Condition of <i>kaimanti</i> paddy on high lands not satisfactory. Price of rice in thana Boda risen to 9 seers per rupee, probably due to drain from the district. Sugarcane a good crop; rain wanted. Some cholera at Patgram.

No.	District. and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—conold.			
<i>Eastern Districts.</i>			
Dacca Divn.	18 Dacca, Nov. 1 '84	1.52	Weather—rainy. Harvesting of sugarcane continues, that of <i>amun</i> paddy commenced. Mustard seed and other winter crops being sown. Standing crops much benefited by seasonable rain. Prospects of crops good. Public health good.
	Mauckgunge ...	1.65	
	Moonsheegunge ...	2.88	
	19 Furreedpore, „ 1 „	0.55	Weather—cold and cloudy at the close of the week. Prospects of <i>amun</i> paddy fair. Some damage to sowings of <i>rubbee</i> by recent rain.
	Goalundo ...	1.63	
	Madaripore ...	3.30	Weather—rainy and cloudy during the first part of the week and seasonable during the latter part. The rain has done good to <i>amun</i> crops. Price of rice slightly rising. Fever still prevalent in some parts of the district.
	20 Backergunge, Oct. 30 „	5.53	
	21 Mymensingh, „ 31 „	3.16	Weather—bright and cool. The rain has been general and has done much good to all crops. Prospects much improved.
	Jamulpore ...	3.62	
	Kishoregunge ...	2.99	
	Attia ...	2.40	
Chittagong Divn.	Netrokona ...	4.34	Weather—violent storm with rain on Saturday last, slightly damaging standing crops. Prices stationary. Sporadic cases of cholera reported.

RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE ON THE ADMINISTRATION OF THE SALT DEPARTMENT FOR THE YEAR 1883-84.

GENERAL DEPARTMENT—MIS. REVENUE.

Calcutta; the 30th October 1884.

RESOLUTION.

READ—

The Report of the Board of Revenue on the Administration of the Salt Department for the year 1883-84.

The financial results of the fluctuations in receipts and charges of this Department, which have occurred during the past two years, are compared in the following statement:—

HEADS.	1882-83.	1883-84.	Increase.	Decrease.
RECEIPTS.	Rs.	Rs.	Rs.	Rs.

Approximate net revenue ...	1,80,26,648	1,80,47,746	21,098

The figures above show a decrease of Rs. 67,160, or 3 per cent. in the receipts, and of Rs. 88,258 or 27·7 per cent. in the charges, thus yielding an increase of Rs. 21,098, or ·1 per cent. in the net revenue. While there has been a decrease in the receipts from duty on imported salt, that on excise salt yielded an increase (Rs. 2,281, or ·01 per cent.), the net decrease in the receipts from duty on salt being slight, and calling for no comments. The decline in the receipts from rent of warehouses is attributed chiefly to the stocks being low, a state of things which continued for some months during the year under review. The decrease in the charges has been due to smaller refunds of customs duty on salt.

2. The total quantity of salt in stock at the commencement of the year was 14,16,637 maunds against 23,18,543 maunds in 1882-83. During the year under review, 94,62,565 maunds were imported against 84,46,014 maunds imported in the previous year, and 6,37,672 maunds were manufactured locally against 2,87,816 maunds locally manufactured in 1882-83. The total quantity available for consumption during the year thus amounted to 1,15,16,874 maunds against 1,10,52,403 maunds in 1882-83. Duty was paid on 91,64,307 maunds, including 5,16,498 maunds of Bombay salt passed free of duty. The stock in hand left at the close of the year was 20,00,056 maunds against 14,16,637 maunds in the previous year. There has thus been an increase both in importation and manufacture during the year of report.

As usual, Calcutta and Chittagong were the only ports into which salt was imported, the chief sources of supply being the United Kingdom, France, Bombay, Madras, the Arabian and Persian Gulfs and Italy. Spain and Austria did not contribute anything, and only a small consignment was received from Port Elizabeth. The Lieutenant-Governor notices with pleasure the attempt made by the Compagnie Nationale de Navigation through Messrs. Ralli Brothers to import Sardinian salt and obtain cargoes from the Mediterranean ports, and trusts the enterprise will prosper in their hands. This attempt to open up a new line of trade explains the increase in importations from Italy, while the enhanced import from the Arabian and Persian Gulfs is attributed to the stocks of salt from those ports having fallen very low at the close of last year. Depression in the Eastern trade, small profits from freights for the homeward voyage, previous losses, and continued low prices, are said to have led to the decline in the importations from Liverpool. The proposal to reduce the wastage allowance to 3 per cent. by introducing a more careful system of weighment at Liverpool is still under the consideration of the Board of Revenue.

3. The clearances of imported salt from shipboard increased by 5,36,843 maunds, or 8·5 per cent. in Calcutta, and by 61,573 maunds, or 88·3 per cent in Chittagong during the year under report, thus showing a total increase of 5,98,416 maunds, or 9·4 per cent. in the quantity cleared at both the ports. The duty realized on the same amounted to Rs. 1,33,67,827 against Rs. 1,23,61,188 in 1882-83, showing an increase of Rs. 10,66,639, or 8·1 per cent. In addition to the above quantity, 54,650 maunds were cleared from shipboard at Chittagong under bond for Naraingunge. The increase in clearances from shipboard is attributed to large imports, slow trade, and low freights, as will be shown below.

A decrease of 7,65,768 maunds, or 30·4 per cent. in Calcutta, and of 13,472 maunds, or 4·7 per cent. in Chittagong, is observed in the clearances of

imported salt from bond during the year under review; while, on the other hand, there was an increase of 20,131 maunds, or 80·8 per cent. in Naraingunge, and of 1,044 maunds in Balasore. The net decrease thus amounted to 7,58,055 maunds, or 23·3 per cent. in the total quantity cleared from bond in all the four ports, and of Rs. 13,11,707 or 26·4 per cent in the duty realized.

Five thousand nine hundred and eight additional maunds of salt were removed from Chittagong to Calcutta under section 105 of the Customs Act, while 4,59,520 maunds were cleared for Noakhally, Tipperah, Naraingunge, Chittagong and Calcutta on payment of duty at Chittagong, against a total quantity of 3,96,793 maunds in 1882-83. The increase is mainly attributable to larger clearances for Naraingunge.

4. The result of the manufacture of excise salt compares very favourably with that of the past two years, the total quantity manufactured amounting to 6,37,672 maunds against 2,87,816 maunds in 1882-83, thus showing an increase of 3,49,826 maunds. The outturn during the year under review was even larger than that in 1880-81 (6,15,776 maunds), which was a very successful year.

In the 24-Pergunnahs, where the manufacture was in the hands of one licensee, it was altogether abandoned during the course of the year. The licensee did not apply for a license on account of his having, it is said, a large stock in hand, and the trade not being profitable owing to the comparatively low price of imported salt.

In the Pooree and Balasore districts there was an increase of 2,75,751 maunds and 94,137 maunds respectively, while in the district of Cuttack there was a falling off of 12,413 maunds. The net increase in the Orissa districts was therefore of 3,57,469 maunds, or 127·5 per cent. in the quantity of salt manufactured during the year under review.

The *Kurkutch* or sun evaporated salt forms the bulk of the excise salt in Pooree, and the fact that the year was favourable for its manufacture partially explains the increase in this district. The dryness of the season explains also the increase in Balasore. These circumstances, combined with the efforts made by the manufacturers to recoup the loss sustained by them previously, and to bring the stocks up to the mark, secured the result noted above. The result would have been more satisfactory had not a class of the manufacturers, who were trying to counterbalance the partial failure of their rice crop by securing a good outturn of excise salt, been deterred from carrying on their operations by a sudden outbreak of cholera.

The existence of large stocks left undisposed of at the close of the previous year, coupled with the breaking out of bad weather during the year under review, which prejudiced the manufacturing operations, led to the reduced outturn in the district of Cuttack.

5. There was an increase in the sales of excise salt of 4,157 maunds in the 24-Pergunnahs, of 10,762 maunds in Cuttack, and of 94,450 maunds in Pooree, while in the district of Balasore the sales fell off by 33,158 maunds. The net increase in the sales thus amounted to 76,230 maunds or 20·9 per cent., and in the duty to Rs. 1,52,459 or 20·9 per cent.

It is pointed out that the increase in the sales in the 24-Pergunnahs is no indication of the development of the trade in excise salt, as the licensee simply attempted to clear as much salt as he could, and established a number of retail shops, disposing of the article even at a loss.

The increase in the district of Cuttack calls for no comments, having been exported either to Balasore or to the Tributary Mehals. *Kurkutch* salt, which is cheaper, is imported to this district in exchange for the salt locally manufactured, which is sent out to the neighbouring places.

In 1881 competition of Ganjam salt led almost entirely to the decrease in the sales in Pooree. In addition to this, the manufacturers there, learning of the smallness of the stock at the Ganjam warehouse, combined to demand comparatively higher prices for salt of inferior quality with the hope of realizing large profits. Their hopes were, however, frustrated, and in 1882-83 they lowered their prices, but too late to affect that year's result. It is satisfactory to note that their rate has now been reduced from Rs. 2·8 per maund in 1882-83 to Rs. 2·3 in 1883-84, which has led to a large increase in the sales in this district. That the Pooree manufacturers have regained their

position in the market is apparent from the fact that, while the sales from Pooree increased by 94,450 maunds, those from Ganjam fell off by 84,605 maunds.

Of the decrease of 30,000 maunds in the Balasore district, 10,000 maunds are made up by the increased sales of Cuttack and the Liverpool salts in the protected area. With regard to the balance, it is said that sales from outside into the unprotected area, which cannot be ascertained, explain it partially. Increased consumption of Liverpool salt in Mohurbhunj, which used to take its supply from Balasore, also contributed to the decrease noted above.

6. The sales of salt in the portions of the saliferous districts of Bengal and Orissa, in which the *rowanah* system is in force, rose during the year under review from 9,96,877 to 10,22,157 maunds, thus showing a net increase of 25,280 maunds or 2·5 per cent. Increase in consumption is noticed in the districts of the 24-Pergunnahs, Khoolna, Backergunge, Chittagong and Cuttack, while Midnapore, Howrah, Noakholly and Balasore show a falling off.

Sales in Midnapore show a decrease amounting to 1,938 maunds or 3·3 per cent. Emigration on a larger scale than usual, the closure of the Orissa Coast Canal for a portion of the year, the facilities for manufacturing salt from brine, the high price of salt within salt limits, the failure of the police to detect illicit manufacture, are set forth as the causes which led to the decrease in question. Decrease of consumption in the Contai thana of this district was noticed in 1881-82, and formed the subject of a special report. Illicit manufacture was the principal cause of the decrease, and increased attention subsequently paid to its suppression led to an increase in consumption of 801 maunds in 1882-83. Of the causes enumerated above, it appears to Mr. Rivers Thompson that the decrease is mainly due to the inactivity of the police.

The decrease in Noakholly and Balasore is mainly due to increased purchases outside the protected area, while that in Howrah calls for no comments. Influx of visitors to the Exhibition accounts for the increase in the 24-Pergunnahs. In Khoolna importation of a large number of workmen may have to some extent led to the increase noted, but it is more probably due to the increased requirements of a growing population. The increase in Backergunge during the year under review confirms the belief expressed last year, that illicit manufacture is not carried on to any very great extent in that district. Vigilance on the part of the police in suppressing illicit manufacture and transport is said to have led to the increase in Chittagong. The increase in Cuttack was the largest, amounting to 11,732 maunds or 6·1 per cent.

7. The returns of salt attached, released, and confiscated during the year are more satisfactory than they were last year. Four hundred and fifty-nine seizures were made against 432 in the previous year, while the quantity of salt attached was only 697 maunds against 4,755 maunds in 1882-83. Midnapore again shows a falling off in the number of seizures as well as in the quantity attached. Out of the 19 cases of seizure in which 5 maunds and 14 chittacks were attached, 3 maunds 31 seers 2 chittacks were confiscated in 17 cases, while 1 maund 9 seers 12 chittacks were released in two cases. Considering the total result of the salt administration of this district, the Lieutenant-Governor cannot help remarking that the police must have been very negligent during the year under review with regard to this portion of their duties. The quantity of salt released was 547 maunds in 22 cases against 4,594 maunds in 40 cases, while that confiscated was 150 maunds in 436 cases against 163 maunds in 395 cases in 1882-83 respectively. The ratio of the quantity released to the quantity attached was therefore 79 per cent against 96 per cent. in the previous year, which is satisfactory. Of the 201 maunds of salt attached in 13 cases in Howrah, 200 maunds had to be released in one case, and the rest confiscated in the remaining 12 cases. The Commissioner is right in holding that this result suggests hasty action on the part of the police. The results in the districts of Backergunge and Noakholly are accepted as satisfactory. In the former the whole quantity attached (19 maunds 13 seers 4 chittacks) was confiscated, and in the latter, out of 12 maunds 25 seers 15 chittacks attached, only 15 seers were released, thus showing the judiciousness displayed by the police officers in making these attachments. In Cuttack the seizures numbered 103 with 122 maunds of salt attached, 25 maunds of which were confiscated in 102 cases and the balance released in one

case. The seizures in the other districts call for no special comments. The number of seizures and of unsuccessful searches was 624 and 102 against 518 and 147 respectively in 1882-83, a result which is not unsatisfactory. The state of affairs disclosed in the district of Backergunge requires further explanation. One hundred and sixty-seven unsuccessful searches and 43 seizures were at first returned for this district, 102 of the former and 3 of the latter being in one sub-division alone. The figures were, however, subsequently corrected after "a careful enquiry" from 167 and 43 to 39 and 64 respectively. But it is not clear on what basis this enquiry was made and the figures altered, and the Lieutenant-Governor requests that the Board will call for further particulars on this point.

8. The number of prosecutions for offences against the Salt laws rose from 1,077 in 1880-81 to 1,262 in 1881-82, 1,173 in 1882-83 to 1,306 in 1883-84. The number actually disposed of, including cases pending from the previous year, was 1,304 against 1,174, while convictions were secured in 1,128 cases against 1,078 in 1882-83 respectively. Midnapore, Khoolna and Noakholly show an increase in the number of cases instituted, the others showing a decrease, except the 24-Pergunnahs, where the number was the same as that in the year preceding. Cases under sections 20 and 21 form the bulk of those in Midnapore, most of which were instituted in Contai. The Lieutenant-Governor agrees with the Commissioner in the view that the rule requiring all sales to be entered in the pages should not be too strictly enforced. As a rule, people found breaking the conditions of their license should at first be warned, and prosecution should only be resorted to if the warning has no effect.

9. The amounts realized as fines and disbursed as rewards were Rs. 4,986 and Rs. 3,352 against Rs. 6,529 and Rs. 4,167 respectively in 1882-83. The action of the Deputy Magistrate of Balasore with regard to the payment of rewards is noted with displeasure. Rewards liberally and promptly awarded are great incentives to the detection and prosecution of breaches of the Salt law.

10. The Lieutenant-Governor approves of the Board's decision not to introduce any change in the present Salt law limits of the Khulna district. The larger question of placing the manufacture and sale of excise salt in Orissa under the supervision of the Commissioner of Salt Revenue, Madras, subject to the control of this Government, will be considered in connection with the special report on the subject recently submitted by the Board of Revenue.

11. In paragraph 9 of the Government Resolution on the Board's report for 1881-82, the question of simplifying the present salt system for the greater convenience of the public was initiated. Reports from the Commissioners of the saliferous districts were called for and incorporated in the Board's report for 1882-83. Supplementary opinions have again been furnished in the Board's report under review. The Board think that the existing salt system should be allowed to continue until the question of bringing the salt administration in Orissa under the control of the Madras Salt Commissioner is settled. The Lieutenant-Governor will postpone expressing his own view in the point.

12. The Lieutenant-Governor thanks the Board for their careful administration of the department during the year. The name of the officer favourably mentioned will be communicated to the Appointment Department.

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community taken in February 1881 was not reliable, owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios are consequently calculated on the revised population under all heads in the above table, except "Age," the ratios under which have been omitted, inasmuch as the census of the Europeans above included to cannot be employed as a basis of calculation owing to the result of the census under this head not having been recorded under the authorized form of age classification.

EAST INDIAN RAILWAY.

Statement of Goods Traffic in Staples carried during the five weeks ending 27th September 1884, as compared with the same period of 1883.

[illegible]

General Remarks on the fluctuation of principal staples carried over the East Indian Railway during five weeks ended 27th September 1884.

INCREASES.

Piece-goods.—This increase is due to a better demand on account of the Doorga Poojah Holidays.

Government Stores.—Large despatches of gunpowder and other stores to the Punjab account for this increase.

DECREASES.

Coal, up.—This decrease is attributable to fluctuating demand on foreign railways.

Railway Material, Foreign.—The heavy falling off in this material was owing to the despatches for State and other railways under construction having been less than during the corresponding period last year.

Seeds.—Small stocks, and buyers holding out for lower rates, caused a less active market than last year.

Rice.—This decrease is accounted for by the old crop having been deficient and the new crop not in the market.

Cotton.—This is assignable to a drop in the prices at Liverpool, which caused dulness in the Indian markets.

Sugar.—Partial failure of last year's crop accounts for the falling off in this staple.

Wheat.—An exceedingly dull market, and almost total absence of demand for export, account for the decrease in wheat traffic.

Gunny.—This is due to the stagnation in the wheat traffic.

Ghee.—Due to ordinary fluctuation of trade.

Tobacco.—Want of demand in Punjab and Rajputana caused the decrease in this staple.

NOTIFICATION.

The 15th November 1884.—Whereas a notification, dated the 22nd June 1884, declaring the intention of the Lieutenant-Governor to confirm the bye-laws, set forth below, which have been framed by the Commissioners of the Doomraon Municipality under section 313, Act V (B.C.) of 1876, was published at pages 728-730, Part I of the *Calcutta Gazette* of the 2nd July last, and whereas no objection has been raised to them, it is hereby notified that, in the exercise of the powers conferred on him by section 351 of Act III (B.C.) of 1884, and on the recommendation of the Commissioners of the Doomraon Municipality made at a

meeting, the Lieutenant-Governor confirms the said bye-laws and sanctions the penalties which have been provided by the Commissioners for their infringement:—

BYE-LAWS OF THE DOOMRAON MUNICIPALITY.

For regulating the disposal of offensive matter, rubbish, and dead bodies of animals.

1. Every person within whose premises any animal may die shall, within four hours after its death, or if death occurs at night, within two hours after daylight, either at his own expense, cause the carcass to be buried in the place set apart by the Commissioners for that purpose, or report its death to the Conservancy Overseer; and in such latter case shall pay to the said Overseer the expense of removing the carcass at such rate as the Commissioners may determine: provided that in cases where the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense; and such expense shall be recoverable as a debt due to the Commissioners. The Overseer when called upon shall not neglect to cause the carcass to be removed immediately or as soon as it is possible.

The penalty for infringement shall be a fine not exceeding Rs. 10.

For the regulation and management of privies.

2. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier, shall give free access to the servants of the municipality, duly authorized by the Commissioners, to his house, lands, or premises for the removal of any night-soil or filth within such hours as shall be fixed by the Municipal Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 5.

3. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy or other noxious or improperly constructed privy may be situated, shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice; and if the orders contained in the notice be not carried out within 15 days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

4. No owner or occupier of any house, land, or premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, watercourse, river, tank, hollow, or excavation, or any place containing waste and stagnant water.

The penalty for infringement shall be a fine not exceeding Rs. 20.

5. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cess-pool into any river, tank, khal, watercourse, or receptacle for water, or dispose of the abovementioned kinds of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

The penalty for infringement shall be a fine not exceeding Rs. 20.

6. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises if at any time it seems to them necessary for the preservation of health, or for the prevention of infection or spread of disease, provided that the Municipal Commissioners shall be bound to supply such deodorants at cost price; and the price shall be recoverable as a debt due to the Commissioners.

7. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle of such description and pattern as shall be required from time to time by the Municipal Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 5.

For regulating traffic in the streets.

8. Every carriage plying in the streets after one hour after sunset shall carry a light or lights.

The penalty for infringement shall be a fine not exceeding Rs. 5.

General Bye-laws.

9. No person shall steep in any river, khal, tank, or ditch within municipal limits any jute, hemp, bamboo, or other vegetable matter likely to render the water of such river, khal, tank, or ditch offensive or noxious to the neighbourhood.

The penalty for infringement shall be a fine not exceeding Rs. 5; the penalty for continued infringement after notice shall be a fine not exceeding Rs. 2 daily.

10. No person shall put, or cause to be put, on any house or other building any spout or other thing intended for the conveyance and discharge of water, which shall be so placed that the water discharged therefrom shall be thrown or fall upon any public road or thoroughfare; and the Commissioners shall have power to take down and alter any such spout now in existence and to recover the cost as a debt due to the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 5.

11. No person shall construct or place over or by the side of any public drain any bridge, platform, building, or structure of any kind, except by and with the written permission of the Commissioners, and in such manner as they shall direct.

The penalty for infringement shall be a fine not exceeding Rs. 10; the penalty for continued infringement after notice shall be a fine not exceeding Rs. 8 daily.

12. If any house, wall, or other erection, or any part thereof fall upon any public highway, or into any public drain, the owner of such house, wall, or erection shall remove it after notice within the time prescribed by the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 10; the penalty for continued infringement after notice shall be a fine not exceeding Rs. 5 daily.

13. No person shall prepare any channel or convey water by any channel across any public thoroughfare, except in such manner as shall have been first approved of by the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 10; the penalty for continued infringement after notice shall be a fine not exceeding Rs. 2 daily.

14. No person shall, without the written permission of the Commissioners, set up any obstruction in any nullah or watercourse, and the Commissioners may order the removal of any such obstruction on grounds of public health.

The penalty for infringement shall be a fine not exceeding Rs. 10; the penalty for continued infringement after notice shall be a fine not exceeding Rs. 4 daily.

15. The owner or occupier of any part of the bank of any nullah or watercourse shall keep it free from filth, dense vegetation, or other obstruction, and shall at all times allow the Commissioners or any of their servants duly authorized to have access to such nullah or watercourse for any purpose of public conservancy.

The penalty for infringement shall be a fine not exceeding Rs. 10; the penalty for continued infringement after notice shall be a fine not exceeding Rs. 5 daily.

16. No person shall let loose, or cause or allow to be let loose, or allow to get loose, any diseased or worn-out animal on any highway, or into any place whence such animal can escape into any highway.

The penalty for infringement shall be a fine not exceeding Rs. 20.

17. No person shall throw, or cause to be thrown, into the river any corpse, or any part of a corpse (with the exception of such small portion as is required by the Shastras to be thrown into the river).

18. No person shall bury, or cause to be buried, any corpse, or part of a corpse, in a burial ground, in a grave constructed of masonry, in such a manner that the top of the coffin, or where no coffin is used, the body, shall be at a less depth than five feet from the surface of the ground.

The penalty for infringement shall be a fine not exceeding Rs. 10.

19. No person shall bury, or cause to be buried, in any burial ground any corpse, or part of a corpse, in a grave not constructed of masonry which shall be less than six feet deep.

The penalty for infringement shall be a fine not exceeding Rs. 10.

20. No person shall build or dig, or cause to be built or dug, any grave in any burial ground at a less distance than two feet from any existing grave.

The penalty for infringement shall be a fine not exceeding Rs. 20.

21. No person shall build or dig, or cause to be built or dug, a grave in any burial place in any other line than that marked out by the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 20.

22. No grave once used shall be opened for the burial of another body without the permission of the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 20.

23. No person shall carry a corpse, or part of a corpse, through any highway unless it be decently covered, totally concealed from public view.

The penalty for infringement shall be a fine not exceeding Rs. 10.

24. No person shall picket animals, or collect earts, or form any encampment upon any public ground without the permission of the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 10.

25. No person shall be allowed to bathe or to wash in any water near a well, specially set apart for drinking purposes, within the limit of ten feet from such well.

The penalty for infringement shall be a fine not exceeding Rs. 5.

NOTIFICATION.

The 17th November 1884.—Under the power conferred upon him by section 1 (2) of the Land Improvement Loans Act, No. XIX of 1883, the Lieutenant-Governor, with the previous sanction of the Governor-General in Council, directs that the said Act shall come into force in the Lower Provinces from the 1st December 1884.

A. P. MACDONNELL,
Secretary to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 17th November 1884.—Under the powers conferred upon him by section 10 of the Land Improvement Loans Act, No. XIX of 1883, the Lieutenant-Governor, with the previous sanction of the Governor-General in Council, is pleased to make the following rules for the working of the Act:—

1. Loans under these rules will be made from such sums as the local Government may from time to time allot to the Board of Revenue.

2. Commissioners will submit, by the 15th October of each year, an estimate of the requirements for loans under the Act for each of the districts of their divisions for the ensuing financial year; and when orders thereon are received from Government and an allotment is made, the Board will distribute as funds are available. It will be in the power of Commissioners to divide the sum so allotted among the districts of their divisions at their discretion, and to transfer assignments from one district to another, but expenditure in the division must be kept within the amount assigned.

3. In these rules Collector has the meaning defined for it by the Act.

4. Subject to the provisions of these rules, the Collector may sanction loans not exceeding Rs. 1,000 for purposes specified in the Act, provided the district allotment must not be exceeded without the sanction of the Commissioner of the division. Loans exceeding Rs. 1,000 require the sanction of the Commissioner, and exceeding Rs. 5,000 the sanction of the Board. In such cases the Commissioner or the Board may call for such detailed plans and estimates, or for such professional opinion on the project, as may seem necessary.

5. Applications for loans may be presented to any revenue officer, of or above the rank of a Canooongoe or Sub-Deputy Collector, for transmission to the Collector.

6. The application shall be made in writing as nearly as possible in the annexed Form A.

7. The Collector shall either make a local enquiry himself, or cause one to be made by a revenue officer not below the rank of a Canooongoe or Sub-Deputy Collector, for the purpose of ascertaining the particulars mentioned on the reverse of form A.

8. (a) When the applicant's interest in the land to be improved is sufficient to cover the loan, no collateral security need be required. (b) When the sureties are a body of village residents who bind themselves jointly and severally as provided in section 9 of the

Act, their personal surety shall be sufficient. (c) In all cases not covered by clause (a) or clause (b) of this rule, immoveable property shall be hypothecated by the applicant as collateral security.

9. Repayment shall be by half-yearly instalments. The date of the first instalment shall not exceed two years from the date of the loan, and shall, in cases in which such a principle is applicable, be fixed with reference to the time when the improvement will begin to yield a return.

10. The date of the last instalment shall not ordinarily exceed ten years from the date of the loan, the amount of the instalments being fixed, in cases in which such a principle is applicable, with reference to the annual profit expected to accrue from the improvement. With the sanction of the Board of Revenue, the time for repayment may in special cases be extended to 20 years.

11. If the proposed improvements fall within the provisions of section 11, clause (2) of the Act, and the security offered is good and sufficient, the Collector may, on completion of the local enquiry, sanction the loan himself, if empowered to do so. Otherwise he shall forward the application with his report to his superior officer for disposal.

12. If the loan be sanctioned, the applicant shall be required to sign a certificate in the annexed Form B, and, when his interest in the land to be improved is not sufficient to cover the loan, to execute, together with his sureties, if any, a bond in the annexed Form C or Form D as the case may be.

13. A copy of the certificate shall be given to the applicant, and payment of the loan shall be made at the district or sub-divisional treasury on its presentation.

14. (i) The rate of interest shall be one anna in the rupee, or $6\frac{1}{4}$ per cent. per annum.

(b) But the local Government may for special reasons, and on special application through the Board of Revenue, sanction a loan at a lower rate of interest or without interest.

(c) If any instalment of principal or of interest, or of consolidated principal and interest, is not paid when it falls due, the Collector may, if he thinks fit, charge interest on it at any rate not exceeding $6\frac{1}{4}$ per cent. per annum from the date of its falling due to the date of payment.

15. The repayment of the loan shall be made in accordance with the table in annexed Form E, which shows the amount of equal half-yearly payments necessary to re-pay a loan advanced with interest at $6\frac{1}{4}$ per cent. per annum for any number of years from one to twenty.

16. The dates for payment of instalments shall usually be the dates fixed for payment of the land revenue.

17. Instalments may be suspended by order and at the discretion of the Collector on proof of failure of crops or other exceptional calamity. The Collector shall report the suspension through the Commissioner to the Board of Revenue, who shall pass such orders on the case as may seem proper.

18. The Collector shall make provision for the inspection from time to time of works undertaken under the Act. In all cases the work shall be inspected within one month after the expiration of the time within which completion was directed in the certificate.

19. If at any time it is proved to the satisfaction of the Collector that any part of the loan has been misapplied, he may, after recording in writing the grounds of his decision, and subject to the control of the superior revenue authorities, proceed to recover the whole amount of the loan with such interest as may have become due thereon.

20. When any portion of a loan made under these rules is found to be irrecoverable, a special report shall be made to the Board of Revenue.

21. The Board of Revenue shall regulate the forms of all returns, registers and accounts relating to loans under the Act.

[Second Publication.]

NOTIFICATION.

The 11th November 1884.—It is hereby notified for general information that, in the exercise of the power conferred on him by section 38, Act IV (B.C.) of 1871, as amended by Act II (B.C.) of 1879 and Act I (B.C.) of 1884, the Lieutenant-Governor approves and confirms the following bye-laws, which have been framed for the town of Gurbetta, in the district of Midnapore, with the assent of the Health Officer of the town appointed under the Act for the management of all matters necessary for the due enforcement of the Act within the said town of Gurbetta.

BYE-LAWS UNDER SECTION 37, ACT IV (B.C.) OF 1871 FOR THE TOWN OF GURBETTA, IN THE DISTRICT OF MIDNAPORE.

PART I.

On the appointment and constitution of a Committee to aid in carrying out the provisions of Act IV (B.C.) of 1871 in the town of Gurbetta.

THE provisions of this Act shall be carried out by a Committee consisting of three official and three non-official members appointed for that purpose by Government.

2. On the 1st of March in each year the Sub-Divisional Officer shall nominate the members to serve on the Committee during the ensuing official year, and shall report the nomination for the sanction of the local Government.

3. In the event of the death, removal, or resignation of any member of the Committee during his year of office, an official member shall be succeeded by the successor to his appointment or any other official; and in the case of a non-official member, his successor shall be appointed by the remainder of the Committee.

PART II.

Rules for the conduct of business.

4. The Committee shall meet for the transaction of business in the office of the local Sub-Registrar or Honorary Magistrate, who is the Chairman of the Committee, on the 15th of each month, or, if that date fall on a Sunday or holiday, on the next succeeding open day, provided that it shall be lawful for the Chairman to call a meeting at any other time during the month, recording his reasons for doing so.

5. Notice of every meeting shall be issued to the members by the Chairman three clear days beforehand.

6. No question shall be decided at any meeting unless its substance has been included in the notice prescribed in Rule 5.

7. Every question shall be decided by a majority of votes. In the event of an equal division, the Chairman shall have a casting vote.

8. The proceedings of every meeting shall be recorded in a book to be kept by the Chairman for the purpose.

PART III.

On the receipt and disbursement of moneys under the Act.

9. On the 15th October of each year a budget of the probable receipts and expenditure of the ensuing financial year, together with the opening and closing balances, shall be submitted to the Magistrate for the sanction of Government.

10. It shall be competent for the Committee, subject to the orders of Government, to transfer sums from one item of the budget to another, provided that the total expenditure be not exceeded, and provided that an annual review of the same be submitted to the Commissioner.

11. In forming every annual estimate an amount not exceeding Rs. 25 per cent. shall be reserved for emergent contingencies, such as a sudden outbreak of cholera and sickness, and necessity for employment of extra and special establishment.

12. At the close of every year the Chairman shall submit a report on the working of the Act during the year, showing the works of improvement and conservancy carried out and a detailed account of the receipts and expenditure during the year and the balance in hand at its close. The report should be submitted through the District Magistrate and the Commissioner to Government.

PART IV.

13. If any person shall carry night-soil or other offensive matter through the town otherwise than in a closely covered receptacle, he shall be liable to a fine not exceeding Rs. 5.

14. The Committee shall open a register of the sweepers engaging for various parts of the town, specifying the name or names of the sweepers engaging for each part and responsible for its cleanliness, and shall supply each sweeper with a metal ticket bearing his number painted on it, and the section of the town to which he is attached, the spots fixed under section 24 of the Act, in which they are bounded to deposit dirt, and any other detail that may seem necessary. Any sweeper neglecting to remove night-soil from any part of the quarter for which he is responsible once in twenty-four hours shall be liable for each mission to a fine not exceeding Re. 1.

15. If any person shall bury, or allow to be buried, within the limits of the town of Gurbetta night-soil or other offensive matter, or leave it within the premises occupied by him beyond such time as may be fixed by the Magistrate, he shall be liable to a fine which may extend to Rs. 20, provided that this penalty shall not extend to manure heaps until notice to remove them have been issued by the Health Officer. The Chairman of the Committee may issue notice ordering any person to remove any offensive matter that may be buried on the premises occupied by him within a specific term. Any person neglecting to comply with such notice shall be liable to a daily fine not exceeding Rs. 2 from the date of the expiry of notice.

16. If any person shall dispose, or cause to be disposed of, within the limits of the town of Gurbetta any corpse, or part of a corpse, otherwise than by burning or burying it at or in some burning or burial ground, specially set apart for that purpose, fixed, by the Chairman of the Committee with the assent of the Health Officer, he shall be liable to a fine not exceeding Rs. 10.

17. Any person allowing land or premises occupied by him within the limits of the town of Gurbetta to be used as a camping place for cattle or carts or any beasts of draught or burden shall be bound to permit such premises to be inspected by the Health Officer or Chairman of the Committee, or any officer they may depute, and shall be liable to any penalty provided for any infringement of the laws or bye-laws committed on his premises.

18. Whoever shall offer for sale fish unfit for food, or shall offer for sale any fish in any part of the town except in places notified by the Magistrate, shall be liable to a fine not exceeding Rs. 10.

PART V.

Miscellaneous.

19. At each monthly meeting of the Committee one or more members shall be appointed to supervise the working of the Act during the calendar month next following.

20. The remarks and orders of the working member or members for each month, and the remarks of inspecting officers, shall be entered in the minute book prescribed in Rule 7.

21. Every lodging-house keeper taking out a license under this Act shall provide himself with a copy of the Act, and with a printed copy of the notice prescribed in section 14, which notice shall be in the form shown in appendix A of these bye-laws.

22. The register referred to in section 15 of the Act shall be in the form shown in appendix B of these bye-laws.

23. There shall be hung up in each compartment of a lodging-house a board on which shall be legibly written in Uriya, Hindustani, and Bengali the dimensions of such compartment and the number of lodgers it can properly accommodate, and this board shall bear the signature of the Health Officer.

24. Every lodging-house or hotel-keeper shall be bound, on requisition by the Health Officer, to provide himself with tickets or tokens bearing consecutive numbers, and to furnish each of his lodgers with one of such tickets or tokens.

25. For the purpose of this Act the year shall be considered to commence from 1st April, and all licenses shall run from that date.

NOTIFICATION.

The 31st October 1884.—It is hereby notified for general information that the Lieutenant-Governor has been pleased to make the following Port and Pilot rules for the Port of Chittagong. They will take effect from the 1st November 1884.

The Port of Chittagong, and the navigable river and channels leading thereto, having, with the sanction of the Governor-General of India in Council, been declared subject to the provisions of Act XXII of 1855, have become subject to Act XII of 1875 (the Indian Ports Act) in accordance with the provisions of section 3 of the latter Act.

The limits of the said Port of Chittagong are as follow:—

To the north-east,—a line drawn across the river Karnafuolee from the boundary pillar at the mouth of the Chaktai nulla to the boundary pillar on the opposite bank of the said river.

To the south,—a line drawn from Jooldia flagstaff to Patunga beacon.

These limits include so much of the river Karnafuolee and the shores thereof as lie within fifty yards of high-water mark at ordinary spring tides.

The limits of the navigable river and channels leading to the said Port of Chittagong are as follow:—

To the north-east,—the Port of Chittagong as above defined.

To the south,—a line drawn west from Norman's Point light-house.

To the north,—the port as defined above, and from Patunga beacon a line drawn due west seaward.

To the west,—a line drawn parallel to a line between Patunga beacon and Norman's Point light at a distance of four miles.

To the east,—the south bank of the Karnafuolee river between Jooldia and Norman's Point light-house.

All parts of the river Karnafuolee between the said limits and below high-water mark at ordinary spring tides are subject to the said Act.

Port dues shall be levied at the following rates once in 60 days in the Port of Chittagong:—

Balam boats of 10 tons and upwards, 1 anna for every ton of burthen.

All other sea-going vessels of 10 tons and upwards, 4½ annas for every ton of burthen.

Port Rules.

The following Port Rules are hereby promulgated for general information and guidance:—

Rule I.—Within 24 hours after arrival within the limits of the port, the master should report to the Port Officer the arrival of his vessel, which shall be put into moorings or shall take up such berth as may be appointed by the Port Officer, from which she shall not be removed (except in case of emergency) without the sanction of the said officer. Every vessel shall change her berth when required by the Port Officer to do so.

Rule II.—Every vessel lying within the limits of the port shall be moored and shall keep a clear hawse.

Rule III.—Unless moored head and stern, no vessel within the port, or in the navigable channel leading thereto, shall lie close to the shore, or shall in any way obstruct the passage of boats inshore.

Rule IV.—Every vessel in moorings shall use her bower chain for her stern moorings, or such other chain that may be approved of by the Port Officer, who, in case of approaching bad weather, may have the same changed or doubled at his discretion.

Rule V.—Every vessel within the port shall rig in her jib and driver booms, and, if required to do so, take in all boats hanging at the davit as soon as she has moored, and shall so retain them, unless otherwise authorized by the Port Officer.

Rule VI.—Every vessel entering the port between the 15th day of May and 15th day of November shall send down her top-gallant yards, and have mast ropes rove ready to send down her top-gallant masts at short notice on receiving instructions from the Port Officer.

Rule VII.—No ballast shall be discharged from shipboard, or landed from boats, or taken from the shore or river banks within the port and its approaches without the previous sanction of the Port Officer, who may appoint ballast guards to supervise the work.

Rule VIII.—Vessels of less than 12 feet draught, proceeding up or down the river, are prohibited from anchoring in the fairway.

Rule IX.—All vessels anchored in the stream within the port and its approaches shall exhibit between sunset and sunrise, where it can be best seen, but at a height not exceeding 20 feet above the hull of the vessel, a white light in a globular lantern of eight inches in diameter, and so constructed as to show a clear, uniform and unbroken light, visible all round the horizon, at a distance of one mile. Vessels under weigh at night shall show the lights prescribed by the Board of Trade Regulations.

Rule X.—All ballams, cargo-boats, bhurs, and budgerows, when under weigh after dark within the port, shall carry a white light in a lantern in the forepart of the vessel, where it can be distinctly seen.

Rule XI.—Except in cases of emergency, no vessel shall be moored, or unmoored, and no hawsers and warps shall be left out between sunset and daybreak.

Rule XII.—Vessels fouling buoys, tide-gauges, or any other plant of the port, shall report the same to the Port Officer in writing without delay, stating the time and manner of occurrence. Violation of this rule will render the master or the vessel liable to a penalty not exceeding Rs. 100.

Rule XIII.—Every vessel of a draught of 12 feet and under shall anchor on the shoal side of the river, or, off town, from below the pier on the south side of the river, and from Goshaldanga to Domacolly on the eastern side of the river, and below Domacolly to Gooptacolly on the northern side of the river, and keep in a line so as not to obstruct the navigation of the river in any way. Vessels will also keep on board a crew not less than the following scale according to their tonnage set forth below, viz.—

	Men.
Vessels of 100 tons and under	3
„ of 100 to 199 tons	4
„ of 200 „ 299 „	5
„ of 300 „ 499 „	6
„ of 500 „ 699 „	7
„ of 700 and upwards	10

Rule XIV.—Vessels shall not anchor in fairway off the bar, or on the bar, and any vessel so anchoring shall be liable to a fine not exceeding Rs. 100 for every day or portion of a day on which she may remain in the fairway or on the bar.

Rule XV.—No vessel dropping up or down the river shall anchor in the fairway unless she be of heavy draught or of great length. Any vessel on the move or waiting the next tide shall sheer out of the channel and anchor as far out of the fairway as she can do without risk.

Rule XVI.—Vessels occupying moorings or using the heave-up boat will be subject to the undermentioned charges:—

	Rs.
Occupying moorings, per diem ...	6
Occupying swinging buoys ...	3
For mooring at or unmooring from the fixed fore-and-aft moorings with the use of heave-up boat on each occasion ...	16
For mooring at or unmooring from swinging moorings with the use of heave-up boat on each occasion ...	10
Harbour Master's fee for mooring or unmooring a vessel on Sundays and holidays ...	10
Use of heave-up boat for assisting a vessel, per diem ...	32
Running out anchors for vessels on shore, or going on the hard, to clear bottom on each occasion ...	32
Use of Government hawser, per diem ...	10
Shifting a vessel's berth for the convenience of the owners ...	16
Vessels occupying the jetty head for loading or discharging cargo other than salt, per diem ...	20
Vessels occupying the jetty head for loading or discharging salt, per thousand maunds ...	10
Salvage on anchors and cables, per cwt. ...	3-8

Rule XVII.—No person, unless authorized by the Port Officer, shall creep or sweep within the port for anchors, cables, or other stores lost, or supposed to be lost, therein.

Rule XVIII.—Any sampan, cargo-boat, or other vessel going alongside an arriving steam-vessel before she is anchored, shall be liable to a penalty not exceeding Rs. 100.

Rule XIX.—The Port Officer, or any one deputed by him, shall not be interfered with in the execution of his duty.

Rule XX.—No vessel shall use any of the moorings, whether fixed or swinging, without permission of the Port Officer.

Rule XXI.—All applications to be hauled into, or cast off from, the moorings, or for any other assistance, shall be made either personally or by letter to the Port Officer. Applications will, as far as possible, be complied with in order according to date of receipt.

Rule XXII.—Storm signals will be only used within the limits of the Port of Chittagong to give notice to the shipping and general public of the early approach of a severe cyclone with its attendant storm-wave. The following are the storm signals which will be used within the limits of the port. They will be hoisted on the flagstaff yard-arm at Sudder ghât and on the Jooldia flagstaff yard-arm on receipt of instructions from the Meteorological office.

A ball indicates that a severe cyclone, of which the centre is in the neighbourhood of Akyab, will probably advance towards Chittagong.

1. Day warning signal.

A drum indicates that a severe cyclone with its attendant storm-wave is approaching Chittagong.

2. Day danger signal.

Three lights in a vertical plain indicate that a severe cyclone, of which the centre is in the neighbourhood of Akyab, will probably advance towards Chittagong.

3. Night warning signal.

Two lights in a vertical line indicate the early approach of a severe cyclonic storm and its attendant storm-wave to the Port of Chittagong.

4. Night danger signal.

Rule XXIII.—Vessels lying in the stream or at the moorings shall at all times have at least one anchor at the bow, with a cable bent and ranged ready to let go. Vessels with no spare hawse pipe for cables shall have a good hawser bent ready for letting go.

Rule XXIV.—Every ship or vessel within the port shall remove any anchor or spar, or other object projecting from her side, when ordered to do so.

Rule XXV.—No person shall smoke or use naked lights of any description in the hold or between-decks of any vessel lying in the port. Closed lanterns, secured by lock and key, and in charge of an officer of the vessel, shall alone be taken between-decks or into the hold.

Rule XXVI.—Fires shall be permitted only in galleys or fire-places regularly constructed for the purpose; such fires to be kept alight only between daybreak and 9 p.m. Fires for cooking shall not be allowed on board of vessels in dock.

Rule XXVII.—With a view to the extinction of fires, all vessels in port shall be provided with three buckets for every hundred tons of registered measurement up to 600 tons, and two additional buckets for every 100 tons above 600: provided that the total number of buckets shall not be required to exceed 50 in any vessel. One-half of such buckets shall be left constantly hung up on the quarter-deck or other convenient place.

Rule XXVIII.—When fire has broken out in any vessel, the officers in charge of all vessels in neighbouring moorings or anchorage shall furl their awnings, get their force-pumps ready for use, and prepare for slipping their cables and chains, seeing specially that the pins of the shackles can be immediately knocked out.

Rule XXIX.—No vessel shall lie at single anchor in the port unless a pilot or assistant harbour master is on board; and a fee of Rs. 10 per diem will be charged for his services.

Rule XXX.—All vessels about to leave the port shall hoist the Blue-Peter at the fore at least twenty-four hours before leaving the moorings, and shall keep it hoisted until the pilot takes charge of the vessel to take her to sea.

Rule XXXI.—No vessel shall steam, sail, or be towed up on the flood or down on the ebb within port limits except with the permission of the Port Officer.

Rule XXXII.—River steamers and tug steamers having no vessels in tow are permitted to move up on the flood, or down on the ebb, at their own risk and at a speed sufficient to keep the vessels under command; but in no case shall the speed exceed four miles an hour through the water.

Rule XXXIII.—For the use of the Government Launch Fire-engine, a charge of Rs. 50 will be made for every twelve hours and part thereof.

Rules for Pilots in the Port of Chittagong.

I.—Pilots in charge of inward-bound vessels are directed to hoist the vessel's number, and, if salt laden or from dutiable ports, are to have the ensign hoisted at the main-mast head for the information of the Customs Inspector, Jaldia.

II.—A pilot on taking charge of an inward-bound vessel shall, immediately on boarding her, hoist his distinguishing number, and hand over to the master of the vessel the following papers:—(1) Port Rules, (2) Pilotage Rules, (3) Medical Inspection Rules, (4) Customs Regulations. If any case of cholera, small-pox, or other epidemic disease common in India is on board he shall at once report the fact to the Port Officer, stating the number of cases, and shall await orders before taking up any anchorage in the harbour.

III.—A pilot detained on board at Jaldia will, in the event of the captain refusing to take steam, report the matter to the Port Officer and await orders.

IV.—The pilot shall not give over charge of his vessel in the river unless she has been moored or he has been relieved by a harbour master or other officer authorised to take charge.

V.—Pilots on arrival off town shall state the time of arrival, the vessel's name, the place where she has been left, and, if moored, with how much chain each way. This information is to be entered in a book kept at the Port Office for that purpose.

VI.—Every pilot shall on arrival report to the Port Officer the number of pilots on the station, and also any alterations he may have observed in the river on his way up.

VII.—No pilot shall take charge of an outward-bound vessel without an order signed by the Port Officer, or proceed unless the vessel has obtained her customs clearance. If the vessel is to take steam, he should not break ground without satisfying himself that the tug is engaged to take the vessel to sea, or to remain by her till the vessel is outside the Outer Bar.

VIII.—The pilot shall ascertain that the vessel has two serviceable bower anchors, and if she has not a sheet or spare anchor fit for a bower over her side, that she has one in such a position on deck that it can easily be brought into use in case of necessity. Also that a kedge with line ready bent be on deck and ready for immediate use.

IX.—If a pilot appointed to take a vessel to sea during neaps considers her draught too much, and that it would involve a risk and responsibility which he is unwilling to take, he should at once communicate the fact to the master and report to the Port Officer, for orders, fully explaining his grounds of objection.

X.—If after a pilot joins a vessel he finds that she is of larger draught than she was reported to be, or that she takes in any cargo that alters her draught, he will at once report the matter to the Port Officer and await orders.

XI.—Pilots are on no account to cross the bar between sunset and sunrise, on pain of dismissal, without the permission of the Port Officer in writing, the cost of lighting the buoys being defrayed by the ship concerned.

XII.—A pilot shall not relinquish charge of a vessel unless on account of sickness or other unavoidable necessity. If he is in any way impeded in the performance of his duty, he should report the circumstances to the Port Officer, and, if necessary, anchor the vessel.

XIII.—Pilots shall attend the Port Office daily, and shall not leave town without permission from Port Officer being previously obtained.

XIV.—Until further orders, pilots shall be guided by the following rules as to the draughts

of vessels to be moved either up or down, in or out:—

- (a)—They may move a vessel in or out without steam at a draught of 18 feet, and with steam to any reasonable draught.
 (b)—Vessels of 275 feet length and upwards shall not be brought up above Moiscally without permission from Port Officer, to whom her length and draught must be reported in writing.

XV.—No pilot on his way up or down the river, and not employed on any special duty, shall pass a vessel having a pilot signal flying without boarding her and ascertaining why she is without a pilot, and if required shall take charge of her, and take her on her way and stop by her until she can be left in safety.

XVI.—Masters are requested to report when there appears to have been any unnecessary delay in getting the pilot on board.

XVII.—If a vessel loses an anchor or anchors, the pilot shall immediately submit a report to the Port Office. The report should be attested by the master of the vessel, and to enable the Port Officer's Department to identify the lost articles, it shall indicate accurately the following particulars:—

- (1)—Locality of the loss.
 (2)—Bearings of known objects.
 (3)—Description, weight, and distinctive marks of anchors.
 (4)—Description and quantity of cable.

XVIII.—Should a vessel ground, collide with any vessel or buoy, or meet with any casualty while under weigh or at anchor, the pilot shall, on the first opportunity, forward to the Port Officer a report in writing of the occurrence, containing the following particular:—

- (a)—Locality of the accident
 (b)—Bearings of any known object in view.
 (c)—The vessel's draught of water.
 (d)—The time of tide.
 (e)—Hour of the day the accident occurred.
 (f)—Manœuvre the pilot was executing or attempting to execute.
 (g)—The damage, if any, sustained.
 (h)—The time the vessel was on shore.
 (i)—Quantity of water made by the vessel.

XIX.—Pilots, before leaving a vessel, shall obtain a certificate from the master as to how he has performed his duty, and present the same to the Port Officer on arrival.

XX.—Pilots, whilst in town, should daily inspect carefully the channel and the river-hook kept at the Port Office.

XXI.—If the pilot considers himself aggrieved by any conduct on the part of the master of a vessel, he shall transmit his complaint in writing to the Port Officer for his consideration and orders.

XXII.—Masters or agents are requested to give at least 24 hours' previous notice when a pilot is required to shift or take a vessel to sea or for any other purpose, to enable the Port Officer to send for pilots from the mouth of the river, if required.

XXIII.—The cutter with pilots shall cruise in the day backwards and forwards from the Outer Bar buoys to off the mouth of the Sangoo river during the south-west monsoon, weather permitting, and shall remain day and night on her station, viz. three miles outside the Bar buoys during the north-east monsoon. The senior pilot on board will be held responsible should any complaint be made owing to delay being incurred in getting, or putting on, or taking a pilot out from a vessel.

XXIV.—The sanctioned pilotage charge is as follows:—

Draught in feet.	8	9	10	11	12	13	14	15	16
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
In or out	30	36	42	50	60	70	80	95	110

Draught in feet.	17	18	19	20	21	22	23
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
In or out	125	140	160	180	205	230	260

When the draught exceeds by more than six inches any depth here provided for, the next foot of draught shall be charged for.

For every foot, or part of a foot, exceeding six inches above 23 feet, an additional sum of Rs. 32 will be charged. Three-fourth rates will be charged for steamers and vessels towed by steam.

XXV.—In every case in which the services of a port pilot are not used, and the vessel is piloted by a person specially licensed to pilot in the Chittagong river, half the sanctioned charge for pilotage shall be paid.

XXVI.—All persons specially licensed to pilot in the Chittagong river shall be subject to the control of the Port Officer in regard to their pilotage work.

Orders and Notifications by the Government of India, &c.

[Reprinted from the Gazette of India.]

The following Extraordinary issued by the Government of India in the Home Department, is republished for general information:—

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.—PUBLIC.

Calcutta, the 18th November 1884.

No. 1902.—The Right Honourable Sir Frederick-Temple Hamilton-Temple, Earl of Dufferin, K.P., G.C.B., G.C.M.G., P.C., F.R.S., D.C.L., Viscount and Baron Claudeboye of Claudeboye in the County of Down, in the Peerage of the United Kingdom, Baron Dufferin and Claudeboye of Ballyleidy and Killyleagh, County Down, in the Peerage of Ireland, and a Baronet, is expected to arrive at Aden on or about December 2nd, and at Bombay on the 9th idem, to assume the Office of Viceroy and Governor-General of India.

The Resident at Aden will receive Lord Dufferin with all the honours and distinctions which are due to the Viceroy of India.

His Excellency the Governor of Bombay will make arrangements, in communication with the Naval authorities, for the landing and reception of Lord Dufferin at Bombay with all the honours and distinctions which are due to the Viceroy of India.

An Aide-de-Camp of the Viceroy will proceed to Bombay to attend upon Lord Dufferin throughout his journey from Bombay to Calcutta.

One of the principal civil officers of each Government or Administration will be deputed to meet Lord Dufferin as he enters the limits of such Government or Administration, and will remain in attendance upon His Lordship until he passes beyond those limits.

At the railway stations at which halts are made for rest and refreshment, Civil and military officers will be in attendance. There will also be a Guard-of-Honour upon the platform.

Should Lord Dufferin make any stay at Allahabad, His Honour the Lieutenant-Governor of the North-Western Provinces will make all arrangements, in communication with the Military authorities, for His Lordship's reception in a suitable manner.

At stations between Bombay and Howrah, other than those mentioned in the two preceding paragraphs, the attendance of officers is dispensed with.

Proper police precautions will be taken at all the stations along the line at which the train stops.

Upon Lord Dufferin's arrival at the Howrah terminus of the East Indian Railway, His Lordship will be received by the Secretaries to the Government of India and by the Military Secretary and Aides-de-Camp to the Viceroy.

The following officers will also be in attendance upon the Howrah Railway platform:—

The Commissioner of Burdwan.

One of the Secretaries to the Government of Bengal.

The Brigadier-General Commanding the Presidency District, with the District Staff.

The Commissioner of Police and Chairman of the Justices of the Peace for the Town of Calcutta.

The Sheriff of Calcutta.

The Magistrate of Howrah.

A Guard of Honour of Native Infantry will be drawn up at the Howrah terminus.

Lord Dufferin, attended by his personal staff, by the Secretaries to the Government of India, by the Military Secretary and Aides-de-Camp of the Viceroy, will proceed to Government House in the Viceroy's carriages escorted by the Body Guard.

The line of route will be lined throughout by troops under the orders of the Brigadier-General Commanding the Presidency District.

A Royal Salute will be fired from the ramparts of Fort William as the cortège appears upon the Hooghly Bridge.

A Guard of Honour of British Infantry and a Guard of Honour of the Calcutta Volunteer Rifles will be drawn up opposite the grand entrance of Government House.

Lord Dufferin will be received as he alights from the carriage at the foot of the grand staircase by His Honor the Lieutenant-Governor of Bengal attended by his personal staff.

All the Civil and Military officers of Government at the Presidency will be in attendance upon the grand staircase of Government House. Consular Officers and other representatives of Foreign Governments at Calcutta, and all non-official gentlemen, are invited to be present upon the grand staircase.

His Excellency the Viceroy and Governor-General, attended by his personal staff and the Members of the Governor-General's Council, will receive Lord Dufferin at the top of the grand staircase, and will conduct his Lordship to the Throne-room.

Shortly afterwards, Lord Dufferin will proceed with the Members of the Governor-General's Council to the Council Chamber, where His Lordship's Commission from Her Majesty the Queen-Empress will be read by the Home Secretary.

A Royal Salute will then be fired from the ramparts of Fort William in honour of Lord Dufferin upon his assumption of the Office of Viceroy and Governor-General of India.

The troops may then be withdrawn.

Full dress will be worn by all officers, Civil and Military, on this occasion, and evening dress by all gentlemen not entitled to wear uniform.

The date and hour of Lord Dufferin's arrival at Howrah will be notified hereafter.

By Order of His Excellency the Viceroy and
Governor General of India in Council.

NOTICE TO MARINERS —(No. 65.)

NORTH INDIAN OCEAN—ARABIAN SEA.

MINIKOI—ISLAND.

Intended exhibition of Revolving Light.

THE Trinity House, London, has given notice, that early in the month of January 1885, it is intended to exhibit a light from a Lighthouse, now nearly completed, on the South-West part of Minikoi Island, between the Lakadivh and Maldivh groups.

The light will be a *white* light, revolving *every half-minute*, elevated 150 feet above high-water, and should be visible in clear weather from a distance of about 19 miles.

On a S. W. $\frac{1}{2}$ S. bearing the light will be obscured by cocoanut trees within a distance of about 8 miles; this obscuration will extend through an arc of 74° to the bearing of W. N. W., where the distance the light is obscured will decrease to about $1\frac{1}{2}$ miles.

The top of the Lighthouse, which is built of *black brick*, and the lantern, will be visible by day above the trees.

Position approximate, latitude $8^{\circ} 16' N.$, longitude $73^{\circ} 01' E.$

Further notice will be given on the exhibition of this light.

The bearings are magnetic.

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these Conditions of Sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A promissory note for a sum, calculated according to the scale noted in the margin,

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 300 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said promissory notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained; and the first *bond fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots; provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna factory and the opium manufactured at the Ghazepore factory for the year 1883-84, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazepore factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18. The public are hereby informed that the opium manufactured at the Patna factory in season 1883-84 includes about 4,500 chests of 76° consistence, and that the opium manufactured at the Ghazepore factory in the same season includes about 8,883 chests of 72° and 1,965 chests of 74° consistences. The higher consistences will be mentioned in the sale notifications of the months in which they will be sold.

19. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

C. E. BUCKLAND,

Offg. Secretary.

RESOLUTION—By the Government of India, Department of Finance and Commerce.

Read—

Letter from the Government of Bombay, No. 2518 of 22nd March 1884, forwarding a letter from Mr. S. A. Kittredge regarding the stamp duties and registration fees payable on debentures issued by Joint Stock Companies, and making certain recommendations thereon.

OBSERVATIONS.—It appears that Joint Stock Companies are now, in some cases, deterred by the expense involved under the provisions of the Stamp and Registration Acts from raising money by the issue of debentures under a deed of mortgage giving to the holders of the debentures a lien on the property of the Company. For the purpose of raising money in this way the Company would ordinarily—

- (1) execute a mortgage deed making over their property to trustees for the benefit of the debenture-holders.
- (2) issue debentures under the terms of the trust deed.

Under the Indian Stamp Act, 1879, the mortgage or trust deed and each of the debentures would be liable separately to stamp duty. The mortgage or trust deed would be an instrument of which registration would be compulsory, and on which a registration fee would be payable. The debentures, containing a reference to real property as security, might also be held to require registration, and they would, as a precautionary measure, ordinarily be registered. Considerable expense is therefore involved in the issue of debentures of the kind described.

RESOLUTION.—With a view to reduce this expense, and to encourage investment by way of loan on the security of the property of Joint Stock Companies, the Governor-General in Council has determined to exempt debentures of the kind above described and interest coupons attached thereto from stamp duty, the mortgage or trust deed remaining liable to stamp duty, and has issued a separate notification for this purpose.

In regard to registration, His Excellency the Governor-General in Council is of opinion that it is expedient that the mortgage or trust deed should continue subject to compulsory registration and to the usual registration fee. Regarding the registration of the debentures separate orders will be issued hereafter.

ORDERED that a copy of this Resolution be forwarded to the Government of Bombay with reference to the letter read in the preamble, and to all other Local Governments and Administrations for information and guidance.

ORDERED also that this Resolution be published in the *Gazette of India* for general information.

No. 1916.—In exercise of the powers conferred on him by section 8 of the Indian Stamp Act, 1879, His Excellency the Governor-General in Council is pleased to remit the stamp duty payable under that Act on debenture bonds issued by a Joint Stock Company under the terms of a mortgage deed, making over in whole or in part the property of the company to trustees for the benefit of the debenture-holders, and on interest coupons attached to the said debentures.

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the
 authority of the Governor-General in Council,
 appear in monthly parts, published as soon as possible
 after the first of each month at Calcutta, Madras,
 Bombay, and Allahabad, and comprise four series—one
 for the Calcutta High Court, a second for the Madras
 High Court, a third for the Bombay High Court, and
 a fourth for the Allahabad High Court. The cases
 heard by the Privy Council on appeal from each High
 Court are reported in the Series for that High Court.
 Cases heard by the Privy Council on appeal from Pro-
 vinces in India not subject to any High Court are
 reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal
 Secretariat; the copies for subscribers registered by
 Messrs. Thacker, Spink & Co., are distributed by that
 firm; and the Madras, Bombay, and Allahabad Series
 are distributed direct from Madras, Bombay, and Alla-
 habad respectively.

In supersession of the previous advertisements, on
 and from the 1st January 1885, the terms of subscrip-
 tion and sale will be as follows:—

Terms of subscription payable annually in advance.

For the complete series, including postage, Rs. 22-8.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS —(No. 65.)

NORTH INDIAN OCEAN—ARABIAN SEA.

MINIKOI—ISLAND.

Intended exhibition of Revolving Light.

THE Trinity House, London, has given notice, that early in the month of January 1885, it is intended to exhibit a light from a Lighthouse, now nearly completed, on the South-West part of Minikoi Island, between the Lakadivh and Maldivh groups.

The light will be a *white* light, revolving every half-minute, elevated 150 feet above high-water, and should be visible in clear weather from a distance of about 19 miles.

On a S. W. $\frac{1}{2}$ S. bearing the light will be obscured by cocoanut trees within a distance of about 8 miles; this obscuration will extend through an arc of 74° to the bearing of W. N. W., where the distance the light is obscured will decrease to about $1\frac{1}{2}$ miles.

The top of the Lighthouse, which is built of *black brick*, and the lantern, will be visible by day above the trees.

Position approximate, latitude $8^{\circ} 16' N.$, longitude $73^{\circ} 01' E.$

Further notice will be given on the exhibition of this light.

The bearings are magnetic.

Public Works Despatch from the Secretary of State, No. 61, dated 23rd October 1884.

RESOLUTION.—The Secretary of State has approved of a proposal, put forward by the Government of India, for improving the emoluments of Sub-Engineers, 1st grade, and Accountants, 1st grade, of long and meritorious service, and the Governor-General in Council is pleased to issue the following rules :—

I. An increment of Rs. 50 a month may be given by Local Governments and Administrations to—

(a).—Sub-Engineers, 1st grade, who have been five years continuously in receipt of the pay of their grade.

(b).—Accountants, 1st grade, who have been five years in receipt of the maximum pay of their grade.

I. A second increment of Rs. 50 a month may be given to an officer of either of the above classes after ten years such service.

I. These increments are not to be given merely on account of long service, but only on special recommendations to the Local Government or Administration in each case on account of exceptionally good service.

~~These~~ increments may be given to those who are decided to be entitled to one or both with effect from 13th November 1884.

The Secretary of State has requested the Government of India to draw special attention to the third of these rules.

The Governments of Madras, Bombay, Bengal, North-Western Provinces and Oudh and the Punjab, in the Public Works Department.
The Chief Commissioners, Central Provinces, British Burma, Assam, and Coorg.
The Resident at Hyderabad.
The Agents to the Governor-General for Central India, Rajputana, and Biluchistan.
The Accountant General, Public Works Department.
The Inspector-General of Military Works.
The Director-General of Railways.
The Consulting Engineer to the Government of India for Guaranteed Railways, Calcutta, Lahore and Lucknow.
The Superintendent of Works, Simla Imperial Circle.

ORDER.—Ordered, that this Resolution be communicated to the Local Governments and Administrations named in the margin, and that it be published in the *Gazette of India* and in all local official Gazettes.

IRRIGATION.

The 16th December 1884.

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these Conditions of Sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A promissory note for a sum, calculated according to the scale noted in the margin,

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank

of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said promissory notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained; and the first *bond fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna factory and the opium manufactured at the Ghazeeport factory for the year 1883-84, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeeport factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18. The public are hereby informed that the opium manufactured at the Patna factory in season 1883-84 includes about 4,500 chests of 76° consistence, and that the opium manufactured at the Ghazeeport factory in the same season includes about 8,883 chests of 72° and 1,965 chests of 74° consistences. The higher consistences will be mentioned in the sale notifications of the months in which they will be sold.

19. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L.P.,

C. E. BUCKLAND,

Offg. Secretary.

" twelve "	" 110	" 70	" 45

At these rates the advertisers will have the option of changing their advertisements in each issue.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II, of the Calcutta Gazette of the 9th July 1884:—

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

Terms of subscription payable annually in advance.

For the complete series, including postage, Rs. 22-8.

Without postage. With postage.

For the Calcutta Series ...	Rs. 10 0	Rs. 12 8
" each of the Madras, Bombay, and Allahabad Series ...	" 6 0	" 7 0
" a part of the Calcutta Series purchased separately (inclusive of postage in India)		" 2 0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately (inclusive of postage in India)	" 1 0

Persons desiring to subscribe for or purchase the Reports should apply to—

Messrs. Thacker, Spink & Co., Calcutta.

" Thacker & Co., Bombay.

" Higginbotham & Co., Madras.

The Government Central Book Depot, Bombay.

" Curator of Government Books, North-Western Provinces and Oudh.

" Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1885 should be at once remitted.

MINIKOI—ISLAND.

Intended exhibition of Revolving Light.

THE Trinity House, London, has given notice, that early in the month of January 1885, it is intended to exhibit a light from a Lighthouse, not nearly completed, on the South-West part of Minikoi Island, between the Lakadivh and Maldivh groups.

The light will be a *white* light, revolving *every half-minute*, elevated 150 feet above high-water, and should be visible in clear weather from a distance of about 19 miles.

On a S. W. $\frac{1}{2}$ S. bearing the light will be obscured by cocoanut trees within a distance of about 8 miles; this obscuration will extend through an arc of 74° to the bearing of W. N. W., where the distance the light is obscured will decrease to about $1\frac{1}{2}$ miles.

The top of the Lighthouse, which is built of *black brick*, and the lantern, will be visible by day above the trees.

Position approximate, latitude $8^{\circ} 16' N.$, longitude $73^{\circ} 01' E.$

Further notice will be given on the exhibition of this light.

The bearings are magnetic.

RESOLUTION.—In accordance with the decision of the Secretary of State, the Governor-General in Council directs the publication of the following orders regarding the Engineer Establishment of the Public Works Department:—

- I. (a).—The number of Executive and Assistant Engineers on any list, taken together, will be divided equally between the two classes, an addition of one to the number of Executive Engineers being made for a fraction.
- (b).—The number of Executive Engineers in the 1st, 2nd, 3rd and 4th grades will be in the proportion of 8, 9, 10 and 12 respectively.
- (c).—Half the number of Assistant Engineers will be in the first grade, an addition of one being made for a fraction.
- (d).—The numbers in the three higher grades of Executive Engineers, and in the first grade of Assistant Engineers, as determined by (b) and (c), will be increased so as to allow of the permanent promotion of a number of officers from the junior grades of those classes, corresponding to the normal number of officers on furlough, as ordered in Public Works Department Resolution No. 1174G., dated 4th June 1880.

II. (a).—The of the following grades will in future be—

Executive Engineer, 3rd grade, Rs. 700 a mc
 " 4th " " 600 . ,
 Assistant Engineer, 1st " " 500 . ,

(b).—Assistant Engineers, 2nd grade, will receive Rs. 400 a month instead of Rs. 350, after 3 years' service in the grade.

(c).—Increases of officers of Royal Engineers, who draw staff salary in addition to military pay and allowances, the increases under (a) and (b) will take the form of an addition of Rs. 50 a month to staff salary, and to the maximum pay of their grade.

(d).—The increase of Rs. 50 a month to the salaries of Assistant Engineers, 2nd grade, after 3 years' service in their grade, will be given on specific recommendations on account of satisfactory service, and cannot be claimed as a right. The increase may be sanctioned by Local Governments and Administrations.

III.—Certain Civil Engineers with English training, appointed in India, will be allowed the same privileges under the pension rules, in all respects, as officers included in Schedule B, I, II and III (1) of the Civil Pension Code. A nominal roll of these officers will be added to the Civil Pension Code hereafter.

IV.—In regard to Civil Engineers, appointed in India from the Civil Engineering Colleges or otherwise, and not included under III, who may rise to the rank of Superintending Engineer, the Government of India will be prepared to consider favourably their admission to the pension rules applicable to those included in Schedule B, I, II and III (1). This rule is subject to any general restriction that may hereafter be prescribed as to the amount of pension payable to public servants who are natives of India.

V.—Civil Engineers who were appointed to the Department as Assistant Engineers, 1st grade, after they had left other employment in India, will be allowed, on account of previous experience, to add to their pensionable service a period not exceeding 3 years, provided such previous experience was not acquired before the age of 25.

VI.—These rules will come into force on 1st January, 1885.

RESOLUTION.—The rules regulating the admission of students to the Engineering Colleges, and the manner in which appointments in the Engineering Branch of the Public Works Department may be obtained by students of these Colleges, are contained in the Resolutions of the Government of India in the Public Works Department of 11th November 1882 and 14th February 1883. These Resolutions modified the previously existing rules in several respects, and notably in giving to students of pure Indian descent a preference over all other students for guaranteed appointments in the Public Works Department. As long ago as 1876 it had been remarked by the Secretary of State that very few persons of pure Indian origin succeeded in obtaining appointments in the public service through the Engineering Class of the Thomason College, and between that time and the year 1882 he had repeatedly urged on the Government of India the advisability of giving to pure natives a preferential claim to such appointments. The Government of India, while recognising the desirableness of attracting natives of India to the Engineer Department, hesitated to give an exclusive preference to one class of natives of India as defined by Statute, and the discussions on this point ranged over a considerable period. Ultimately the Governor-General in Council acquiesced in the proposals of the Secretary of State, being influenced mainly by the consideration that, owing to reductions in the Public Works Department, the number of appointments available for pupils of the Indian Colleges had become so small that in no other way could the object in view be attained. The number of appointments guaranteed to the four Indian Colleges was no more than six for the year 1885 and seven for 1886, and under these circumstances almost the only way of facilitating the candidature of pure natives seemed to be to give them a preference over other students. Shortly after the issue of the Resolutions in question, memorials were received from various Associations of domiciled Europeans and Eurasians in India, remonstrating against the disadvantage at which persons of their class were placed by the new rules. These memorials were forwarded to the Secretary of State with a despatch from the Government of India of 28th July 1883, in which the Governor-General in Council remarked that although, looking to the small number of appointments involved, the memorialists appeared to exaggerate somewhat the practical effect of the rules upon their interests, he could not but think that "they had a certain solid foundation for their dissatisfaction, and that their representations deserved attention." The Governor-General in Council accordingly recommended that arrangements should be made in regard to the recruiting of the Public Works Department which would have the effect of increasing the number of appointments available for the Indian Colleges to eleven, and that with this extension of the field of employment the area of competition might again be widened so as to include all persons coming under the statutory definition of natives of India. Considerable correspondence has since taken place upon various points of detail in this scheme, and the Secretary of State has now decided that the annual recruitment from the Indian Colleges shall be fixed at nine. Although somewhat smaller than what they had recommended, the Government of India believe that this increase in the number of appointments, taken in connection with the changes made in other respects in the rules of admission to the College, renders it unnecessary to maintain a preference in favour of students of pure Indian descent, and that the object with which that preference was given may now be sufficiently attained without it. In future, therefore, all students coming under the statutory definition of natives of India will be eligible to compete for the guaranteed appointments in the Public Works Department.

The appointments will, for the present, be allotted as follows:—

To Thomason College, Burki	...	4 and 5 alternately.
Seebpore	...	2 and 1 "
Madras Civil Engineering College	...	1
Poona College of Science	...	2

ORDER.—Ordered, that this resolution be communicated to the Local Governments and Administrations noted in the margin; also that it be published in the *Gazette of India* and in all local official Gazettes.

The following are the conditions of sale:—

- 1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such exportation.
- 2.—The opium will be ordinarily offered for sale at an upset price of Rs. 80 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of the Conditions of Sale. The bids must advance by Rs. 5 at a time.
- 3.—The sale shall commence at the hour of 11 A.M. of the day fixed by public notice, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or public holiday), at the hour of 11 A.M., and shall continue until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A promissory note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 3-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said promissory note shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance shall in no way entitle the payer thereof to any right to delivery of the lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such lots, or from the additional liability for the loss and expenses of such re-sale as provided in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his agent.

12.—The officer rejecting, at his discretion, the bid of any individual, unless such individual shall on demand or Government Security deposit either in Government of India Notes, Bank of Bengal Receipts, or otherwise be able to furnish securities, a sum equal to the amount for which a Promissory Note would

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum price, diminishing the same gradually until a bid is obtained; and the bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the minimum lots as he may think proper, provided always that no lot shall be sold below the

14.—Price of Rs. 800 specified in the second of these conditions. The purchaser of any lot shall have the option of naming and purchasing in the same succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five chests, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna factory and the opium manufactured at the Ghazee-pore factory for the year 1883-84, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when picked at the Patna and Ghazee-pore factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18. The public are hereby informed that the opium manufactured at the Patna factory in season 1883-84 includes about 4,500 chests of 76° consistence, and that the opium manufactured at the Ghazee-pore factory in the same season includes about 8,883 chests of 72° and 1,965 chests of 74° consistences. The higher consistences will be mentioned in the sale notifications of the months in which they will be sold.

19. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be made on reference to chests after the sale and delivery of the opium for payment.

By order of the Board of Revenue, L.P.,

C. E. BUCKLAND,

Offg. Secretary.

No. 2181.—The following Order in Council providing for the recognition in the United Kingdom of the certificates of survey to be issued by the Government of Bengal to passenger steamers at Calcutta, is published for general information

AT THE COURT AT BALMORAL.

The 17th day of October 1884.

PRESENT:

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

Whereas by the Merchant Shipping Act, 1876, it is enacted that, when the Legislature of any British Possession provides for the survey of and grant of certificates for passenger steamers, and the Board of Trade report to Her Majesty that they are satisfied that the certificates are to the like effect, and are granted after a like survey, and in such manner as to be equally efficient with the certificates granted for the same purpose in the United Kingdom under the Acts relating to Merchant Shipping, it shall be lawful for Her Majesty by Order in Council;

1. To declare that the said certificates shall be of the same force as if they had been granted under the said Acts; and
2. To declare that all or any of the provisions of the said Acts which relate to certificates granted for passenger steamers under those Acts shall, either without modification, or with such modifications as to Her Majesty may seem fit, apply to the certificates referred to in the order; and
3. To impose such conditions and to make such regulations in respect to the said certificates, and to the use, delivery, and cancellation thereof, as Her Majesty may seem fit, and to impose penalties not exceeding fifty pounds for the breach of such conditions and regulations.

And whereas the Legislature of the British Possession of Bengal has provided for the survey of and grant of certificates for passenger steamers.

And whereas the Board of Trade have reported to Her Majesty that they were satisfied that such certificates are to the like effect, and are granted after a like survey, and in such manner as to be equally efficient with the certificates granted for the same purpose in the United Kingdom under the Acts relating to Merchant Shipping.

Now, therefore, Her Majesty, in virtue of the powers vested in Her by the said recited Act, by and with the advice of Her Privy Council, is pleased to direct—

1. That the certificates granted under the said provision by the Legislature of the British Possession of Bengal for passenger steamers shall be of the same force as if they had been granted for the same purpose in the United Kingdom under the said Acts relating to Merchant Shipping.
2. That all the provisions of the said Acts which relate to certificates granted for passenger steamers under those Acts shall, without modification, except as hereinafter mentioned, apply to the certificates referred to in this order.
3. That it shall not be lawful for a passenger steamer to which this order relates to proceed to sea with passengers on board from any port or place in the United Kingdom on any voyage to any port in Canada or the United States of America.

4. That if any such passenger steamer goes to sea from any port in the United Kingdom with any passengers on board, upon any voyage to any port in Canada or the United States of America, the owner thereof shall for every such offence incur a penalty not exceeding fifty pounds, and such penalty is hereby imposed accordingly.

(b) Whenever the Collector of any district shall make an entry or any alteration of any entry in his registers, which will affect any entry required to be made under this Act in any register of another district, such Collector shall transmit to the Collector of such other district a copy of such entry as made or as altered, and the Collector to whom such copy is transmitted shall cause the necessary entries or alterations of entries to be made in such register.

32. Within four months of the date on which this Act comes into force, the Board shall make general rules consistent with this Act regulating the manner in which registration under this Act are to be made, the procedure as to the presentation, admission and verification of the applications for registration under Chapter III of this Act, and to enquiries under section fifty-one, and generally for the purposes of this Act. The Board may from time to time cancel or alter such rules.

33. Whenever any Civil Court makes a decree confirming any transfer of proprietary possession which has already been made in any permanent tenure registered under this Act, or gives effect to any decree transferring any such possession, such Court may order the transfer to be registered in the register of the Collector, and the Collector shall subject to the provisions of sections twenty-five to thirty (both inclusive) register such transfers accordingly.

34. The Collector shall supply an extract from any register mentioned in this Act to any person who may apply for the same, subject to the payment of such fees for searching and copying as may be prescribed by the Board.

35. Nothing contained in this Act, and nothing done in accordance with this Act, shall be deemed to

(a) preclude any person from bringing a regular suit for possession of, or for a declaration of right to, any immovable property to which he may deem himself entitled,

(b) render the entry of any land in the registers under this Act as a tenure an admission on the part of the Government of the right of the person in whose name such tenure may be entered, an admission of the validity of the title under which the said tenure is held,

(c) affect the rights of the Government or any person in respect of any immovable property or of any interest except as otherwise expressly provided therein.

(d) apply to any of the tenures referred to in the Chota Nagpore Tenures Act, (B.O.) 1869, or to affect any register prepared under that Act.

CHAPTER III.

36. No provisions contained in this Chapter shall apply within the limits of any local area unless and until it has been expressly extended thereto by the Local Government under the provisions of section one of this Act.

37. Every tenure-holder in possession of a permanent tenure situated within a local area, or every person being manager of such tenure on behalf of a tenure-holder,

shall, if his name and character of his interest are not already been registered, within such time as the Local Government may fix under the next succeeding section, make application in the manner hereinafter provided for the registration of his name and the character of his interest as such tenure-holder or manager to the Collector of the

district in which such tenure is situated, or to any other officer who may have been empowered by the Collector to receive such application.

38. The Local Government shall, within six months from the date of the notification fix, for each local area the date before which such

tenure-holders and managers being in possession of permanent tenures situate therein at the date of such notification, shall be required to apply for registration of their names and the character of their interest under the last-foregoing section, and may at any time alter any date so fixed:

Provided that no date so fixed shall be later than after the date of the said notification.

39. No tenure-holder or manager shall incur any disability under this Chapter for failure to apply for registration of his tenure until after the lapse of six months from the date on which the notice prescribed in the next succeeding section shall have been published in respect of such tenures.

40. Every date fixed by the Local Government for the publication of notice as provided in the two last foregoing sections shall be published by a notice in the *Calcutta Gazette*, and shall also be published by affixing a copy thereof in some conspicuous place in the office of the Collector, in every civil court, in every police-station, and in the office of every sub-divisional officer within the local area, and in any other manner which the Local Government may from time to time direct.

41. The officer in charge of every office, court, and police-station at which a notice is required to be published under this section shall certify to the Collector of the district in which such office, court, and police-station is situate, the date on which the notice was so published at his office, court, or police-station; and the latest date so certified shall be deemed to be the date of publication of the notice for the purposes of the two last foregoing sections.

42. Every person succeeding after the date of the notification to any permanent tenure, whether by purchase, inheritance, gift or otherwise, and every person assuming charge after such date of any tenure as manager,

shall within six months from the date of such succession or assumption of charge, make application in the manner hereinafter provided to the Collector of the district on the general register of which such tenure is borne, or to any other officer who may have been empowered by such Collector to receive such application, for registration of his name and of the character of his interest as such tenure-holder or manager.

43. Every person who holds a mortgage of any permanent tenure may apply to the Collector for registration of his name as such mortgagee and of the interest in respect of which he is such mortgagee, and in such application shall specify whether he or the mortgagor is in possession. On receipt of such application the Collector shall proceed as far as possible according to the manner hereinafter prescribed in respect of application for registration as tenure-holder.

44. Any application for registration under this Chapter may be presented by the applicant or by some person duly authorized by him in that behalf.

45. If the applicant for registration under this Chapter is a joint tenure-holder or a manager, he shall in his application specify the names of his co-sharers or on behalf of whom he is manager, and the character and interest of every such person.

46. If the application be for the registration of the name of the applicant as manager appointed by the Collector, the Court of Wards, or by any Criminal or Civil Court, the Collector shall register the name of the applicant, on proof being produced to his satisfaction that the applicant has been so appointed to be such manager.

47. If the application be for registration otherwise than as manager appointed as mentioned in the foregoing section, and it sets forth circumstances which would justify the Collector in registering the name of the person whose name is required to be registered, or if after further enquiry the Collector considers that such circumstances exist, he shall issue a notice requiring all persons who object to the registration of the name of the person whose name is required to be registered, to dispute the character or extent of the interest in respect of which it is required to be registered, and to tender a written statement of their objections, and to appear on a day to be specified in such notice, not being less than one month from the date of the publication thereof.

48. Such notice shall be published by affixing a copy of the same on or at all the following places:—
the office of the Collector,
the village in or adjacent to which the tenure or any part thereof is situated.

49. If the application alleges that the applicant has acquired possession of the interest in respect of the interest of which he applies to be registered by transfer from any living person, a copy of such notice shall be served on the alleged transferor by tendering to the person to whom it may be directed a copy thereof attested by the Collector, or by delivering such copy at the usual place of abode of such person or to some adult male member of his family, or, in case it cannot be so served, by posting such copy on such conspicuous part of the usual or last known place of abode of such person.

In case such notice cannot be served in any of the ways hereinbefore mentioned, it shall be served in such way as the Collector issuing such notice may direct.

No fees or other costs shall be payable by the applicant in respect of the service or publication of the notice prescribed by this and the last foregoing sections.

50. No irregularity or omission in the publication or service of notice as required by the last three foregoing sections shall affect the validity of any proceeding

under this Act, unless it is proved to the satisfaction of the Collector that some material injury has been caused by irregularity or omission.

51. On the day fixed in the notice issued under this Chapter, or as soon thereafter as possible, the Collector shall consider any objection which may be advanced, and make such further enquiries as may appear necessary to ascertain the truth of the alleged possession, succession to, or transfer of the tenure in respect of which registration is applied for; and if it appears to the Collector that the possession exists, and that the succession or transfer has taken place, and that the applicant has acquired possession in accordance with such succession or transfer, the Collector shall order the name of the applicant to be registered in the proper registers as a joint tenure-holder or manager of the said tenure.

Provided that any person to whom any permanent tenure has been mortgaged may be registered as mortgagee, whether he be in actual possession or otherwise.

52. For the purpose of the enquiry mentioned in the last foregoing section, and of every inquiry held under this Chapter, the Collector may summon and enforce the attendance of witnesses and compel them to give evidence, and compel the production of documents by the same means, and as far as possible in the same manner as is provided in the case of a Civil Court by the Code of Civil Procedure.

53. All costs of any enquiry or proceeding held before the Collector under this Chapter shall, except as provided in section forty-nine, be payable by the parties concerned, and the Collector may pass such orders as he shall think fit in respect of the payment of such costs.

54. If the applicant's possession of, succession to, or acquisition by transfer of, the extent of interest in respect of which he has applied to be registered, is disputed by or on behalf of any person making a conflicting claim in respect thereof, and if it is not proved to the satisfaction of the Collector that any person is in possession of the interest in dispute, the Collector shall determine summarily the right to possession of the same, and shall deliver possession accordingly, and shall make the necessary entry in the registers; or if, in the opinion of the Collector, the dispute be one which can more properly be determined by a Civil Court, the Collector shall refer the matter in dispute to the Court of the Subordinate Judge for determination as hereinafter provided:

Provided that if the applicant's possession of any extent of interest in accordance with his application be not disputed, or if such possession be proved to the satisfaction of the Collector, the Collector may register the said applicant's name in respect of such extent of interest, and may at the same time make a reference as hereinafter provided to the Court of the Subordinate Judge for determination of any dispute as to any further extent of interest in respect of which the applicant has applied to be registered but in

respect of which the right of the applicant to be registered is disputed and is not proved to the satisfaction of the Collector.

55. In making a reference to the Court, the Subordinate Judge under the foregoing section, the Collector shall state for the information of the said Court, in writing under his hand—

the name of the tenure;
the name of the applicant for registry,
the character and extent of the interest in dispute,
the circumstances of the case as far as they are before the Collector, and the reasons which may have led him to make the reference.

56. On receipt of such reference the Court shall proceed to enquire into and determine the matter, and for that purpose shall follow as far as may be applicable the procedure prescribed in Chapter I of this Act.

The provisions of section sixteen shall be applicable to any order passed under this section.

57. From and after the expiry of the time allowed for the registration of tenures under section thirty-eight, every holder or manager of a permanent tenure in an area in respect of which such notice has been published shall be precluded from suing for or recovering rent for any holding or under-tenure situate in any such tenure in respect of which no application for registration has been made.

The Collector may send a list to the Civil Courts of all such holders so making default in applying for registration as aforesaid, and such court shall take judicial notice of the same.

Whenever the required application for registration has been made, or whenever the registration of the tenure has been completed, the disability imposed on the holder thereof by this section shall cease; and if such tenure shall have been included in any list as aforesaid, the Collector shall forthwith give notice to the Civil Court of the cessation of such disability.

58. The Collector may by a notice require the holder or manager of any permanent tenure to name such tenure by a distinctive name, and in case of failure of such holder or manager to comply with the requisition within the time fixed by the Collector, may name such tenure.

59. The Collector may, by a special or general order, delegate to any Assistant Collector, Deputy Collector or Sub-Deputy Collector, the performance of any duty and the exercise of any

function which the Collector is required or empowered to perform or exercise under this Chapter, except in respect of appeals. And any Assistant, Deputy or Sub-Deputy Collector to whom any duty or function is so delegated may exercise all the powers of a Collector under this Chapter, except in respect of appeals.

60. Every order passed under this Chapter by any revenue officer below the rank of the Collector of the District (not being an officer specially vested with appellate powers as hereinafter mentioned) shall be appealable to the Collector of the district, or to any officer who may be specially vested by the Local Government with special appellate powers in this behalf,

and there shall be no further appeal from any order so passed on appeal confirming the order appealed against,

but an appeal shall lie to the Commissioner of the Division against every order so passed in appeal which modifies or reverses the order appealed against.

Every order passed by the Collector of the District or by any officer specially vested with appellate powers as aforesaid, being passed otherwise than on appeal from the order of another officer, shall be appealable to the Commissioner of the Division.

Every appeal to the Collector shall be presented within fifteen days of the order appealed against.

And every appeal presented after the lapse of time fixed by this section may be summarily rejected unless sufficient cause shall be shown to the satisfaction of the appellate authority, for admitting the appeal after the lapse of such time.

Every order passed by any officer subordinate to a Commissioner shall be subject at any time to revision and modification by such Commissioner.

And every order passed by any such officer or by such Commissioner shall be subject at any time to revision and modification by the Board.

61. In computing the period of limitation prescribed for an appeal, the day on which the order complained of was made, and the time requisite for obtaining a copy of the same, shall be excluded.

62. The Lieutenant-Governor may from time to time vest any officer other than a Collector of the District with special appellate powers under this Chapter, and every officer so vested shall be competent to hear and decide any appeal which the Collector of the District is competent to hear and decide under this Chapter.

STATEMENT OF OBJECTS AND REASONS.

THE present law for the registration of transfers of tenures is contained, as regards *patni talooks*, in section 5 of Regulation VIII of 1819, and, as regards other permanent transferable tenures, in section 26 of Act VIII (B.C.) of 1869, and section 27 of Act X of 1859, in those parts of the Lower Provinces in which the last-mentioned Act is still in force. In all these cases, the registration contemplated is a registration in the *serishtas* of the zemindar or superior tenant, to whom the rent of the *talook* or tenure is payable. In the case of *patni talooks*, a fee is payable to the proprietor on the occasion of a transfer,

and registration is enforced by the power given to the proprietor to attach the tenure until the transfer has been registered. In the case of other permanent tenures, the law merely requires the zemindar or superior tenant to admit to registry and otherwise give effect to all such transfers, when made in good faith. There is no special penalty for failure to register or for refusal to admit to registry, but the landlord is not required to recognize an unregistered tenant, and a tenant, whose application for registry has been refused, may sue in the Civil Court (or where Act X of 1859 is in force before the Collector) to compel the zemindar or superior tenant to register the transfer.

These provisions evidently assume that every zemindar or other superior tenant maintains in his *serishtā* a register of all permanent tenures of which the rent is payable to him. But the law contains no provisions for any public and official register of tenures, such as was prescribed for estates by Regulation VIII of 1800, and subsequently by the Land Registration Act VII (B.C.) of 1876. It is considered that the preparation of such an official register would be a great benefit to the country. It would set at rest disputes concerning the character of tenures, the conditions under which they are held, and the rents payable on account of them; and it would facilitate the realization of arrears by enabling the Government to extend the summary sale procedure of Regulation VIII of 1819 to all permanent tenures recorded in the register. With these objects the present Bill has been prepared.

The Bill provides that applications for registry shall be made to the subordinate Judge, and may be made by either the zemindar or the tenure-holder. After due notice to all parties concerned, and such enquiry as may be necessary, the Subordinate Judge will pass an order, admitting or rejecting the application for registry. If he admits the application, he will send the necessary particulars to the Collector, in whose office the register of permanent tenures will be kept up.

The procedure for the maintenance of the register by the mutation of names in cases of transfer and succession will be embodied in the Bengal Tenancy Bill now under consideration in the Council of the Governor-General.

It will be optional with the parties to apply or not for registration of their tenures in the manner above described, as they may think fit. It is thought expedient to introduce the measure in this form at first, and to watch its working before further steps are taken. But it is desirable that all tenures liable to registration should be registered, and it is clear that this object cannot be secured without making registration compulsory. The Bill accordingly gives power to the Government from time to time to declare that, in any local area, all permanent tenures shall be registered within a specified time, in the same manner as the Land Registration Act of 1876 empowered the Government to fix dates for the registration of the names and interests of all proprietors of estates. Where this Chapter of the Bill is in force, the general procedure of Part IV of the Land Registration Act will be followed.

The Bill is not intended to apply to the tenures referred to in Act II (B.C.) of 1869, or to affect any register prepared under that Act.

Bills introduced into the Council of the Governor General for making
Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First Publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 19th December, 1884, and was referred to a Select Committee:—

No. 18 OF 1884.

A Bill to repeal part of section 6 of the Indian Tariff Act, 1882, and to amend the Excise Act, 1881, and the Bengal Excise Act, 1878.

WHEREAS it is expedient to repeal part of section 6 of the Indian Tariff Act, 1882, and to amend section 7 of the Excise Act, 1881, and section 18 of the Bengal Excise Act, 1878; It is hereby enacted as follows:—

1. The part of section 6 of the Indian Tariff Act, 1882, beginning with the words "And whereas," down to and including the words "been paid," is repealed.

2. For clause (a) of section 7 of the Excise Act, XXII of 1881, the following clause shall be substituted:—

"(a) such duty as the Local Government may from time to time fix in respect of such spirit has been paid."

3. In section 18 of the Bengal Excise Act, 1878, for the words "at the rate leviable under any Tariff Act for the time being in force" the words "at such rate as the Local Government may from time to time fix in respect of such spirituous liquor" shall be substituted; but nothing in this section shall affect any Act passed after this Act comes into force by the Lieutenant-Governor of Bengal in Council.

4. The duty now fixed by the Local Government under section 6 of the Indian Tariff Act, 1882, as leviable on spirit manufactured in all or any of the distilleries situate in the territories under its administration, or in any part of such territories, shall, in places in which the Excise Act, 1881, or the Bengal Excise Act, 1878, is in force, be deemed to be the duty fixed by the Local Government under sections 7 and 18 of those Acts, as amended by this Act, respectively.

STATEMENT OF OBJECTS AND REASONS.

THE Government of Madras recently submitted a draft Bill to consolidate and amend the Abkari law of the Presidency of Madras, for sanction to its introduction in the local Legislative Council, and, on examination of its provisions, it was found that two clauses of one of its sections, imposing a duty on liquor, were, as applied to spirit, *ultra vires* of the local legislature, as the mode of fixing the excise duty on spirit is determined by section 6 of the Indian Tariff Act, 1882. It was also feared that the penultimate clause of the latter section, by keeping in force, under the authority of the Governor General's Legislative Council, an unexplored mass of law existing on the 10th March, 1882, might render other provisions of that Bill *ultra vires*.

This in itself would make it necessary that legislation should be resorted to in the Council of the Governor General in order to prevent the Madras Bill from being declared invalid; and as, moreover, section 6 of the Tariff Act must seriously hamper any local legislature contemplating legislation like that proposed by the Madras Government, it is proposed to repeal that section, leaving it to the Local Governments to deal with the mode of fixing the duties of excise on spirit, under the other enactments locally in force, subject, so far as any discretion is allowed to them by those enactments, to the general executive control of the Government of India.

The present Bill has accordingly been prepared. It first repeals section 6 of the Tariff Act except the last clause amending section 7 of Act XVI of 1863, which Act is still in force. It then amends section 7 of the Excise Act, 1881, and section 18 of the Bengal Excise Act, 1878, which at present contain references to the provisions of section 6 of the Tariff Act, by omitting these references and conferring on the Local Governments concerned power to fix the duty payable in respect of country spirit. Lastly, in order to prevent any question being raised as to the effect of the repeal of section 6 of the Tariff Act, the Bill declares that duties already fixed by the Local Government under section 6 of the Tariff Act shall be deemed to be duties fixed by the Local Government under sections 7 and 18 of the Excise Act, 1881, and the Bengal Excise Act, 1878, as amended by this Act, respectively.

[First Publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 19th December, 1884, and was referred to a Select Committee:—

No. 19 OF 1884.

A Bill to amend the law relating to the carriage of passengers by sea.

[Act II of 1860, preamble.]
[18 & 19 Vic., c. 119.]
WHEREAS by section 99 of an Act of the Imperial Parliament called "the Passengers Act, 1855," it is enacted that "it shall be lawful for the Governor General of India in Council, from time to time, by any Act or Acts to be passed for that purpose, to declare that this Act or any part thereof shall apply to the carriage of passengers upon any voyage, from any ports or places within the territories of British India, to be specified in such Act or Acts, to any other places whatsoever, to be also specified in such Act or Acts;" and it is thereby also enacted that "on the passing of such Indian Act or Acts, and whilst the same shall remain in force, all such parts of this Act as shall be adopted therein shall apply to and extend to the carriage of passengers upon such voyages as in the said Indian Act or Acts shall be specified. The provisions of such Indian Act shall be enforced in all Her Majesty's possessions in like manner as the provisions of this Act may be enforced;"

[New.] And whereas certain parts of the said Act of Parliament were by Act II of 1860 (*to amend the law relating to the carriage of passengers by sea*) made applicable to the carriage of passengers upon certain specified voyages;

[New.]
[26 & 27 Vic., c. 51.]
[18 & 19 Vic., c. 119.]
And whereas by an Act of the Imperial Parliament called "the Passengers Act Amendment Act, 1863," certain parts of the Passengers Act, 1855, which were so made applicable have been amended, and it is provided that the said Acts of the Imperial Parliament shall be construed together as one Act;

[New.]
[18 & 19 Vic., c. 119.]
And whereas it is expedient that the amendments so made in the Passengers Act, 1855, should also be made in the parts of that Act so

made applicable, and it is also expedient to apply those parts so amended to the carriage of passengers upon certain voyages not specified in Act II of 1860;

It is hereby enacted as follows:—

Short title and commencement
1. (1) This Act may be called the Indian Sea Passengers Act, 1885: and [New.]

(2) It shall come into force on the first day of March, 1885. [New.]

2. On and from the day on which this Act comes into force, Act II of 1860 (*to amend the law relating to the carriage of passengers by sea*) shall be repealed. [New.]

3. The provisions contained in sections 4, 5 and 6 of this Act, and the schedule hereto annexed (being parts of the Passengers Act, 1855, as amended by the Passengers Act Amendment Act, 1863), are declared applicable to the carriage of passengers upon the following voyages, namely:— [Act II of 1860 s. 1]
[Act VII of 1871, ss. 18 & 19 v c. 119.]
[New.]
[26 & 27 V c. 51.]

(a) Voyages from the ports of Calcutta, Madras and Bombay to the British Colonies of Mauritius, Jamaica, British Guiana, Trinidad, St. Lucia, Grenada, St. Vincent, Natal, St. Kitts, Nevis and Fiji; [New.]

(b) Voyages from the ports of Calcutta, Madras and Bombay to the French Colonies of Réunion, Martinique, Guadeloupe and its dependencies, and Guiana; [New.]

(c) Voyages from the ports of Calcutta, Madras and Bombay to the Netherlands colony of Dutch Guiana; [New.]

(d) Voyages from the ports of Calcutta, Madras and Bombay to the Danish colony of St. Croix; [New.]

(e) Voyages under the Native Passenger Ships Act, 1876, from Calcutta Madras, Bombay, Karachi, Rangoon and other ports in British India to the Straits Settlements, to the protected Native States adjoining the Straits Settlements, to Australia, and to ports in the Red Sea or Persian Gulf. VIII of 1

[Act II of
1860, s. 2.]

4. If the passengers upon any such voyage as is specified in the last preceding section are taken off from the ship carrying such passengers, or are picked up at sea from any boat, raft or otherwise, it shall be lawful, if the port or place to which they shall be conveyed is in any of Her Majesty's colonial possessions, for the Governor of such colony, or for any person authorized by him for the purpose, or, if in any foreign country, for Her Majesty's Consular officer, at such port or place therein, to defray all or any part of the expenses thereby incurred.

and shall be deemed sufficient evidence of the amount of the expenses, and that the same were duly incurred;

nor shall it be necessary to adduce on behalf [New.] of Her Majesty any other evidence in support of the claim, but judgment shall pass for the Crown, with costs of suit, unless the defendant specially pleads and duly proves that the certificate is false or fraudulent, or specially pleads and duly proves any facts showing that the expenses were not duly incurred:

Provided, nevertheless, that in no case shall any larger sum be recovered on account of the expenses than a sum equal to twice the total amount of passage-money received or due to and recoverable by or on account of the owner, charterer or master of the passenger-ship or any of them from or on account of the whole number of passengers who may have embarked in the ship; which total amount of passage-money shall be proved by the defendant if he will have the advantage of this limitation of the debt: but if any such passengers are forwarded or conveyed to their intended destination under the provisions of the last preceding section, they shall not be entitled to the return of their passage-money, or to any compensation for loss of passage.

[Act II of
1860, s. 3,
26 & 27
Vic., c. 51,
[New.]]

5. If any passenger of any such passenger-ship as aforesaid, without any neglect or default of his own, finds himself within any colonial or foreign port, or place other than that for which the ship was originally bound, or at which he, or the Emigration Agent, or any public officer or other person on his behalf, has contracted that he should land, it shall be lawful for the Governor of the colony, or for any person authorized by him for the purpose or for Her Majesty's Consular officer at the foreign port or place, as the case may be, to forward the passenger to his intended destination, unless the master of the ship, within forty-eight hours of the arrival of such passenger, gives to the Governor or Consular officer, as the case may be, a written undertaking to forward or carry on within six weeks thereafter the passenger to his original destination, and unless the master accordingly forwards or carries him on within that period.

THE SCHEDULE.

Form of Governor's or Consul's Certificate of expenditure in the case of Passengers shipwrecked &c. [26 & 27 Vic., cap 51, Sched [New.]]

(See section 6.)

(a) A B—1. If more passengers were rescued than forwarded, or if bedding, &c., was not supplied, after the certificate to suit the facts of the case.
(b) A B—2. State generally the nature of the disaster and where it occurred. But if the passengers were only left behind without any default of their own, state the fact accordingly.

I hereby certify that acting under, and in conformity with, the provisions of the Indian Sea Passengers Act, 1885, I have defrayed the expenses incurred in rescuing, maintaining, supplying with necessary bedding, provisions and stores (a), and in forwarding to their destination passengers who were proceeding from to in the passenger-ship which was wrecked at sea, &c. (b).

And I further certify, for the purposes of the sixth section of the said Indian Sea Passengers Act, 1885, that the total amount of such expenses is , and that such expenses were duly incurred by me under the said Act.

Given under my hand this day of 18 .

{ Governor of &c., (or, as the case may be), Her Britannic Majesty's Consul at

[Act II of
1860, s. 4,

6. (1) All expenses incurred under sections 4 and 5 of them, by or by the authority of a Governor or Consular officer, or other person as therein respectively mentioned, including the cost of maintaining the passengers until forwarded to their destination, and of all necessary bedding, provisions and stores, shall become a debt to Her Majesty and Her successors from the owner, charterer and master of the ship, and shall be recoverable from them, or from any one or more of them, at the suit and for the use of Her Majesty, in like manner as in the case of other Crown debts.

[New.]

(2) A certificate in the form given in the Schedule hereto annexed, or as near thereto as the circumstances of the case will admit, purporting to be under the hand of any such Governor or Consular officer (as the case may be), stating the total amount of the expenses, shall, in any suit or other proceeding for the recovery of the debt, be received in evidence without proof of the handwriting or of the official character of the Governor or Consular officer,

STATEMENT OF OBJECTS AND REASONS.

Act II of 1860 declares certain parts (namely, sections 52, 53 and 54) of the English Passengers Act, 1855 (18 & 19 Vic., cap. 119) to be applicable to the carriage of passengers upon voyages from the ports of Calcutta, Madras and Bombay to the colonies of Mauritius, Jamaica, British Guiana, Trinidad, St. Lucia and Grenada, and from ports in British India to ports in the Red Sea or Persian Gulf. The colonies mentioned were the places to which emigration was then lawful. Since 1860, emigration to the colonies of Fiji, Natal, Réunion, St. Croix, Guadeloupe, Martinique, Dutch Guiana, St. Vincent, Nevis and St. Kitts has been sanctioned. With respect, however, to voyages to places not specified in Act II of 1860, that

Act gives no power to any authority to recover expenses incurred in forwarding shipwrecked passengers to their destination and in maintaining them until they are so forwarded. At present, therefore, the voyages to which the Act does not apply are more numerous than those to which it does.

2. Again, the Act, as it stands at present, is, if strictly construed, inapplicable to the conditions under which emigration from India is usually conducted. Section 3 of the Act, following section 53 of the English Passengers Act, 1855, runs as follows:—"If any passenger * * * find himself within any colonial or foreign port or place other than that at which *he may have contracted to land*," &c. But as a rule, emigrants from India do not themselves contract with the owners or charterers of the vessels in which they emigrate. In all cases falling under the Indian Emigration Act VII of 1871 (or which may fall under the Indian Emigration Act XXI of 1883, when that Act is brought into force) the contract is made by a recruiter for the colony importing labour, under the supervision of the Protector of Emigrants. Emigrants despatched in this way are therefore technically excluded from the provisions of Act II of 1860. A similar difficulty appears to have arisen in England, and to have been met by an amendment of the law. Section 12 of the English Passengers Act Amendment Act, 1863 (26 & 27 Vic., cap. 51), repeals section 53 of the English Passengers Act, 1855, and section 15 of the former Act substitutes for the words "other than that at which he may have contracted to land" the words "other than that for which the ship was originally bound, or at which he or the Emigration Commissioners, or any public officer, or other person on his behalf, may have contracted that he should land".

3. These two defects in the Act came to notice in connection with the following occurrence. In the end of April last, the steamer *Laleham*, carrying emigrants from Calcutta to Dutch Guiana, grounded off Ceylon, and was compelled to land her passengers at Trincomalee. The *Laleham* returned to Calcutta, where she was examined by the Engineer-Surveyor to the port, and reported "unseaworthy and unfit to proceed to sea without serious danger to human life". The Agents of the *Laleham* at first proposed to substitute another vessel, but subsequently declined to do so, offering merely to have the *Laleham* repaired at Calcutta, and to fulfil her charter-party by re-embarking the coolies at Trincomalee and taking them on to Surinam.

The Advocate General of Bengal, on being consulted, was of opinion that no action could be taken under Act II of 1860, and that the matter would be governed by the charter-party. Surinam, he said, being in Dutch Guiana, is not a place to which Act II of 1860 applies. He thought further that the English Passengers Act Amendment Act, 1863, would be construed strictly, and according to such construction he did not think that the words of section 3 of Act II of 1860 would cover the break-down in a voyage to which that Act applied, in any case other than that in which the passenger had himself contracted.

Under these circumstances legislation seems necessary in order to bring Act II of 1860 into conformity with the present system of emigration and the English Passengers Act Amendment Act, 1863.

The present Bill has accordingly been prepared. It repeals and re-enacts Act II of 1860 with the necessary amendments. Section 3 of the present Bill declares the subsequent provisions of the Bill (being parts of the English Passenger Act, 1855, as amended by the Passengers Act Amendment Act, 1863) to be applicable to all voyages to certain specified colonies and places, which are, in fact, the colonies and places to which under the existing law emigration is now lawful or is likely to be legalized; and in sections 5 and 6 the amendments made by the English Passengers Act Amendment Act, 1863, in sections 53 and 54 of the English Passengers Act, 1855 (which formed sections 3 and 4 of Act II of 1860) are incorporated with some slight modifications so as to adapt them to this country.

The following statement shows the gross and net customs revenue collected in Bengal on all articles during the past five years:—

The decline in the net duty of Rs. 1,63,282, or 7 per cent., is chiefly due to the falling off of Rs. 64,479 in the salt duty and of Rs. 1,40,473 in the export duty on rice. The reduced export of the latter article was the natural consequence of a short crop, and the same cause has probably tended to defer the gradual increase in the consumption of salt which was anticipated in the Resolution on last year's report. The decline of 35 per cent.

in the quantity cleared bears out this view. Import duty, exclusive of salt, shows a small increase of Rs. 26,572, or 1·8 per cent., due to larger collections under the heads of liquors and arms and ammunition. Looking to the returns for the several ports, it will be seen that the net revenue of Calcutta has fallen by 2 per cent., while that of all the outports has risen in varying proportions.

2. The total value of the imports into Bengal, exclusive of Government transactions, rose from Rs. 28,37,25,812 to Rs. 30,06,49,292. The rise was most marked in foreign merchandise, where it exceeded one crore and 37 lakhs. The imports of treasure, on the other hand, declined, the net result being an increase in the value of the foreign trade from Rs. 23,41,84,301 to Rs. 24,43,64,406. In the coasting trade a similar state of things has prevailed, the imports of merchandise rising by more than eighty lakhs, and those of treasure falling by over thirteen.

4. The value of the export trade of the year was Rs. 43,56 07,096, against Rs. 42,46,65,199 in 1882-83. In the foreign trade, exports rose in value from Rs. 34,43,30,483 to Rs. 36,21,33,528, representing an increase in the value of merchandise of Rs. 1,95,68,306, and a decrease in treasure amounting to Rs. 17,65,261. The total coasting trade exports show a decline from Rs. 8,03,34,716 to Rs. 7,34,73,568, owing to the reduced exports of Indian produce and to smaller shipments of silver to ports in British Burma. On the other hand, there was a considerable increase in the exports of foreign merchandise, such as cotton twist and yarn to Madras and piece-goods to Burma.

5. *Calcutta Foreign Trade.*—Turning now to the trade of the different ports in Bengal, it is observed that the imports of Government stores into the Port of Calcutta increased by more than 18 lakhs, or 19 per cent., railway plant alone showing an increase of more than 9 lakhs. Woollen piece-goods increased by more than 4½ lakhs, and paper and pasteboard by nearly 4 lakhs. Apart from Government transactions, the imports of the foreign trade of Calcutta rose from Rs. 23,39,17,864 to Rs. 24,40,48,995, or 4·3 per cent., and the exports from Rs. 33,40,61,753 to Rs. 35,07,72,762, or 5·5 per cent. The increase in imports was chiefly under the heads of railway plant, machinery, metals, cotton twist and woollen piece-goods; while the increase in exports occurred in raw cotton, indigo, wheat, hides, and oil-seeds. On the other hand, the exports of jute, gunny-bags, lac and opium fell off in various proportions.

6. A few slight changes are observed in the proportions which different countries contribute to the foreign trade of Calcutta. Thus, the share taken by the United Kingdom has increased from 62·35 to 65·40, the trade with France has risen from 2·80 to 3·02, and that with Austria from ·99 to 1·23. Hong-Kong, the United States, Ceylon, the Straits Settlements, and Australia have, on the other hand, lost ground. In the case of Hong-Kong the decrease is chiefly in the imports of treasure; while the trade with the United States has fallen off most largely in imports of kerosine oil, but also to a certain extent in exports of Indian produce. Ceylon has taken less grain from Calcutta, and has exported and imported less treasure than in ordinary years. The Straits Settlements have contributed smaller supplies of tin and pepper, and received considerably less opium than usual. In the case of Australia the total trade shows a decline of 37 lakhs, or 23·3 per cent., due to the smaller shipments of gunny-bags and tea. Imports, on the other hand, have increased, and there is said to be a prospect of the trade with India being developed by the means of a special line of steamers. The proportion of the foreign trade of Calcutta using the Suez Canal rose from 58·6 to 63·6, and it is stated that only 10 per cent. of the trade with Europe is carried by the Cape.

7. *Imports.*—The imports of cotton twist and yarn show an increase in value from Rs. 1,03,57,430 to Rs. 1,18,21,772, and in quantity from 13,058,628 lbs. to 15,255,962 lbs. At the same time the value of the imports of piece-goods of all kinds rose from Rs. 11,35,14,475 to Rs. 11,38,80,206. American piece-goods fell off remarkably, owing to English drills having displaced American drills in the market. Among English goods grey shirtings, which formerly commanded a ready sale, are said to have lost their popularity owing to the preference of the consumers for coarser and more substantial fabrics. On a general review of the trade in both yarn and piece-goods during the past year, there seems to be reason for believing that the increased importation was due rather to excessive production

in England, which compelled merchants to divert their goods to India from the overstocked markets of China and Japan, than to any genuine extension of demand. Indeed, the partial failure of crop, which occurred in 1883, furnishes of itself sufficient reason for thinking that the purchasing power of the people must have been somewhat reduced during the year. The current season has been equally unfavourable, and, so far as the piece-goods' trade depends upon agricultural prosperity, there seems to be no immediate prospect of a more active demand. On the other hand, it is probable that the extension of railways in Bengal, by cheapening these heavy goods to the consumers, will lead to increased purchases. Thus, the Bengal-Nagpore Railway, on which work has recently commenced, will open up large areas, where at present pack-bullocks form the only means of carriage, and the price of cloth is high in proportion to the extreme difficulty of transport. The demand for woollen piece-goods was steady throughout the year, the average price being somewhat less than in 1882-83. The trade in shawls was greater than at any time during the last five years, and there was no decline in the average price.

8. The total value of metals imported into Calcutta rose from Rs. 2,28,32,317 to Rs. 2,44,53,501, the increase being most marked under the heads of copper, wrought iron, and steel. The imports of unwrought iron have declined from the unusually high standard of the preceding year. The extended use of wrought iron in buildings is evidenced by a rise in the imports of 68½ per cent. The imports of lead show a decline of nearly 5,000 cwt., but this is said to be only a temporary fluctuation, as the demand for this metal for use in lining tea-boxes is necessarily of a permanent character. The value of the imports of railway plant and rolling-stock has risen from Rs. 40,17,623 to Rs. 80,58,989, or 100½ per cent., and this is likely to be maintained. Machinery and mill work also show an increase from Rs. 61,29,592 to Rs. 82,79,734, due to the extension of the cotton and jute industries. Here, however, a decline is anticipated, as the limits of profitable production appear to have been reached, and the results of the past year have, in the case of jute at any rate, been singularly unfavourable.

9. The imports of malt liquors show a rise in quantity from 508,006 to 601,477 gallons, and in value from Rs. 12,09,723 to Rs. 14,58,090. The Collector of Customs observes that the quantity of Pilsener beer imported has increased twenty-fold in five years, and now stands second only to the consumption of Bass' beer. He also refers to the increased imports of European beer as showing that beer brewed in the hills has failed at present to meet the taste of the general public. The imports of wines and spirits have declined in quantity and risen in value, owing to the increased consumption of high-priced whisky and champagne. The demand for brandy seems to be steadily falling off, and the same remark applies in a less degree to claret and sherry. The Collector of Customs discusses, with much good sense, the reasons why the Australian wines, of which specimens were brought to the International Exhibition, are not likely to become popular in India, unless their character is considerably modified. In Mr. Armstrong's judgment these wines are too strong and too sweet; they do not stand the climate; and their names, borrowed from those of well-known European wines, suggest expectations which their quality fails to satisfy.

10. As compared with the large imports of 1882-83, the imports of mineral oils have fallen by 41½ per cent. The quantity imported (7,566,526 gallons) was, however, considerably in excess of the imports of 1881-82, and preceding years. The Collector observes that, although the production of mineral oil in America may be supposed to have reached its maximum, the competition of newly discovered sources of supply, such as Batoum on the Caspian and Bushire in the Persian Gulf is likely to prevent any considerable rise in the price of American oil. On the other hand, the imports from British Burma have declined, and there seems to be little prospect of that province meeting any large proportion of the growing demand from Bengal. The use of kerosine oil among all classes of the native population seems likely to increase. Not only is it used for lighting, but there is a strong belief in its healing properties as an application for bruises and various kinds of skin disease. The importation of umbrellas has increased considerably, and the trade was a most satisfactory one during the year. This fact may be taken as some slight indication of the growth of habits of greater comfort among the people.

11. The imports of corals show a rise in quantity from 122,971 lbs to 154,716 lbs., and in value from Rs. 17,19,786 to Rs. 20,39,316. The over pro-

duction in Italy, referred to in last year's report, is said to have continued and to have caused prices to rule unusually low. while the Nepalese demand fell off owing to a dispute with the Thibetans. It is stated, on the other hand, that a combination has been formed among the Italian manufacturers to regulate shipments, and, independently of this, the extension of trade with Thibet, which may perhaps be looked for, will probably do much to improve the prospects of this industry.

12. Although no attempt seems to have been made to supply the native market with cheap Indian tea, the imports of China tea have fallen by about $33\frac{1}{2}$ per cent., while the average price has remained as low as 6·3 annas per pound. The decline is attributed to over importation in 1881-82, leaving large stocks in hand which have not yet been cleared off.

13. Under the head of tobacco, the imports of cigars have increased, and there are signs of a demand for the more expensive kinds of cigars supplied by the United Kingdom; while at the same time the imports of Indian-made cigars show a steady increase. The imports of manufactured tobacco declined owing to excessive stocks and to a rise of prices in America.

14. *Exports.*—Some changes may be noticed in the proportion which various articles contribute to the export trade of Calcutta. Thus, the exports of grain and pulse have risen from $11\frac{1}{2}$ to 15 per cent., jute has fallen from 20 to 14, and tea and oil-seeds have risen by 1 per cent. In other respects the normal proportions have, on the whole, been maintained. Owing probably to the partial failure of crop in 1883-84, the exports of rice fell off from 6,607,497 cwts. to 6,082,023 cwts.; while the value rose from Rs. 1,92,11,1·6 to Rs. 1,98,95,582. This was a great boon to the great rice-producing districts of Eastern Bengal, where the crop was a tolerably full one, and where producers often have to complain of the low prices of a year of plenty. Orissa also contributed an unusually large proportion of the year's exports; and the rice trade of that Province seems to show signs of recovering the importance it attained in 1877-78.

15. The exports of wheat for the last five years are shown in the following statement:—

1879-80.		1880-81.		1881-82.		1882-83.		1883-84.	
Cwt.	Rs.	Cwt.	Rs.	Cwt.	Rs.	Cwt.	Rs.	Cwt.	Rs.
1,583,606	76,47,508	3,955,269	1,51,23,950	6,606,896	2,52,03,295	4,438,503	1,79,33,850	7,611,414	3,04,27,244

The Collector of Customs makes the following comments on the prospects of the wheat trade.

"The three principal competitors in this trade with the United Kingdom are, it will be seen, the United States, Russia, and India. From the first, the receipts show a heavy decline, while from the two others there have been very substantial increases; Russia still occupying the second place, notwithstanding the large increase in receipts from India.

"The extension of the Indian wheat trade to very large proportions is, I believe, merely a question of the opening out of suitable tracts of country by railways and of cheap carriage. It may be said to be fairly ascertained now that the price of wheat in the large markets up country is substantially lower than the price at similar markets in the United States, while the quality of the wheat is good; in fact this price is so low that ultimately the bulk of the trade should be obtained by India.

"During the past year freights by sea from Calcutta have been very low, and owing to this and the reduction in the rate of railway carriage mentioned in the last year's report, exporters have been enabled to lay down their wheat in London at considerably cheaper rates than in the previous year, and so to compete on better terms with America. The larger trade of the past year is therefore a very good index of the effect of cheap carriage. Low freights, however, cannot always be expected, as the dearth of employment for vessels, which caused a large quantity of tonnage to be available at low rates, cannot be looked for every year.

"The importance of India as a competitor with the United States has forced itself very prominently upon the attention of the growers of wheat in the Western States, with the result that prices at Chicago are reported to be lower than they have been for twenty years. Low freights are also ruling, so that the competition has become very keen; but still India holds her own."

Cheap carriage to the coast is no doubt the main factor in the development of India's great resources as a wheat-producing country. But it is not the only one, and it is doubtful whether Indian wheat will be able to maintain a firm hold upon European markets, unless the cultivators do

more than they have hitherto done to keep the quality uniform, and to avoid mixing and adulteration. It will be one of the duties of the new Agricultural Department not to teach cultivators details of cultivation, which they know already, but to bring home to them the fact that if their products are to command a good price they must be up to a certain standard and be supplied under certain conditions.

16. There was a fall in the exports of raw jute from 9,191,884 cwt. to 5,953, 147 cwt., owing partly to a failure of crop, and partly to the fact that the area sown with jute was contracted by the cultivators themselves, who were dissatisfied with the low prices which resulted from the full crop of the previous year. This element of uncertainty must always tend to affect the prospects of jute. It is grown on the same classes of land as some kinds of rice, and thus competes with the staple food-crop of the country. The exact effects of this interdependence of the two crops can probably not be defined, but it must obviously exercise an important influence upon the fluctuations of the trade from year to year. The exports of gunny-bags show an increase in quantity from 59,323,573 to 62,420,662, and a decline in value from Rs. 1,39,81,875 to Rs. 1,22,88,708. The prospects of the industry are at present believed to be discouraging. Production has outrun demand. New mills have been built or planned; the price of raw material has risen 50 per cent., while that of the manufactured article has fallen by 15; consequently many of the mills are working at a loss, and must continue to do so till the price of gunny-bags rises or the price of raw material falls.

17. A further increase is observed in the exports of tea from 56,846,361 lbs, valued at Rs. 3,62,06,208, to 59,190,914, valued at Rs. 4,02,34,619. The average price has advanced by 7 pies per pound, and the quality of the tea is believed to have been good, notwithstanding the large shipments made. The exports to Australia and America fell off remarkably, owing, it is said, to those markets having been overstocked in the preceding year. There seem, however, to be prospects of the trade with both countries recovering itself shortly. An encouraging feature in the progress of Indian tea is the steady development of its hold upon the English market. Thus, in 1877, Indian tea supplied only 19 per cent. and China tea 81 per cent. of the English demand, while in 1883 the percentage of China tea had fallen to 65·4, and that of Indian tea risen to 34·6 per cent. Ceylon tea is now said to be likely to compete with Indian tea in the English markets. The results of such competition can hardly be foreseen at present, but the development of the Ceylon trade should be watched and reported on in greater detail next year.

18. Among the other articles of export, indigo shows an increase of more than 10 per cent., and hides and skins of 15½ per cent. In raw silk there was an advance of 18½ per cent. owing to a revival of the demand for Bengal silk in the London market. Raw cotton shows a remarkable increase upon the reduced exports of last year, though the quantity is still considerably less than in 1880-81. There seems, however, to be some promise of the trade recovering, as a demand for short stapled cotton is said to have arisen in Lancashire. The entire cessation of exports to Austria is ascribed by the Collector to the fact that it was more profitable to ship through London than direct to Trieste. The exports of lac decreased by 18 per cent. in quantity and 20 per cent. in value. Excessive stocks of shellac are said to have accumulated, and the trade is not likely to revive till these have been worked off. Sugar shows an increase of 86 per cent., which would, it is said, have been still larger, but for the competition in the English market of beet sugar imported from Germany. The export of unmanufactured tobacco rose by 143½ per cent., but this was to some extent due to the belief that the rate of duty in Holland was likely to be raised.

19. The net imports of silver fell off by about a quarter of a lakh, and the net imports of gold by a little over eight lakhs. Neither the Board nor the Collector of Customs attempt any explanations of these variations. It may be assumed, however, that the decline in the imports of gold represents a decreased demand for articles of personal ornament, arising from the failure of crop. The people had less to spend, and purely luxurious expenditure was naturally the first to be reduced.

20. *Coasting Trade.*—The total imports of the coasting trade of Calcutta rose from Rs. 2,67,14,775 to Rs. 3,33,17,031; while the total exports fell from Rs. 5,00,27,422 to Rs. 4,73,43,813. Under the head of imports, cotton

twist and cotton piece-goods from Bombay show a remarkable increase, upon which the Collector remarks:—

“The advance in importations in five years is most marked, being over 100 per cent., while in comparison with 1874-75 the receipts have increased twenty-fold. The development of cotton manufactures in Bombay is no doubt the principal cause of this advance. The possibility of a war between France and China also caused a diversion of shipments from China to Calcutta, for heavy stocks accumulated at Hong-Kong and discouraged further importation. Competition between Lancashire and Bombay in low counts of yarn has practically ceased, the latter having, with the exception of a few thousand lbs, entirely supplied this market with yarns of 24s. and under. If the receipts from Bombay of grey twist and yarn continue to advance in the same proportion as they have for the last few years, they will very soon reach those from the United Kingdom as the following figures show:—

							1883-84.
							lbs.
From United Kingdom	8,384,166
Bombay	6,730,700,”

Pepper, sleepers, castor-seeds, and turmeric from Madras, teak-wood and cutch from British Burma, and rice from the Bengal outports are the only other items demanding special notice. The decline in exports occurred in shipments of rice, gunny-bags, sugar, cotton and foreign twist and piece-goods to Bombay Madras and Pondicherry. The exports to British Burma and the Bengal outports show an increase.

21. *Minor Ports, Chittagong.*—The total value of the foreign trade of Chittagong rose from Rs. 94,18,552 to Rs. 1,00,61,967, the value of imports rising from Rs. 2,65,999 to Rs. 3,15,191, and of exports from Rs. 91,52,553 to 97,46,776. As is usual, by far the largest proportion of the imports consists of salt, in which there was an increase of Rs. 89,556 during the year. The increase in the value of the exports occurs in all the chief articles exported, while all, except paddy and tobacco, show a decrease in quantity. A new branch of trade has been established with New York in jute cuttings, the value of which is said to be Rs. 4,85,245. In the coasting trade there was a total increase of Rs. 4,53,023, or 3 per cent., the details of which are of no special interest.

22. *The Orissa Ports.*—The value of the total trade of the Orissa ports rose during the past year by Rs. 25,83,095, or 21.6 per cent. Balasore made large shipments of rice to the Mauritius, the Maldives and Muscat; Cuttack sent rice to Colombo; and Pooree exported to Ceylon. At all of the ports the increase in imports was chiefly in gunny-bags, tobacco, cocoanut-oil and kerosine.

23. *Port of Naraingunge.*—The continuous improvement in the trade of this port, remarked upon last year, was arrested for the time being in 1883-84, the value of the trade showing a decrease of Rs. 1,02,244, or 1.2 per cent. “This,” the Collector of Customs observes—

“Is attributable to the failure of the cotton crop in Chittagong having affected the import trade, as did the low prices of jute prevailing last year, the export. Messrs. David & Company, the largest importers of cotton, seeing no prospect of a remunerative business, made no imports during the year; jute was not exported in such large quantities direct to Chittagong, but sent to Calcutta instead, better prices being obtainable in the latter place; the outturn of the jute crop was also smaller than in the preceding year, a lesser area having been brought under cultivation, and there having been a partial failure of the crop owing to want of rain.”

Proposals are now under consideration for a rough survey of the channels of the Megna leading to Naraingunge, and should these prove to be navigable by sea-going vessels, a great development may be looked for in the trade of the port.

24. The Lieutenant-Governor's acknowledgments are due to the Board for their efficient administration of the Department during the year, and to Mr. Armstrong, the Collector of Customs, for a full and careful report. The names of the officers selected by the Board for commendation will be communicated to the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Secretary to the Government of Bengal.

RESOLUTION ON THE REPORT OF THE COMMITTEE FOR THE
MANAGEMENT OF THE CALCUTTA ZOOLOGICAL GARDENS
FOR THE YEAR 1883-84.

REVENUE DEPARTMENT—MISCELLANEOUS—(F.)

Calcutta, the 22nd December 1884.

RESOLUTION.

READ—

The Report of the Committee for the Management of the Calcutta Zoological Gardens for the year 1883-84.

The total income of the Gardens during the year amounted to Rs. 52,398 against Rs. 41,149 in 1882-83, and the expenditure increased from Rs. 38,264 in 1882-83 to Rs. 52,277 in 1883-84. The figures for 1882-83 are exclusive of the special grant of Rs. 8,000 made by Government for iron railings round the Gardens, and the expenditure incurred on account of the same.

2. The receipts from donations and subscriptions show a further falling off as compared with the maximum income of Rs. 17,970 from those sources in 1879-80, and the minimum income of Rs. 1,500 in 1882-83. Only Rs. 550 were received under that head during the year of report, although the International Exhibition attracted to Calcutta a large number of wealthy persons from whom donations might have been expected. This amount consisted wholly of subscriptions from life members, and no donations, properly so called, were received at all. Such sources of income must, however, necessarily be exhausted sooner or later, and the Committee are doubtless right in assuming that they cannot count upon the future receipts under these heads doing much to place the finances of the Gardens upon a permanent basis.

3. In order to induce the public to take a more active interest in the management of the Gardens, and to contribute more largely to their maintenance, it was proposed by the Honorary Committee managing the Gardens that the donors and subscribers should be permitted to form themselves into a society to carry out the objects for which the Calcutta Zoological Gardens were established; that the management should be vested in a Committee on which the society should be represented by four members of their choice, and which should consist further of certain *ex-officio* members and any others whom the Government might nominate; that the Committee should be called the Council, and the members of the society, Fellows, with the privilege of using the letters F. Z. S. B. after their names. The Lieutenant-Governor accepted the proposal, and it has since received the sanction of the Government of India. The Committee were accordingly asked in March 1883 to frame the necessary articles of association under the Companies Act of 1882, and to forward them for the approval of Government. No action has, however, been yet taken in the matter by the Committee at whose instance the scheme was elaborated. The Lieutenant-Governor would be glad to learn from the Committee whether they still desire to proceed with it.

4. The total number of visitors to the Gardens during the year under report was 188,532 against 126,080 in 1882-83 and 130,826 in 1879-80, which was the largest number since the establishment of the institution. This increase is believed to have been due in part, at any rate, to two causes. In August 1883 some aborigines from the Andaman and Nicobar Islands were brought to Calcutta and lodged in the Gardens, and during the first month of their stay the average weekly number of visitors went up from 1,980 in July to 8,685 the next month. The Calcutta Exhibition, which attracted a large number of people from the mofussil, also increased the weekly attendance considerably. Although, therefore, a falling off in the total attendance, as compared with that of 1883-84, may be looked for during the current year, there is reason to suppose that the reduction of the entrance fee, which took effect in October 1882, will lead to a steady increase in the number of visitors as compared with the number in 1882-83.

5. The most interesting additions to the menagerie were two Himalayan bears from Mergui in Tenasserim. The donation is of special scientific interest owing to the fact that it affords the first authentic evidence of the occurrence of this species in the Mergui fauna. Two Sumatran double-horned

rhinoceri and a full grown female Malayan tapir were purchased at a cost of Rs. 4,500. Such animals are seldom brought to the Calcutta market for sale, and the Committee did well to take the opportunity of purchasing them.

6. Measures have at length been taken to carry out one of the main objects of the foundation of the Gardens by forming a dairy farm and the nucleus of a breeding establishment on the Begunbari grounds. This area has been reclaimed and fenced in; sheds have been built; nine heifers and one bull have been imported from Australia, and some fine hybrid stock has been produced by crossing country cows with Gyal bulls. In the Lieutenant Governor's opinion this is a most important and promising work, and if judiciously followed up, it may afford opportunity and justification for recognizing the Gardens as an institution contributing directly to the agricultural advancement of Bengal. In course of time the Agricultural Department now under formation will no doubt pay attention to the improvement of milch and plough-cattle; but before any such improvement can be attempted on a large scale, a long series of experiments will have to be made and possibly new breeds created. In this experimental stage, therefore, it seems to the Lieutenant-Governor that the Committee of the Zoological Gardens can render very valuable assistance. Among its members are several gentlemen whose scientific and practical attainments qualify them to undertake the task of improving the breed of cattle in Bengal; and it is admitted that by effecting even a commencement of such improvement, much would be done to solve the question of improving the agricultural system of the country. If arrangements could be come to whereby in this question of improving the breed of cattle the operation of the Committee of the Gardens could be co-ordinated, as it is hoped to co-ordinate the operations of the Agri-Horticultural Society in agricultural improvement with the larger operations of the Department of Agriculture, much good to the country at large would undoubtedly ensue. Such co-ordination would permit of the efforts of the Committee being supported to some extent by funds from the budget of the Agricultural Department, and it would also enable the Committee to choose for these experiments other localities and climates throughout these Provinces than the single locality in which the experiment is now commenced. If all the agencies for improving the agriculture of Bengal in its widest sense were thus brought into contact, and directed into paths of mutually supporting and harmonious action in connection with the Agricultural Department which will come into being with the commencement of the new year, much more of good is to be expected than from isolated action, impeded possibly by narrowness of funds. The Lieutenant-Governor desires that the Committee will now consider these proposals, and if they approve of them, will draw up a scheme for giving effect to them. It may be also desirable that the Director of Agriculture should be added to the Committee, in order that he may place before them his views as to the actual wants of the country from the point of view of his Department.

7. The Lieutenant-Governor has much pleasure in acknowledging the excellent work done by the Committee of the Gardens during the past year, and in thanking all the members for the time and labour they have devoted to what with the means at their disposal is a task of considerable difficulty.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Secretary to the Government of Bengal.

STATE AND PROSPECTS OF THE CROPS IN THE PRESIDENCY DIVISION.

IN continuation of the reports published in the Supplement to the *Calcutta Gazette* of the 17th December 1884, the following papers are published for general information.

A. P. MACDONNELL,
Secretary to the Government of Bengal.

No. 11M.A., dated Calcutta, the 11th December 1884.

From—A. SMITH, Esq., Commissioner of the Presidency Division,
To—The Secretary to the Government of Bengal, Revenue Department.

IN continuation of my letter No. 10M.A. of the 30th November, I have the honour to submit copies of the Collector of Moorshedabad's No. 1368 of the 2nd, and the Magistrate of that district's No. 1763 of the 30th instant, with enclosures.

2. It will be seen from these reports that there is no present cause for anxiety in respect of any part of Moorshedabad. The worst tract described in the report is the Kulliangunge thanna, and since the Magistrate wrote his report I have received a demi-official, dated the 8th instant, from which I extract the following:—

"I came out last Tuesday, and have travelled through the Kulliangunge thana, in the Lalbagh sub-division. About this thanna I reported at the end of November that it was one of the worst tracts. That only 9 annas of the land (ordinary area) had been transplanted out, and that there would be only an 8-anna crop there. This was based on the report of the Sub-Divisional Officer of Lalbagh, and I now find that he was distinctly wrong. There is *certainly* an average of more than 8-annas for the whole thanna; but I won't go into the question at length, as you will learn what I have observed when you receive my diary, for more than half of the distance I travelled this morning; found fully a 12-anna crop (*amun* of course), and this on land where there has been in many years an utter failure on account of floods.

"I am now going to see thanna Khargaon and Gokurn, reported to be the worst in Kandy.

"Lots of rice is coming in from Beerbhoom and prices are easier.

"The more I see, the less I am inclined to think that any want will be felt; but I only bear in mind that it will be unwise to attempt to foretell what will happen. However, we are certainly safe for some time to come."

3. It is manifest from the reports, as I have said above, that there is no cause for present anxiety. With regard to the future, I am inclined to think that the Magistrate's growing disinclination to believe that any want will be felt will be justified by the results. There is no reason to suppose that the ordinary sources of labour will employ fewer men this year than in ordinary years. In respect of water-supply there is also no present reason to think that showers will do less than in ordinary years to replenish the tanks.

4. I will, if the Government has no objection, allow the *Magistrate* to submit his next report on the 1st January, instead of the 15th instant.

5. With regard to Nuddea, I have allowed Mr. Larminie to delay his report till the end of this week, to enable him to visit one or two places that remained to be inspected. I have, however, been with him to Chuadanga, to Kooshtea, and to Meherpore; and I am able to give the Government full assurance that in respect of that district there is also no present cause of anxiety. In Meherpore, which was the worst part of the district, the cold-weather crops are excellent. Not only are they excellent in quality, but the failure of the *aus* crops has permitted a much larger area than ordinary to be brought under cultivation.

No. 1368G., dated Berhampore, the 2nd December 1884.

From—H. FARRER, Esq., Officiating Collector of Moorshedabad,
To—The Commissioner of the Presidency Division.

I HAVE the honour to submit the second fortnightly report for the month of November on the state and prospects of the crops, and the condition of the people in this district, in continuation of my report No. 1301G., dated 17th ultimo, on the same subject. I must express my regret, however, that I have not been able to fulfil the promise I made in my last report, that I would spend the whole of the second-half of the month in the interior. I left for the interior on the 19th ultimo, but was obliged to return on the 24th idem, as on the following day the election of Municipal Commissioners was to be held, and I thought my presence in Berhampore might be necessary. Moreover, I found that during my absence arrears of Collectorate work had accrued, as the officer whom I had to leave in charge is also in charge of the treasury and registration. I beg to observe that just at present there is one officer less than the usual staff here at this season of the year. I intend, however, to leave for the interior to-morrow without fail, and shall visit the thanna in the Lalbagh sub-division, where the prospect is most gloomy, or, at all events, least bright.

2. Although I was absent myself but a very short time, I succeeded in seeing a good deal. There having been no reports of suffering or scarcity from any other parts of the sudder division, I thought it advisable, as my time was short, to confine my observations to the places referred to by the Rev. Mr. Phillips, a Missionary of Berhampore, who has addressed a number of letters to the *Englishman* newspaper of late, in which he alleged that severe want was being felt by the people of Morjanpore, a village in the Burua thanna, by the residents of Saktipore, Basara and Ramnagore villages, in the Saktipore outpost, and by the people of a number of villages named by him, which are within the jurisdiction of Burua thanna and lie not far north of Plassey. Saktipore, Basara, and Ramnagore are on the west bank of the Bhagiruthee river, and therefore in the Kandy sub-division. From the observations that I made during my visits to these places, I am fully satisfied that Mr. Phillips has been led into error by the representations of persons who have exaggerated all the facts and circumstances from motives not always disinterested. Thus the object of the people in the villages he names on the west bank of the Bhagiruthee is to have an embankment constructed by the side of the Babla river—a question which I am told has again and again been raised and considered. The persons interested of course think this a favourable opportunity for again pressing the case. At Saktipore the *amun* is fully a 12-anna crop, and the *rubbi* crops all promise well. Hence complaints from that village are groundless, and I may mention that their truth has been carefully tested, as earthwork was begun here on the Ramnagore-Dhulian road (*vide* list of roads appended), and although there were as many as 207 labourers at work on the 19th November, the number afterwards fell off rapidly, until the 25th idem, when only 54 men remained. I may also mention that, according to the rates that are being paid by the District Committee, an able-bodied labourer can earn from 2½ to 4 annas a day. Surely there cannot be want if labourers cannot be had in any great number, when each could, by ordinary industry, earn so much as this daily.

3. Ramnagore and Basara are on the west bank of the river, and almost opposite Plassey. There the *amun* crop is not so good, but the people depend more upon *aus* and *rubbi* crops (including mulberry). The yield of the *aus* was from 6 to 8 annas; but all the *rubbis* except *kalai* are doing excellent. *Kalai* has been damaged to some extent by caterpillars (*suapokas*), but there is still reason to expect a crop of something like 10 or 12 annas, and other *rubbi* crops ought to yield a still higher outturn. I found that very few persons from villages in the neighbourhood had gone to work on our road at Saktipore, although the distance was not more than four or five miles.

4. I next visited the village of Morjanpore near Burua thanna, where the *amun* crop has to some extent failed. I found that the whole of the land that had not been transplanted with *amun* was being sown down with *rubbi* crops of various kinds. Many of these were already above the ground, and seemed to be doing remarkably well. I joined you at your camp at Lokenathpore on the 22nd November. This place is on the boundary between this district and Nuddea. From Lokenathpore I returned to Berhampore, enquiring on my way more particularly into the condition of the people of Beldanga and the surrounding villages, as I found that they had presented a petition to you complaining of their sufferings. Here, too, I found the same absence of testimony to show that actual want and suffering were being acutely felt. In the physical appearance of the people there was nothing to indicate this, although times are certainly hard. The pinch is naturally felt most by the cripples, lepers, blind, aged and infirm, who in all years have to subsist on charity. Even in the appearance of these persons, however, there was nothing out of the ordinary; nor did the number of beggars appear to be larger than usual. During all my enquiries, I found one family only the members of which were suffering from want of sufficient food. But I must describe the case: one man, himself weakly as to constitution, had to support a wife and three young children, the widow and three young children of a deceased brother, another brother lying on a sick bed, and his wife and two young children. Thus, three women and eight children were dependent on him for support. It was a Mussulman family, and the women would therefore not go out and work on the roads. It was evident from the appearance of the children that they were not receiving sufficient food for the maintenance of health; but this would have been nearly the same in years of plenty, as with rice at 25 seers for the rupee one man could not have earned enough to feed a large family like this.

5. In dealing with this particular tract of country, I may appear to have been more discussive in my remarks than the nature of this report warrants; but I beg to explain that I have been led to do so because it was from this quarter that Mr. Phillips gathered his "ounce of fact," and it is my duty to show that he not only got short weight, but had material as well. In his last letter to the *Englishman* newspaper, dated the 15th November, he named a number of villages where he stated that want was so severely felt that immediate relief was necessary. I have had a careful and exhaustive enquiry made there, and find that in three of the villages named, Rejinapore, Bikalnagore, and Janpore, there will be over a 12-anna crop. Hence, want will never be felt there at all. It is thus also evident that Mr. Phillips had very little knowledge of his subject.

6. I may now begin to deal with the sudder division of the district generally. This comprises the following thannas:—

Sujagunge.
Gorabazar.
Dowlatabad.
Gowas.

Hariharpara.
Jellinghee.
Burua.
Nowada.

Regarding the prospects in all of these thannas, I have consulted a number of persons, both officials and non-officials, and they one and all agree in saying that there certainly is at present no distress; but while they hesitate to say to what extent want may be experienced after February or March next, they consider that a tolerable expansion of the work under the control of the District Road Cess Committee would afford quite sufficient relief. Mr. Pratt, District Superintendent of Police, was good enough, at my request, to visit thannas Dowlatabad, Gowas, and Jellinghee, and has submitted copious notes on the condition of the people there, the outturn of the last *aus* crop, the state of the *amun* rice, and the prospects of the *rubbi* crops. The Sudder Sub-Deputy Collector has also visited thannas Hariharpara and Jellinghee. As regards Nowada thanna, there has never been any cause for anxiety, as a very large portion of the *kalantar*, or low-lying tract of country, lies within that jurisdiction, and there almost a bumper crop of *amun* is expected.

7. Mr. Pratt's experiences have throughout corresponded with mine. The country he travelled over consisted mostly of *aus*-producing land. Both he and the Sub-Deputy Collector estimate that the yield of the *aus* crop was between 4 and 8 annas. The yield of the *amun* crop will approximate to 6 annas. All the *rubbi* crops have been most extensively sown, including wheat and mulberry.

Although considerable damage has been done by the caterpillar to *kalai* and other pulses, the prospects of the *rubbi* crops are excellent, and if these prospects continue unimpaired, the outturn from these crops will, to a great extent, recoup the cultivators for the partial failure of the *aus* and *amun*. While the price of rice was high, 12 and 13 seers for the rupee, there was some pinching, and many persons were in need of employment, and this they found on the road repair works under the District Committee. Prices are now easier, and it is believed that rice will shortly be procurable everywhere at the rate of 15 or 16 seers to the rupee. No cases of suffering came to the notice of either the District Superintendent or the Sub-Deputy Collector.

8. Surjagunge and Gorabazar are the thannas in the immediate neighbourhood of Berhampore. They are ensured against famine, as any cases of real suffering will find relief from the charity of the Maharani Sarnomoyi of Cassimbazar. But here also there was no absolute failure of the crops. The yield of the *aus* was over 4 annas; the *amun* will be more than a 6-anna crop, and no one remembers the time when *rubbi* crops were so extensively sown and promised so excellent an outturn.

8½. Thus, speaking of the sudder sub-division generally, it appears that, although the *aus* and *amun* crops partially failed, yet *rubbi* crops have been most extensively sown, and so far they promise well. There has been a greater demand for labour than in ordinary years, but this demand has been sufficiently met by the District Road Cess Committee from the funds at their disposal. The time of reaping the *amun* harvest having now arrived, there is a smaller number of labourers at work on the district roads, but when that work is over, and the *rubbi* crops, too, have been reaped, there will again be a number of persons in search of employment.

9. I think that the tract which has suffered most from the scantiness of the rainfall has now been determined. This is a strip of country extending south from Berhampore station to the limits of the district in that direction, of a breadth of from three to five miles measured from the Bhagiruthee river. Here the level of the land is peculiarly high and *aus* is the principal crop. The land being on a higher level than that further distant from the river, the crop suffered more severely from the scantiness of the rainfall. I doubt whether the yield on this tract was so much as 4 annas. Very little *amun* can be grown in any year. The *rubbi* crops, however, have, as elsewhere, been extensively sown, and are doing tolerably well, but the caterpillar unfortunately has done considerable damage. I think that a great many persons within this area must have work to keep them going for a portion of the year. If the district fund be supplemented, sufficient employment could be provided.

10. *Lalbagh sub-division*.—The thannas in this sub-division are :—

Shahannagur.
Manullabazar.
Bhogwangola.

Kalyangunge.
Sagurdighi.
Asanpore.

Of these Shahannagur, Manullabazar and Asanpore are semi-municipal, and the Azungunge terminus is situated in the last of the three. The people, therefore, are not entirely dependent on agriculture, and distress has therefore never been apprehended.

11. In the Bhogwangola thanna the *amun* rice is a very small factor, *aus* and *rubbi* being the principal crops. There was a 5-anna crop of *aus*, and this being considerably short led to a very extensive cultivation of *rubbi* crops of all kinds. These, with the exception of *kalai* and *til*, are doing remarkably well. In the first instance the *kalai* was swamped by a late inundation, and subsequently both that crop and *til* were attacked by caterpillars. They have, however, been only partially damaged. With a good *rubbi* crop this thanna will be safe.

12. The remaining two thannas of this sub-division, Sagardighi and Kailiangunge, are on the west bank of the Bhagiruthee, and therefore in the *rarh* country. Very little *aus* is grown here, nor is the soil suitable for producing *rubbi* crops. *Amun* rice is the crop on which

the people almost entirely depend. In Sagardighi there was a little *aus*, which yielded at the rate of 6 annas a bumper crop. The *amun* rice, taking the whole thanna together, is an 8-anna crop. In this thanna therefore we have nothing to apprehend.

B.—13. Unfortunately the prospects in the Kalliangunge thanna are far from being so favourable. Not more than 8 or 9 annas of the whole rice-producing area was transplanted out, and on this area there will not be more than an 8-anna crop. Thus, compared with a bumper crop of ordinary years, there will be only a 4 or 4½-anna crop this year: and it is reported that there are from 12 to 15 villages where very little rice at all will be reaped, and there some relief in the form of employment will be necessary after February next. *Rubbi* crops have not in other years been grown within this thanna, but several kinds are now being tried on the lands where, from want of rain, the *amun* rice was not transplanted. It seems a pity that these experiments should have to be made at the time when the ryots can least afford to make them.

14. *Janjipore sub-division*.—This sub-division comprises the following thannas:—

Dewansarai.	Suti.
Raghunathgunge.	Mirzapore.
	Shamshergunge.

Regarding Raghunathgunge there need not be the slightest cause for anxiety, as the people there depend to a great extent on the silk industry, the prospects of which, although not very bright, do not portend disaster.

15. The people of Shamshergunge and Dewansarai chiefly depend on the *bhadoi* or *aus* and the *rubbi* crops. It is estimated that the former gave a 6-anna yield, that is to say, half as much again as Mr. Veasey estimated it to have been in his first report on this subject. Full information had not come to hand at the time when that report was drafted. Although here also the *rubbi* crops have been very extensively sown in order to make up for the short outturn of rice, there condition is not so good as elsewhere, the *kalai* in particular being reported as almost a failure. The first sowings were swamped by a late inundation and the new crop that was put in was attacked and almost destroyed by the same caterpillar as has done as much mischief elsewhere. Nevertheless the Sub-Divisional Officer estimates that there will be an 8-anna *rubbi* crop; and from other information I have received, I am inclined to think that the outturn will be even higher, as the Sub-Divisional Officer does not appear to have taken sufficiently into account the expansion of the area under *rubbi* this year.

16. The prospects in thanna Suti are not quite so favourable, especially in those villages where the people are chiefly dependent on the *haimunt* or *amun* rice crop. Yet I think that the ordinary labour supplied by the District Committee would grant sufficient relief here.

C.—17. There is a likelihood of some distress being felt later on in parts of the Mirzapore thanna, which lies in the Rarh country on the west bank of the Bhagiruthee. Generally speaking, the soil of this thanna is suitable for the production of one crop only—*amun* rice. The sub-divisional officer gives a list of twelve mouzabs where he says this crop has entirely failed, and names nine more mouzabs where the failure is almost complete. Elsewhere in the thanna there is a fair crop, and indeed in many villages the outturn will be excellent. The people of the villages where the crop has failed have been obtaining employment on district roads in that quarter, and many of them are now engaged as labourers in the work of reaping the rice elsewhere. It seems evident that we shall have to provide labour in some form for a certain number of persons in this thanna until next rainy season; but for the immediate present, quite enough is being done, as so many persons are finding employment in reaping the autumn rice. There, as elsewhere, there is a falling off in the number of labourers in our roads for this reason, and I think the number will not begin to increase again before February next.

18. Taking this sub-division as a whole, we expect a 5-anna *amun* crop at least; and so far the prospects of the *rubbi* crop are very good, and the sowings unusually extensive. So far as there has been serious failure of the rice crop, that failure has been confined to few villages only; and for the relief of the people affected, when relief becomes necessary district road work on a somewhat extended scale in comparison with other years will be sufficient, assuming that other forms of employment of labour and expenditure of money are not deemed by Government to be more desirable.

Kandy sub-division.

19. The following thannas are comprised within this sub-division:—

Kandy.	Khargaon.
Bharatpore.	Gokurn.

The whole of the sub-division lies on the western bank of the Bhagiruthee, and therefore in the country known as the Rarh. The principal crop of the year is the *amun* rice. There is very little *aus* cultivation, but in thannas Bharatpore and Gokurn the ratio of the relative importance of *rubbi* and *amun* is as 1 to 3. In thanna Khargaon the ratio is only as 1 to 7. I mention this fact here because the *rubbi* crop throughout the sub-division promises to yield an excellent outturn.

20. After taking into consideration the contraction of the area under *amun* rice this year, as well as the defective yield of what has been transplanted out, the sub-divisional officer has arrived at the following estimate regarding that crop:—

Thannas.					Annas.
Bharatpore	10½
Kandy	9
Khargaon	5
Gokurn	4

Mulberry is included along with the *rubbi* crops, and is very extensively grown in thannas Gokurn and Bharatpore, within each of which there are five silk filatures. The Sub-Divisional Officer nevertheless finds that employment will be necessary for five or six months from March next for about 24,000 persons. I am unable to accept his conclusions; as he begins by estimating the number who live by labour alone as one-third of the whole population—a very high estimate indeed for a thinly-populated tract of country; and in the next place he has included amongst those who must have labour all the women and children as well as the adult males. I shall endeavour to have a conference with this officer before the end of the present month in order that expression may be given to his views with greater precision and accuracy.

D.—21. It does, however, appear there will be a considerable supply of labour from thannas Gokurn and Kandy. In thannas Bharatpore and Khargaon there will also be some persons in need of employment, because, although the crop is good, in some villages it has failed, or almost failed in others. However, Gokurn and Kandy are the thannas that will need the most attention, but even here there is no immediate cause for anxiety, as it is not apprehended that any work to grant relief will be necessary before March next, and I further sincerely believe that none of us is in a position to say to what extent it will then be necessary to provide employment for the needy.

22. For the sake of convenience, I will here recapitulate the statement of the tracts likely to be most affected.

A—*Sudder division*.—The tract of country south from Berhampore, varying in breadth from three to five miles, lying along the east bank of the Bhagiruthee river. This strip lies chiefly in the Burua thanna, but partly in Gorabazar.

B—*Lalbagh*.—Portions of the Kulliangunge thanna in the sub-division of Lalbagh, owing to the failure of the *amun* rice.

C—*Junjipore*.—Portions of the thanna Mirzapore, where *amun* rice alone can be grown. In a considerable number of villages that crop has failed or is a partial failure.

D—*Kandy*.—Thannas Gokurn, Kandy and Khargaon within the Kandy sub-division, where, however, the extent to which labour will have to be provided still remains to be determined.

23. Outside these tracts there may be, and doubtless are, villages here and there where people reside, who will need labour later on. All, however, whom I have consulted, both officers and non-officials, are unanimous in thinking that at present there is no distress, and that it will not be necessary to give an expansion to the usual means of employment before March or, perhaps, February next. Meantime our observations can be continued and verified, and the extent to which employment will have to be provided can be determined. In support of my conclusion that at present ample means of employment are being provided on the district roads, I beg to submit a figured statement, showing the number of labourers on each of our roads under repairs day by day between the 10th and 25th of last month (November). It will be seen that, although the total number rose to 1,213 on the 18th, it fell off rapidly until the 25th, on which date only 436 persons were at work, and in considering this statement it should be borne in mind that, as I have previously stated, an able-bodied labourer can earn from 2½ to 4 annas a day working at the rates we pay. I attribute the falling off in the number of labourers to two causes—(1) the price of rice is gradually falling throughout the district, the rate for common rice in Berhampore being 14 seers for the rupee, and all other articles of food, especially wheat, are cheap; (2) the reaping of the *amun* rice crop has created a demand for labour, more particularly in the *kalantar* country, which lies in thanna Burua and Nowada, where there is a heavy crop; and the silk filatures are now everywhere being opened. For a few months, then, we may be free from anxiety.

24. Another figured statement appended to this report shows the expenditure on district roads up to date. From this it will be seen that over Rs. 6,000 have already been expended, of which almost Rs. 4,000 were paid away during November alone. The road cess fund of this district is a very small one in comparison with the burden it has to bear in all years, for this being an old district is very rich in roads. The amount available for public works each year is between Rs. 40,000 and Rs. 45,000 only, and out of this from Rs. 10,000 to Rs. 12,000 have to be reserved each year on maintaining the metalled road

from Berhampore to Jeagunge and Bhogwangola, and the repairs on that road can only be executed in the rainy season. We have thus less than Rs. 35,000 this year to expend on the cutcha roads, which are almost 700 miles in length. About one-fifth of this sum (less than Rs. 35,000) has already been expended; and if therefore there be a rush of labourers to the work we provide during and after February next our means will soon be exhausted. I think we must be prepared to meet a demand for employment very much in excess of that of other years, and it will be necessary to provide employment to relieve want among the labouring classes.

25. The Sub-Divisional Officers recommended the re-excavation of old tanks and the repairs of all our roads. In one or two cases it is recommended that new roads should be constructed. The agitators are mostly in favour of the construction of the Ranaghat-Bhogwangola Railway; but in my humble way I would deprecate the commencement of that work. So far as its industries are concerned, this is a declining district, and therefore the goods traffic over this line could not be but light. The population is not dense, and therefore the passenger traffic would not be heavy; and for five months of the year the line would have to compete with the river traffic on the Bhagiruthee to the west and the Jellinghee to the east. I will, however, grant that it might bear off some of the produce of the Rajshahye and Maldah districts.

But there is another objection. The completion of the work will be very costly. Assuming that it is conducted this year only so far as it is found necessary to keep relief works open, when may we hope for its completion? If it will not be possible to push on the work in subsequent years, there will be nothing to show for the expenditure but a heap of earth of no value, convenience, or utility whatsoever.

26. I therefore would respectfully beg to suggest that the district road fund be supplemented to such an extent as the actual requirements of the district, to be hereafter determined, would seem to justify. In consequence of the inadequacy of the district fund a great many useful roads have fallen into lamentable disrepair. The present year seems to be a most favourable opportunity for bringing these once more thoroughly into order. I would also recommend some expenditure on the re-excavation of old tanks, or on the excavation of new ones, and in connection with this subject I may refer to the relative state of the crops in thannas Sagardighce and Kulliangunge in the Lalbagh sub division. In the former *thanna* the prospects are tolerably good in consequence of irrigation from tanks; whereas the latter *thanna* is one of the tracts where want will be most felt, the reason being that all the tanks have silted up and irrigation from them was impossible. These two *thannas* lie north and south of each other.

27. Out of the funds of the Cossimbazar Estate under the Court of Wards, a sum of Rs. 2,424 will be expended over tanks and wells, and I purpose applying for sanction to expend a further sum of about Rs. 4,000 on the same object.

28. There is no reason to apprehend a scarcity of fodder. On the contrary, the supply will be abundant if we have a few showers of rain from time to time during the cold season and again in March, as there is more grazing land than usual. Cattle at present appear to be in fairly good condition.

29. There will be some difficulty felt later on as regards the water-supply, and this may affect injuriously the health of the public. For this there is little or no remedy, as tanks now excavated would be of no service until after the next rains, and wells would be little better. We must wait and hope for rain. Rain in February next would remove all anxiety under this head.

30. The stocks of old rice in the district are insignificant, even if we include the out-turn of the last *aus* crop. The *rubbi* crops, however, will compensate for this, if the yield be as good as we now have a right to expect it to be. At all events, there is no cause for entertaining anxiety as regards any quarter of the district for the next two months or so, and the apprehensions of the alarmists are, I think, subsiding. The *amun* crop is after all not so bad as was at one time anticipated. The *rubbi* is an excellent crop, taking the district as a whole; mulberry, too, is a good crop, although it certainly is selling very cheap; the price of rice is falling, and a further fall is expected, and all other food staples are cheap and plentiful.

31. I have observed that the first demand is not for labour, but for gratuitous relief, and in one place it was actually suggested to me that private distributions of food should be made from house to house. I can say with confidence that the circumstances which would justify the bestowal of gratuitous relief by Government are very remote indeed from the circumstances that do actually prevail. The District Superintendent, the Sub-Divisional Officers, and myself have endeavoured to stimulate the efforts of private charity, and there are indications to show that there has been some expansion. Of course, all who go daily to the Rajbati at Cossimbazar receive doles, and the number now is considerably greater than it was in former years. The majority of these, however, are professional beggars.

32. As there is no immediate cause for anxiety in this district, I would respectfully suggest that you permit me to submit the next report at the end of December, as there would be little, if anything more, to add at the middle of the month.

S. K. PUNDIT,

District Engineer, Moorshedabad District.

Extract from the District Superintendent's Inspection Memorandum of Azimgunge Outpost, dated 30th November 1884.

This outpost is, roughly speaking, four miles square in area. It is essentially an *aus*-dhan and *rubbi* country. *Amun*-dhan is grown very little, not one anna of the land under cultivation.

The head-constable, who knows the rest of Jellinghee, says that the land of the whole thanna is of the same description as that of his outpost.

Aus-dhan was sown to the same extent as in former years. The yield was, however, poor, owing to scanty rainfall, not more than 6 or 8 annas having been realized.

What little *amun* is grown is on bil lands and is *good*—not quite a bumper crop, but nearly so.

There is a deal of mulberry grown all over Jellinghee, and it is good.

About $1\frac{1}{2}$ annas of the cultivated tract is under jute, which has been exceptionally good this year.

A very large amount of indigo is grown. The factories are:—

- | | | |
|----------------|---------------|--------------------|
| 1. Domkole. | | 4. Sahebrampore. |
| 2. Subdulpore. | | 5. Ramchundrapore. |
| 3. Katakopore. | | 6. Hookahara. |
| | 7. Baramasia. | |

All belong to Watson concern. The silk factories are:—

- | | | |
|---------------|--------------|---------------|
| 1. Kaligunge. | | 2. Faridpore. |
| | 3. Bagdanga. | |

also belong to Watson and Company. These factories are managed by English gentlemen, who doubtless would bring to notice distress should there be any. The land, say, 12 annas of the thanna area which was under *aus*, is now under *rubbi*, and all the cold weather crops promise well.

About 3 annas of this 12 annas is, however, under *kalai* and *moogh*. Half has suffered severely from caterpillars "*soopokas*" and half was entirely destroyed by the late inundation. The latter lands have, however, been re-cultivated, and are now under *rubbi*.

The cultivators are said to be very hard up owing to the partial failure of the *aus* crop.

I have known them go as far as Mymensingh in search of work in ordinary years.
2-12-84.

H. FARRER.
O. M.

I believe this is the case everywhere in the district, that those who wanted labour have found it on the roads.

H. FARRER.

† Kangal means a poor and helpless person.

H. FARRER.
O. M.

Many have gone into Rajshahye for the *amun* harvest. Poor people go in ordinary years, but this year more than usual have gone. A few persons have applied to the police for work, and this has been provided for them on the roads. The head-constable says four or five came to him.

The head-constable says that on Sundays a great many paupers come into Azimgunge to be fed. This year they are in excess of those of other years, and that women preponderate.

They are *Kangals*,† but have become weak and have taken to begging through want.

The death register of the outpost shows in 1884 up to date:—

January	...	33 deaths.
February	...	50 "
March	...	138 " (78 of them were from cholera).
April	...	176 " (143 from cholera).
May	...	59 " (22 from cholera).
June	...	21 " (cholera ceased).
July	...	29 " { ditto.
		{ 1 case small-pox.
August	...	41 " (fever prevailed).
September	...	32 " (ditto).
October	...	54 " (48 from fever).
November	...	60 " (only one from bowel-complaint; most from fever).

Rashomai Basu, the chief pleader of the munsif's court, was good enough to let me question him about the state of the country and crops.

He says that probably as soon as the *rubbi* is cut, all distress will vanish. He does not think any relief is or will be needed. He says that on Sundays 250, and on other days 100 *Kangals* come in for charity—about double the number in previous years. Private charity provides for these, and some go to Cassimbazar for the daily charity given to all-comers by the Rani Sarnomoyi.

He says that it is customary for the cultivators of Jellinghee to go to Rungpore and Rajshahye for the *amun* dhan harvest.

As far as I can see, the Government need not have the slightest anxiety about the thannas of Doulatabad, Gowas, and Jellinghee, regarding which I have made personal enquiries.

I also had a visit from Baboo Gopi Mohun Mukerji himself. This gentleman agreed in thinking there is little chance of any relief measures being needed.

EXEMPTION FROM RE-MEASUREMENT IN HER MAJESTY'S DOMINIONS OF BELGIAN VESSELS, THE TONNAGE OF WHICH IS DENOTED IN THE CERTIFICATES OF BELGIAN NATIONALITY OR REGISTRY ISSUED AFTER 1st JANUARY 1884.

No. 2124, dated Calcutta, the 12th December 1884.

NOTIFICATION—By the Government of India, Department of Finance and Commerce.

The following Order in Council, exempting from re-measurement in Her Majesty's Dominions Belgian vessels, the tonnage of which is denoted in the certificates of Belgian nationality or registry issued after the 1st January 1884, is published for general information :—

AT THE COURT OF BALMORAL.

The 17th day of October 1884.

PRESENT:

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

Whereas by "The Merchant Shipping Act Amendment Act, 1862," it is enacted that, whenever it is made to appear to Her Majesty that the rules concerning the measurement of tonnage of Merchant Ships for the time being in force under the principal Act have been adopted by the Government of any Foreign Country, and are in force in that Country, it shall be lawful for Her Majesty, by Order in Council, to direct that the ships of such Foreign Country shall be deemed to be of the tonnage denoted in their Certificates of Registry, or other national papers; and thereupon it shall no longer be necessary for such ships to be re-measured in any port or place in Her Majesty's Dominions, but such ships shall be deemed to be of the tonnage denoted in their Certificates of Registry, or other papers, in the same manner, to the same extent, and for the same purpose, in, to and for which the tonnage denoted in the Certificates of Registry of British ships is to be deemed the tonnage of such ships :

And whereas it has been made to appear to Her Majesty that the rules concerning the measurement of tonnage of Merchant Ships now in force under "The Merchant Shipping Act, 1854," have been adopted by the Government of His Majesty the King of the Belgians, with the exception of a slight difference in the mode of estimating the allowance for engine-room, and such rules are now in force in that Country, having come into operation on the 1st day of January 1884 :

Her Majesty is hereby pleased, by and with the advice of Her Privy Council, to direct as follows :—

1. As regards sailing ships, that merchant sailing ships belonging to Belgium, the measurement whereof on or after the said 1st day of January 1884 shall have been ascertained and denoted in the Certificates of Registry, or other national papers of such sailing ships, testified by the dates thereof, shall be deemed to be of the tonnage denoted in such Certificates of Registry, or other national papers, in the same manner, and to the same extent, and for the same purpose, in, to and for which the tonnage denoted in the Certificates of Registry of British sailing ships is deemed to be the tonnage of such ships.

As regards steam-ships, that merchant ships belonging to Belgium which are propelled by steam or any other power requiring engine-room, the measurement whereof on or after the said 1st day of January 1884 shall have been ascertained and denoted in the Certificates of Registry, or other national papers of such steam-ships, testified by the dates thereof, shall be deemed to be of the tonnage denoted in such Certificates of Registry, or other national papers, in the same manner, and to the same extent, and for the same purpose, in, to and for which the tonnage denoted in the Certificates of Registry of British ships is deemed to be the tonnage of such ship, provided, nevertheless, that, if the owner or master of any such steam-ship desires the deduction for engine-room in such ship to be estimated under the rules for engine-room measurement and deduction applicable to British ships, instead of under the Belgian rules, the engine-room shall be measured, and the deductions calculated, according to the British Rules.

**RESOLUTION ON THE REPORT OF THE ADMINISTRATION OF
THE HOOGHLY BRIDGE FOR THE YEAR ENDING
31ST MARCH 1884.**

GOVERNMENT OF BENGAL.

PUBLIC WORKS DEPARTMENT—COMMUNICATIONS.

No. 2103C., dated Calcutta, the 17th December 1884.

READ—

Report of the administration of the Hooghly Bridge Trust for the year ending the 31st March 1884.

Read again—

Public Works Proceedings (A), Communications, for June 1883, Nos. 1 and 2, being the report of the administration of the Hooghly Bridge for the year 1882-83, together with the Resolution passed thereon.

RESOLUTION.—The actual receipts and expenditure on the Hooghly Bridge during the year 1883-84, as compared with the estimated amounts, were as follows:—

		Estimate.	Actual.	More.
		Rs.	Rs.	Rs.
Receipts	...	4,94,771	5,36,695	41,924
Expenditure	...	5,51,774	6,03,515	51,741

To the actual receipt of Rs. 5,36,695, a sum of Rs. 695 has been added in suspense account.

2. The aggregate of contributions, since 1874-75, towards the repayment of the original loan, amounted, at the close of the year, to Rs. 11,61,800, leaving a balance of Rs. 10,80,000 still unpaid. The Reserve Fund invested in Government securities amounted at the close of the year to Rs. 5,37,176. There was a cash balance of Rs. 31,433, and stock of the value of Rs. 1,08,761 has been provided as a reserve in case of any accident happening to the bridge.

3. The excess in expenditure was caused by contributing a larger sum than was estimated in repayment of the original loan. The receipts from Railway traffic were in excess of the actual receipts of the previous year. There was no increase in the schedule of rates, and the difference was entirely due to an increase in the quantity of goods carried. The receipts from local traffic were also above the amount realized from that source during the previous year, owing to the enhanced rate at which the tolls were let for the year under review. The following are the comparative figures for the two years:—

	1882-83.	1883-84.	
	Actuals.	Estimated.	Actuals.
	Rs.	Rs.	Rs.
Railway traffic	... 3,25,556	3,30,000	3,75,500
Local ditto	... 1,11,813	1,21,200	1,22,200

4. The lease of the bridge tolls to Baboo Hurdial Marwaree expired the 29th February 1884, and has been renewed for another year, the less paying the Commissioners Rs. 11,100 monthly.

5. The Steamer *Buckland* was employed in crossing the passenger traffic on the days when the bridge was opened to allow vessels to pass through. The steam tug *Hetty*, having been in dock during a portion of the year, was not available during that time for towing vessels through the Bridge.

6. No accidents occurred in passing sea-going vessels through the opening of the bridge, but 140 other vessels, including 127 boats carrying country cargo and passengers, collided with the bridge. None of the collisions, however, were of a serious nature, nor was there, so far as could be ascertained, any loss of life.

7. A petition signed by 6,642 persons asking for a reconsideration of the Commissioners' former decision not to allow the street tramway to be carried across the bridge was presented to the Commissioners in November 1883.

The question was again carefully considered, but the Commissioners were unable to alter their previous decision, refusing to allow such a tramway to be established.

8. During the year under review, the proposals of the Howrah Municipality regarding the construction, on the north side of the bridge approaches, of a road leading to the ghat at the Howrah abutment of the bridge were communicated to the Commissioners by Government. The Municipality suggested that a piece of land to the north of that which had been occupied by the quarters of the bridge officers should be taken up for a new approach road to the river, and that the payment of compensation might be obviated by inducing the owners of the land proposed to be taken to accept, in exchange, a strip of equal area of the land attached to the Port Commissioners' dock, which adjoins. It was found, however, that the suggestion of the Municipality would not be a convenient arrangement for Messrs. Ahmuty & Co., the owners of the land adjoining the bridge, it being used by them as a slip-way for hauling up boats; and an alternative plan, which would give access to the ghat, was then suggested by the Commissioners. They proposed that, in order to set the whole of the road to the south of the bridge free for the use of passengers and bathers, a piece of land belonging to the Commissioners should be made over to the Municipality for use either as a carriage stand, depôt for stone metal, or for any other purpose found suitable. They also offered to open the archway under the bridge abutment, which is at present enclosed and used for the storage of timber and bridge stores, and to make it available as a passage to the bathing ghat on the north side of the bridge, which could then be set apart exclusively for the use of females. The Municipality and Government agreed to these suggestions, and the necessary alterations to make the ghat to the north of the bridge abutment suitable for native women are now being carried out. This matter has been the source of much correspondence during past years, and it is satisfactory that it has now been settled in a manner agreeable to all the parties interested in the result.

9. The question of readjusting the terminal charges collected on railway-borne goods at Howrah on account of the bridge was considered during the year under review. In February 1884 a conference was held at Howrah to discuss certain matters at issue between the Port Commissioners and the East Indian Railway Company. It was then proposed that, in consideration of certain concessions to be made by the Railway Company regarding dues on railway-borne goods on the Shalimar frontage, the terminal of Re. 1 per 100 maunds should be divided between the Port Commissioners and Bridge Commissioners, and that subsequent to the liquidation of the bridge debt, a terminal payable to the Port Commissioners should be maintained in lieu of frontage dues. The division of the present terminal has been sanctioned by Government, subject to the balance remaining to the bridge being sufficient to find a surplus available for the payment of the annual sum of Rs. 73,338 towards the sinking fund of the bridge debt. When the debt is liquidated, a terminal wharfage charge will be levied in a manner to be determined hereafter.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Bridge Commissioners for information.

Ordered also that this Resolution be published, for general information, in the Supplement of the *Calcutta Gazette*.

<i>Western Districts.</i>			
BURDWAN DIVN.	1 Burdwan, Dec. 20 '84	Nil	Weather—seasonable. <i>Amun</i> paddy is still being harvested. <i>Rubbee</i> crops and sugarcane are promising. Common rice is generally selling at from 16 to 17 seers per rupee. General health good, a few cases of cholera and small-pox are reported from two places.
	2 Bankoora, „ 20 „	Nil	Weather—bright and seasonable. <i>Amun</i> paddy is still being cut. Prospects of <i>rubbee</i> crops good. Price of common rice varies from 17 to 22 seers per rupee. General health good except that fever continues here and there.
	3 Beerbhoom, „ 20 „	Nil	Weather—cold and fine. <i>Amun</i> paddy is being harvested. Sugarcane and other <i>rubbee</i> crops are doing well. Food-grains cheaper. Cases of cholera are reported, general health otherwise satisfactory.
	4 Midnapore, „ 20 „	Nil	Weather—seasonable. <i>Amun</i> paddy is giving an excellent yield. Prospects of cold-weather crops generally good. Sporadic cases of cholera and small-pox are still reported.
	5 Hooghly, „ 20 „	Nil	Weather—seasonable. <i>Amun</i> paddy all over the district appears to be a 12-anna crop. Winter crops, potatoes, sugarcane, &c., are all doing very well. Fever prevails in various parts of the district, and there are also a few cases of cholera reported.
	Howrah, „ 22 „	Nil	Weather—seasonable. The outturn of paddy is a full one. In Oolooberiah an almost sixteen-anna crop is expected. Winter crops are all doing well.
<i>Central Districts.</i>			
PRESIDENCY DIVN.	6 24-Perghs. Dec. 22 '84	Nil	Weather—seasonable. Prospects of <i>amun</i> paddy continue satisfactory. <i>Rubbee</i> crops are doing well. Public health generally good. Isolated cases of cholera are reported from the Basirhat and Diamond Harbour sub-divisions.
	7 Nuddea, „ 20 „	Nil	Weather—seasonable. Prospects of crops good.
	8 Khoolna, „ 20 „	Nil	Weather—cool. Harvesting of paddy going on satisfactorily. Cholera in some places, otherwise public health fair.
	9 Jessore, „ 20 „	Nil	Weather—seasonable. <i>Amun</i> paddy is still being harvested, prospects favourable. Winter crops are doing well. Cases of cholera and fever are reported here and there.
	10 Moorshedabad, „ 20 „	Nil	Weather—seasonable most part of the week, cloudy and warm again at the close. Reaping of <i>amun</i> paddy still continues; the outturn on an average for the district will not be far short of an eight-anna crop. All <i>rubbee</i> crops are doing well except <i>kalai</i> , which has been damaged to some extent by caterpillars. Some light rain is wanted for these crops. Common rice selling at from 14 seers in the Lalbagh to 19 seers in the Jungipore sub-division. Public health good except in the Nowada thana, where cholera prevails.
RAJSHAHY DIVN.	11 Dinagepore, Dec. 19 '84	·05	Weather—seasonable. Harvesting of <i>amun</i> paddy and sugarcane continues, a fair outturn is expected. State of <i>rubbee</i> crops is good. Selling at from 12 to 18 seers per rupee.
	12 Rajshahye, „ 20 „	Nil	Weather—seasonable. Cutting of <i>amun</i> paddy continues. <i>Rubbee</i> crops generally promising. Health fair.
	13 Rungpore „ 20 „	Nil	Weather—seasonable. Harvesting of <i>amun</i> paddy still continues, outturn short. Sugarcane, mustard and other <i>rubbee</i> crops are doing well. Fever and cholera seem to be abating.
	14 Bogra, „ 20 „	Nil	Weather—getting colder. Prospects of winter crops fair. <i>Amun</i> paddy is being reaped. Public health fairly good.
	15 Pubna, „ 19 „	Nil	Weather—cold. Crops on the ground are reported to be healthy.
	16 Darjeeling, „ „	Not received.
	17 Tulpigoree, „ 20 „	Nil	Weather—seasonable. <i>Haimanti</i> paddy is being cut, the outturn will be below the average. Cold-weather crops are all doing well. Tobacco is very promising in the Alipore sub-division. Ordinary rice is selling at from 15 to 17 seers per rupee. Public health good.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical averages or means of the readings during the month. The humidity of the atmosphere is expressed as a percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 100.

the week ending Friday, the 19th of December 1884.

INCREASE.

Coal ...	397
This increase is due to one of the coal merchants stacking up per salo.
Piece-goods ...	16
This increase is due to previous stock being entirely exhausted.
Revenue stores ...	20
This increase is due to revenue stores being carried by ordinary train instead of by ballast train.
DECREASE.	
Edible grain ...	109
This decrease is due to partial failure of paddy crops for want of early rain.

GENERAL REMARKS AND EXPLANATIONS.

THE total quantity of goods carried during the month of November 1884 aggregated maunds 4,42,016, as compared with the maund 3,46,210 carried during the corresponding period of 1883, and maunds 3,16,493 carried during the previous month, showing an increase of maunds 95,806 in one case and 1,25,523 in the other.

Of the several increases and decreases the following are the most prominent ones and worthy of separate explanations:—

INCREASES.

	Mds.
Coal and coke	3,716
This is due to the establishment of a coal agency by Messrs. Stevens McNaughten & Co.	
Piece-goods	8,140
This fluctuates according to Hindu festivals and also according to the pecuniary prosperity of the district.	
Indigo	9,203
This is being despatched earlier this year than last.	
Food-grains	49,519
Due to threatened scarcity and failure of crops.	
Iron	3,475
Due to despatch of scrap iron to Burrakur from the Somastipore stores.	
Ghee	2,428
This is worthy of notice and would be much larger if we could see our way to making special wagons. &c., for its transport.	
Salt	16,757
Due to reduction in East Indian Railway rates which drew the traffic to the Railway.	
Seeds	28,516
The rivers were low so the Railway had to be used. Also the failure of castor-oil seed crop elsewhere necessitated East Indian Railway making large purchases in Tirhoot for the Mansuri Oil Factory.	
Timber	13,276
Messrs. Dear & Co. have a large depot at Somastipore for this traffic, and it fluctuates according to the number of contracts they obtain for timbers wrought and unwrought.	

DECREASES.

	Mds.
Lime and kunkur	10,118
This is due to small demands by the Road Cess and Durhhangah Raj, and depends entirely on such engineering projects.	
Railway materials	20,636
Due to the completion of the Eastern, Western and Hajipore extensions.	
Saltpetre	5,937
The price at Calcutta is low, and no demand exists in the market.	
Tobacco	2,132
The year's crops have been very poor.

Manager.

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said promissory notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained; and the first *bond fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna factory and the opium manufactured at the Ghazepore factory for the year 1883-84, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazepore factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18. The public are hereby informed that the opium manufactured at the Patna factory in season 1883-84 includes about 4,500 chests of 76° consistence, and that the opium manufactured at the Ghazepore factory in the same season includes about 8,883 chests of 72° and 1,965 chests of 74° consistences. The higher consistences will be mentioned in the sale notifications of the months in which they will be sold.

19. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L.P.,

C. E. BUCKLAND,

Offg. Secretary.

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

Terms of subscription payable annually in advance.

For the complete series, including postage, Rs. 22-8.

Bills introduced into the Council of the Governor General for making
Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second Publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 19th December, 1884, and was referred to a Select Committee:—

No. 18 OF 1884.

A Bill to repeal part of section 6 of the Indian Tariff Act, 1882, and to amend the Excise Act, 1881, and the Bengal Excise Act, 1878.

WHEREAS it is expedient to repeal part of section 6 of the Indian Tariff Act, 1882, and to amend section 7 of the Excise Act, 1881, and section 18 of the Bengal Excise Act, 1878; It is hereby enacted as follows:—

1. The part of section 6 of the Indian Tariff Act, 1882, beginning with the words "And whereas," down to and including the words "been paid," is repealed.

2. For clause (a) of section 7 of the Excise Act, 1881, the following clause shall be substituted:—

"(a) such duty as the Local Government may from time to time fix in respect of such spirit has been paid."

3. In section 18 of the Bengal Excise Act, 1878, for the words "at the rate leviable under any Tariff Act for the time being in force" the words "at such rate as the Local Government may from time to time fix in respect of such spirituous liquor" shall be substituted; but nothing in this section shall affect any Act passed after this Act comes into force by the Lieutenant-Governor of Bengal in Council.

4. The duty now fixed by the Local Government under section 6 of the Indian Tariff Act, 1882, as leviable on spirit manufactured in all or any of the distilleries situate in the territories under its administration, or in any part of such territories, shall, in places in which the Excise Act, 1881, or the Bengal Excise Act, 1878, is in force, be deemed to be the duty fixed by the Local Government under sections 7 and 18 of those Acts, as amended by this Act, respectively,

STATEMENT OF OBJECTS AND REASONS.

THE Government of Madras recently submitted a draft Bill to consolidate and amend the Abkari law of the Presidency of Madras, for sanction to its introduction in the local Legislative Council, and, on examination of its provisions, it was found that two clauses of one of its sections, imposing a duty on liquor, were, as applied to spirit, *ultra vires* of the local legislature, as the mode of fixing the excise duty on spirit is determined by section 6 of the Indian Tariff Act, 1882. It was also feared that the penultimate clause of the latter section, by keeping in force, under the authority of the Governor General's Legislative Council, an unexplored mass of law existing on the 10th March, 1882, might render other provisions of that Bill *ultra vires*.

This in itself would make it necessary that legislation should be resorted to in the Council, of the Governor General in order to prevent the Madras Bill from being declared invalid; and as

moreover, section 6 of the Tariff Act must seriously hamper any local legislature contemplating legislation like that proposed by the Madras Government, it is proposed to repeal that section, leaving it to the Local Governments to deal with the mode of fixing the duties of excise on spirit, under the other enactments locally in force, subject, so far as any discretion is allowed to them by those enactments, to the general executive control of the Government of India.

The present Bill has accordingly been prepared. It first repeals section 6 of the Tariff Act except the last clause amending section 1 of Act XVI of 1863, which Act is still in force. It then amends section 7 of the Excise Act, 1881, and section 18 of the Bengal Excise Act, 1878, which at present contain references to the provisions of section 6 of the Tariff Act, by omitting these references and conferring on the Local Governments concerned power to fix the duty payable in respect of country spirit. Lastly, in order to prevent any question being raised as to the effect of the repeal of section 6 of the Tariff Act, the Bill declares that duties already fixed by the Local Government under section 6 of the Tariff Act shall be deemed to be duties fixed by the Local Government under sections 7 and 18 of the Excise Act, 1881, and the Bengal Excise Act, 1878, as amended by this Act, respectively.

[Second Publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 19th December, 1884, and was referred to a Select Committee:—

No. 19 OF 1884.

A Bill to amend the law relating to the carriage of passengers by sea.

WHEREAS by section 99 of an Act of the Imperial Parliament called "the Passengers Act, 1855," it is enacted that "it shall be lawful for the Governor General of India in Council, from time to time, by any Act or Acts to be passed for that purpose, to declare that this Act or any part thereof shall apply to the carriage of passengers upon any voyage, from any ports or places within the territories of British India, to be specified in such Act or Acts, to any other places whatsoever, to be also specified in such Act or Acts;" and it is thereby also enacted that "on the passing of such Indian Act or Acts, and whilst the same shall remain in force, all such parts of this Act as shall be adopted therein shall apply to and extend to the carriage of passengers upon such voyages as in the said Indian Act or Acts shall be specified. The provisions of such Indian Act shall be enforced in all Her Majesty's possessions in like manner as the provisions of this Act may be enforced;"

And whereas certain parts of the said Act of Parliament were by Act II of 1860 (*to amend the law relating to the carriage of passengers by sea*) made applicable to the carriage of passengers upon certain specified voyages;

And whereas by an Act of the Imperial Parliament called "the Passengers Act Amendment Act, 1863," certain parts of the Passengers Act, 1855, which were so made applicable have been amended, and it is provided that the said Acts of the Imperial Parliament shall be construed together as one Act;

And whereas it is expedient that the amendments so made in the Passengers Act, 1855, should also be made in the parts of that Act so

made applicable, and it is also expedient to apply those parts so amended to the carriage of passengers upon certain voyages not specified in Act II of 1860;

It is hereby enacted as follows:—

1. (*I*) This Act may be called the Indian Sea Passengers Act, 1885: and

(2) It shall come into force on the first day of March, 1885.

2. On and from the day on which this Act comes into force, Act II of 1860 (*to amend the law relating to the carriage of passengers by sea*) shall be repealed.

3. The provisions contained in sections 4, 5 and 6 of this Act, and the schedule hereto annexed (being parts of the Passengers Act, 1855, as amended by the Passengers Act Amendment Act, 1863), are declared applicable to the carriage of passengers upon the following voyages, namely:—

(a) Voyages from the ports of Calcutta, Madras and Bombay to the British Colonies of Mauritius, Jamaica, British Guiana, Trinidad, St. Lucia, Grenada, St. Vincent, Natal, St. Kitts, Nevis and Fiji;

(b) Voyages from the ports of Calcutta, Madras and Bombay to the French Colonies of Réunion, Martinique, Guadeloupe and its dependencies, and Guiana;

(c) Voyages from the ports of Calcutta, Madras and Bombay to the Netherlands colony of Dutch Guiana;

(d) Voyages from the ports of Calcutta, Madras and Bombay to the Danish colony of St. Croix;

(e) Voyages under the Native Passenger Ships Act, 1876, from Calcutta Madras, Bombay, Karachi, Rangoon and other ports in British India to the Straits Settlements, to the protected Native States adjoining the Straits Settlements, to Australia, and to ports in the Red Sea or Persian Gulf.

[Act II of
1860, s. 2.]

4. If the passengers upon any such voyage as is specified in the last preceding section are taken off from the ship carrying such passengers, or are picked up at sea from any boat, raft or otherwise, it shall be lawful, if the port or place to which they shall be conveyed is in any of Her Majesty's colonial possessions, for the Governor of such colony, or for any person authorized by him for the purpose, or, if in any foreign country, for Her Majesty's Consular officer, at such port or place therein, to defray all or any part of the expenses thereby incurred.

[Act II of
1860, s. 3,
29 & 27
Vic., c. 51,
[New.]

5. If any passenger of any such passenger-ship as aforesaid, without any neglect or default of his own, finds himself within any colonial or foreign port, or place other than that for which the ship was originally bound, or at which he, or the Emigration Agent, or any public officer or other person on his behalf, has contracted that he should land, it shall be lawful for the Governor of the colony, or for any person authorized by him for the purpose or for Her Majesty's Consular officer at the foreign port or place, as the case may be, to forward the passenger to his intended destination, unless the master of the ship, within forty-eight hours of the arrival of such passenger, gives to the Governor or Consular officer, as the case may be, a written undertaking to forward or carry on within six weeks thereafter the passenger to his original destination, and unless the master accordingly forwards or carries him on within that period.

Act II of
1860, s. 4,
26 & 27
Vic., c. 51,
s. 18.]

6. (1) All expenses incurred under the last two preceding sections, or either of them, by or by the authority of a Governor or Consular officer, or other person as therein respectively mentioned, including the cost of maintaining the passengers until forwarded to their destination, and of all necessary bedding, provisions and stores, shall become a debt to Her Majesty and Her successors from the owner, charterer and master of the ship, and shall be recoverable from them, or from any one or more of them, at the suit and for the use of Her Majesty, in like manner as in the case of other Crown debts.

[New.]

(2) A certificate in the form given in the Schedule hereto annexed, or as near thereto as the circumstances of the case will admit, purporting to be under the hand of any such Governor or Consular officer (as the case may be), stating the total amount of the expenses, shall, in any suit or other proceeding for the recovery of the debt, be received in evidence without proof of the handwriting or of the official character of the Governor or Consular officer,

and shall be deemed sufficient evidence of the amount of the expenses, and that the same were duly incurred;

nor shall it be necessary to adduce on behalf of Her Majesty any other evidence in support of the claim, but judgment shall pass for the Crown, with costs of suit, unless the defendant specially pleads and duly proves that the certificate is false or fraudulent, or specially pleads and duly proves any facts showing that the expenses were not duly incurred:

Provided, nevertheless, that in no case shall any larger sum be recovered on account of the expenses than a sum equal to twice the total amount of passage-money received or due to and recoverable by or on account of the owner, charterer or master of the passenger-ship or any of them from or on account of the whole number of passengers who may have embarked in the ship; which total amount of passage-money shall be proved by the defendant if he will have the advantage of this limitation of the debt: but if any such passengers are forwarded or conveyed to their intended destination under the provisions of the last preceding section, they shall not be entitled to the return of their passage-money, or to any compensation for loss of passage.

(a). *N. B.*—1 If more passengers were rescued than forwarded, or if bedding, &c., was not supplied, alter the certificate to suit the facts of the case.
(b). *N. B.*—2 State generally the nature of the disaster, and where it occurred. But if the passengers were only left behind without any default of their own, state the fact accordingly.

I hereby certify that, acting under, and in conformity with, the provisions of the Indian Sea Passengers Act, 1885, I have defrayed the expenses incurred in rescuing, maintaining, supplying with necessary bedding, provisions and stores (a), and in forwarding to their destination passengers who were proceeding from to in the passenger-ship which was wrecked at sea, &c. (b).

And I further certify, for the purposes of the sixth section of the said Indian Sea Passengers Act, 1885, that the total amount of such expenses is, and that such expenses were duly incurred by me under the said Act.

STATEMENT OF OBJECTS AND REASONS.

Act II of 1860 declares certain parts (namely, sections 52, 53 and 54) of the English Passengers Act, 1855 (18 & 19 Vic., cap. 119) to be applicable to the carriage of passengers upon voyages from the ports of Calcutta, Madras and Bombay to the colonies of Mauritius, Jamaica, British Guiana, Trinidad, St. Lucia and Grenada, and from ports in British India to ports in the Red Sea or Persian Gulf. The colonies mentioned were the places to which emigration was then lawful. Since 1860, emigration to the colonies of Fiji, Natal, Réunion, St. Croix, Guadeloupe, Martinique, Dutch Guiana, St. Vincent, Nevis and St. Kitts has been sanctioned. With respect, however, to voyages to places not specified in Act II of 1860, that

Act gives no power to any authority to recover expenses incurred in forwarding shipwrecked passengers to their destination and in maintaining them until they are so forwarded. At present, therefore, the voyages to which the Act does not apply are more numerous than those to which it does.

2. Again, the Act, as it stands at present, is, if strictly construed, inapplicable to the conditions under which emigration from India is usually conducted. Section 3 of the Act, following section 53 of the English Passengers Act, 1855, runs as follows:—"If any passenger * * * find himself within any colonial or foreign port or place other than that at which *he may have contracted to land*," &c. But as a rule, emigrants from India do not themselves contract with the owners or charterers of the vessels in which they emigrate. In all cases falling under the Indian Emigration Act VII of 1871 (or which may fall under the Indian Emigration Act XXI of 1883, when that Act is brought into force) the contract is made by a recruiter for the colony importing labour, under the supervision of the Protector of Emigrants. Emigrants despatched in this way are therefore technically excluded from the provisions of Act II of 1860. A similar difficulty appears to have arisen in England, and to have been met by an amendment of the law. Section 12 of the English Passengers Act Amendment Act, 1863 (26 & 27 Vic., cap. 51), repeals section 53 of the English Passengers Act, 1855, and section 15 of the former Act substitutes for the words "other than that at which he may have contracted to land" the words "other than that for which the ship was originally bound, or at which he or the Emigration Commissioners, or any public officer, or other person on his behalf, may have contracted that he should land".

3. These two defects in the Act came to notice in connection with the following occurrence. In the end of April last, the steamer *Laleham*, carrying emigrants from Calcutta to Dutch Guiana, grounded off Ceylon, and was compelled to land her passengers at Trincomalee. The *Laleham* returned to Calcutta, where she was examined by the Engineer-Surveyor to the port, and reported "unseaworthy and unfit to proceed to sea without serious danger to human life". The Agents of the *Laleham* at first proposed to substitute another vessel, but subsequently declined to do so, offering merely to have the *Laleham* repaired at Calcutta, and to fulfil her charter-party by re-embarking the coolies at Trincomalee and taking them on to Surinam.

The Advocate General of Bengal, on being consulted, was of opinion that no action could be taken under Act II of 1860, and that the matter would be governed by the charter-party. Surinam, he said, being in Dutch Guiana, is not a place to which Act II of 1860 applies. He thought further that the English Passengers Act Amendment Act, 1863, would be construed strictly, and according to such construction he did not think that the words of section 3 of Act II of 1860 would cover the break-down in a voyage to which that Act applied, in any case other than that in which the passenger had himself contracted.

Under these circumstances legislation seems necessary in order to bring Act II of 1860 into conformity with the present system of emigration and the English Passengers Act Amendment Act, 1863.

The present Bill has accordingly been prepared. It repeals and re-enacts Act II of 1860 with the necessary amendments. Section 3 of the present Bill declares the subsequent provisions of the Bill (being parts of the English Passenger Act, 1855, as amended by the Passengers Act Amendment Act, 1863) to be applicable to all voyages to certain specified colonies and places, which are, in fact, the colonies and places to which under the existing law emigration is now lawful or is likely to be legalized; and in sections 5 and 6 the amendments made by the English Passengers Act Amendment Act, 1863, in sections 53 and 54 of the English Passengers Act, 1855 (which formed sections 3 and 4 of Act II of 1860) are incorporated with some slight modifications so as to adapt them to this country.

REGISTRATION OF PERMANENT TENURES.

The HON. MR. REYNOLDS introduced the Bill to provide for the registration of permanent tenures, and moved that it be read in Council. He said :—The explanation which I gave last Saturday of the scope and objects of this Bill

seems to render it unnecessary that I should do more on the present occasion than invite the attention of the Council to the Bill which has been circulated to Hon. Members, and ask them to compare its provisions with the statement I made on that occasion. The Bill, after a few preliminary sections, which are taken up with the necessary definitions, is divided into three Chapters. The first Chapter relates to the procedure to be adopted in places in which registration is optional. It provides that application may be made for the registration of tenures either by proprietors of land or tenure-holders, and that it should be made to the Subordinate Judge; and then it makes provision for due notice to be given to all persons concerned to file any objections which they may wish to put forward; it provides also for summary decision in cases which admit of their being summarily decided, and for the framing of issues for regular decision on such points as are in dispute, and cannot be settled in any other way. The second Chapter prescribes the nature of the registers to be kept by the Collector, and this Chapter applies to registration, both in cases in which registration is optional, and also in local areas in which registration may possibly be made compulsory. The Chapter, as I said, provides for the nature of the registers to be kept up, and it also contains provisions for what is to be done to carry out the mutation of names, in cases of transfer and succession. And with regard to this provision I wish to invite the attention of Hon. Members to sections 25 to 30 of the Bill, and to point out that those sections provide, in the case of the mutation of names, for just as much facility and opportunities being given for putting forward and the hearing of objections, as in original cases of applications for the registration of the tenure itself. From what has passed in another place, I understand that some landlords have felt apprehensions that, under the cover of the mutation of names, claims and documents may be put forward transferring tenures and containing stipulations and conditions which the zemindars might not be inclined to acknowledge, but which nevertheless, unless they objected to them in time, they might be considered to have acquiesced in. These sections therefore provide that, in the case of mutation of names, full opportunity shall be afforded for objections to be made and decided. Then Chapter III provides for the procedure in local areas in which the Local Government may declare that registration shall be compulsory, and these provisions are mainly based on what I may call the corresponding sections of the Bengal Land Registration Act (VII of 1876). The Government is disposed to attach much importance to this measure as a necessary complement to the provisions of the Bengal Tenancy Bill. If, indeed, we possessed in the Lower Provinces a complete record of rights, such as has been framed in other parts of Northern India, it might not be necessary to legislate specially for the registration of one class of tenancies. Possibly some of the present generation may survive to see the day when we shall have in every village and estate of Bengal a record of the rights and interests of every class of the agricultural population, from the zemindar down to the humblest tenant. But that time, though it may one day come, is certainly still very distant. The work will be one of great labour and expense, and the agency for establishing and maintaining the record has still to be created. In the meantime this Bill will in some measure supply, for one numerous and important class of tenancies, what I hope may eventually be attained for all. The registration of permanent tenures will afford much valuable information regarding the economic conditions of the country, the different gradations of landlords, and the extent to which sub-infeudation has been carried; it will facilitate the settlement of many disputed questions; and it will enable the Government to afford substantial assistance to proprietors in the recovery of their rents.

The Hon. JOY PROKASH LALL said:—I beg with the permission of the President to make a few observations on that section of the Bill which contains a definition of “permanent tenure.” Your Honor must be aware that there are in Behar occupancy rights which are heritable and by custom transferable. Then there is the *guzash’a* tenure, which is heritable and also transferable, but liable to enhancement of rent. These rights are not yet recognized by law; the people of Behar would therefore wish to know whether this Bill will treat such tenure-holders as *mukuraidars* and *muafidars*, and the like. But if the Bill goes further than that, and the tenures to be affected are not well defined, great

litigation and expense will follow, and both the Government as well as the people will be affected. I have nothing further to urge, except to repeat that the nature of the tenures in Bengal and Orissa are different from those in Behar.

The HON. MR. REYNOLDS said in reply:—I understand the Hon. Member not so much to object to the provisions of the Bill, as to complain that some of the definitions contained in it are not sufficiently clear and precise. With regard to what he said on the question of *guzashta* tenures, I would ask him to refer to the definition of “tenure” which has been drafted in accordance with the Land Registration Act of 1876, as including every interest in land, except estates and the interests of raiyats or under-raiyats. Now, as I understand, these *guzashta* tenants are admitted to be raiyats, although raiyats having rights and privileges, such as fixity of tenure and perhaps also fixity of rent; but I never understood that it was claimed for them that they possessed any other rights than those of raiyats. In that case it is clear that they will not come under the definition of the Bill at all. But there are holders of other tenures to which I understand the Hon. Member to refer, such as *mokuraidars* and *munfidars*, which do come under the definition. Tenures, such as *ijaras*, which are not of a permanent nature, do not come under it.

His HONOR THE PRESIDENT said:—I understand the Hon. Member to say that his objections rather refer to the circumstances and condition of things in Behar, as being different from those in Bengal, and that possibly, unless those circumstances and conditions are borne in mind, there might be a difficulty as regards the particular definition of “tenure” in this Bill. The Hon. Member also referred to certain special tenures in Behar, but from the difficulty I experienced in hearing what he said, I am not in a position to discuss the question. As, however, the name of the Hon. Member is proposed to be placed on the Select Committee to which the Bill will be referred, no doubt the objections which he suggests will be fully considered in Committee.

The motion was then put and agreed to, and the Bill referred to a Select Committee consisting of the Hon. Mr. MacDonnell, the Hon. Mr. Garrett, the Hon. Moulvie Abdul Jubbar, the Hon. Joy Prokash Lall, and the Mover.

INSPECTION OF PRIME-MOVERS.

The HON. MR. REYNOLDS moved for leave to introduce a Bill to amend Bengal Act III of 1879. He said: This Act of 1879 is an Act for the Inspection of Steam-boilers and Prime-movers, and extends to the town and suburbs of Calcutta and the town of Howrah. It does not apply to locomotive steam-engines or to steam-vessels. The Act provides that no boiler or prime-mover shall be used without a certificate granted under the Act, and in force at the time being; and it further provides for the appointment of Inspectors who, under section 5, are required carefully to examine boilers and prime-movers in every part thereof, and it requires the owner to afford all reasonable facilities for such examination, and all such information as may reasonably be required. But in point of fact, I understand that this provision of the law is not literally carried out; the inspection is practically limited to boilers and does not extend to prime-movers. The Boiler Commissioners some time ago brought the matter to the notice of the Government, and pointed out that the Act is not complied with, and that to carry out its provisions will cause very serious difficulty and inconvenience. They explain that, when a boiler has to be inspected, it can very easily be cooled down, and the examination and inspection can be made without interfering with the course of business in general, and the working of the mill or other factory. But this is not the case if the prime-mover has to be examined. The examination of the prime-mover, if it is to be anything more than a mere examination only in name, if it is to be such an examination as is referred to in section 5, will involve the stoppage of work, and will also possibly involve the taking of the engine to pieces, or at any rate the dismantling of it to a certain extent; and that will be a serious inconvenience, not only to mill-owners and persons of that kind, but to the community in general. They point out that this provision of the law will apply also to the engines and pumps used in the water-supply of Calcutta, and that if the examination of the prime-movers attached to them is to be made, the Public may some day find themselves

without water; and they add that there is really no great necessity for a minute examination of prime-movers, and that if an accident happened to prime-movers it would not have anything like the same disastrous effect as the explosion of a boiler. They further state that the prime-movers are in charge of qualified Engineers who thoroughly understand every part of the machinery, and have every inducement in their own interests and reputation to see that their engines are really in good order. The Boiler Commissioners recommend that rules should be laid down for putting engines and boilers in charge of qualified persons, and that certificates of competency should be given to such persons by some authority recognized by Government. These opinions of the Boiler Commissioners were referred for the special opinion of various bodies of mill-owners and of the Chamber of Commerce, and the opinion of those bodies was unanimous—*first*, that there was no real necessity for the examination of prime-movers; and *secondly*, that such examination would cause very serious inconvenience and expense to the persons concerned. I had occasion, in connection with this subject, to look at the provisions of the corresponding Acts of the other Presidencies, and I found that the wording of the Bombay Act is very much the same as the wording of our own Act, and I understand that this difficulty has not been felt in Bombay; but whether the examination in such detail as is required by our law is there carried out or not, I am not in a position to say. The Act of 1882, which was passed for British Burma, is of a very different character. It requires prime movers to be examined just in the same way as the Bengal Act does, but it also provides for the granting of certificates of competency to the Engineer in charge, and declares that the certificate of the Engineer as to the condition of the engine shall be accepted when granted on such authority. The actual recommendation of the Boiler Commissioners is that the Act shall be modified by omitting the words “prime-mover.” in those sections of the Act where it occurs. I think it may perhaps be a further question whether it will not be well to adopt the same system as in British Burma, and to retain power for the inspection of prime-movers, and at the same time give a certificate of competency to the Engineer in charge. That, however, is a matter which may be considered hereafter. The motion being now merely for leave to bring in a Bill, it involves only the recognition by the Council of the necessity for some legislation on this subject.

The motion was put and agreed to.

KIDDERPORE DOCKS.

The Hon. Mr. REYNOLDS moved for leave to introduce a Bill to enable the Commissioners for making Improvements in the Port of Calcutta to provide docks in the Port. He said:—I believe it is unnecessary to detain the Council with any lengthy history of the circumstances which have led to the proposal for the introduction of this Bill. Some of those present may remember the state of Calcutta before 1870, when the present Port Trust was established. At that time it is hardly too much to say that there were no jetties, no wharves, and no appliances for the landing and shipping of goods; but since the constitution of the present Port Trust in 1870 very great progress has been made. There are now eight jetties supplied with export and import warehouses, and having a large number of hydraulic cranes and steam cranes, and there is also a floating steam crane capable of lifting 30 tons. There is also a continuous line of wharves along the foreshore, and a tramway that connects the jetties with the Eastern Bengal Railway; and while giving all these advantages, the Port Commissioners have been able entirely to abolish port dues in Calcutta, and to effect a substantial reduction in the cost of pilotage, and at the same time to maintain the survey, buoyage, and lighting of the river in a more efficient state than has ever been done before. But with all their efforts, the Port Commissioners are unable to keep up with the growing requirements of the traffic. The eight jetties which have been provided afford accommodation to about 200 vessels in the year, but we require space for about five or six times that number. The gross tonnage of the Port has increased during the last five years in round numbers from about 1½ millions to 2 millions of tons; the exports have increased from 1¼ millions to 1½ million tons; and the annual downward traffic of the East Indian Railway, which was under half a million tons during the five years ending with 1875, during the next period of five years reached nearly a million.

tons, and at present, perhaps, if it has not actually reached it, must be near upon 1½ million tons. The further extensions of the railway system, some of which have already been constructed, some of which are in progress, and some of which still remain to be undertaken, will all tend to the same result—the result of pouring into Calcutta a daily increasing mass of goods, for the handling and transport of which new and extended appliances will be necessary. These considerations led the Government in 1882 to appoint a Committee to report on the advisability of constructing docks at Diamond Harbour to relieve the trade of the Port. The majority of that Committee reported in favour of the construction of docks at Diamond Harbour, but the mercantile members of the Committee opposed the scheme on the ground of the inconvenience that would arise to the ordinary course of business, owing to the distance of the docks some 35 or 40 miles from Calcutta. It appeared that those objections were felt, not only by the mercantile members of the Committee, but were also endorsed by the Chamber of Commerce and the mercantile community in general. The Government therefore resolved not to act on the recommendations of the majority of the Diamond Harbour Docks Committee, and in 1883 a fresh Committee—a joint Committee of the Port Commissioners and of the Chamber of Commerce—was appointed to consider the general question of extending and strengthening the accommodation for the shipping in Calcutta. That Committee submitted a very admirable and exhaustive report, in which they reviewed all the circumstances of the case. The first point which they considered was, whether it is desirable to extend accommodation by adding to the number of jetties, or by constructing docks, and for reasons set forth in their report, one of which is the greater protection afforded by docks against cyclones, they considered docks in every way preferable to adding to the number of jetties. Then there was the question where the docks should be constructed, and various sites were considered, and the conclusion of the Committee was that Kidderpore is the most favourable site for the proposed docks. The report of the Committee was submitted to several experts, both in England and this country; it was approved by the Government of Bengal, recommended by the Government of India, and has been sanctioned in all essential particulars by the Secretary of State. It having been determined then that docks should be constructed at Kidderpore, the question arose, what official or body of officers should be entrusted with the construction and management of the docks? and the Government had the choice of several alternatives; they might have kept the docks under the Marine Department of the Government itself, or they might have created a new body of Dock Trustees, or they might have entrusted the construction and management of the docks to the existing Port Commissioners. The decision the Government came to was, that the Port Commissioners should be entrusted with the duty, and perhaps I may be permitted to say, although a Port Commissioner myself, that this was determined upon owing to the confidence which the management of the present Trust by the Port Commissioners has excited both in the Government and the mercantile community in general, but it was also almost a necessary conclusion in consequence of the intimate connection between the existing works of the Port Commissioners and their proposed extension by the construction of new docks. The new docks and the present jetties are intended to be connected by a tramway, and the whole will be worked as one concern by the Port Trust. Then a further difficulty arose, viz. that the Government were advised that the Port Commissioners, under the existing law, had no power to construct docks. The hon. and learned Advocate-General (Mr. Paul) came to the conclusion that the construction of docks was clearly outside the provisions of Act V of 1870, and as the Port Commissioners are unable to construct docks, it is clearly out of their power to raise a loan for the purpose. It was therefore considered necessary to introduce a Bill to enable the Port Commissioners to construct docks and raise a loan for that purpose. The proposed Bill has been circulated, and is in the hands of Hon. Members, and I will just point out that it is nothing more than an enabling measure; it enables the Commissioners to construct and maintain docks, to raise a loan for the purpose, and to levy tolls and charges which have been approved by the Local Government and published in the *Calcutta Gazette*. And with regard to the form which

the measure has assumed, I may explain that it was intended at first to introduce a consolidating Act bringing together all the various provisions of law relating to the Port Commissioners into one enactment; and that, no doubt, is a work which must be undertaken before long. Act V of 1870 has already four amending Acts, and it is very desirable to consolidate them; but such a consolidation of the law would involve a great deal of delay. It is therefore now proposed only to pass a short enabling measure to provide for the present difficulty.

As a summary of the whole question, I believe I cannot do better than read to the Council, if it will permit me to do so, the concluding words of the despatch in which the Government of India recommend the adoption of this scheme to the Secretary of State. They said:—

“In conclusion, we would observe that the pressing need of improved facilities for the increasing trade of Calcutta cannot be too strongly insisted upon. The trade is rapidly expanding, and there is probably no public work on this side of India at the time which can be said to be as important as the Calcutta Port Improvements. The construction of docks will undoubtedly give great facilities, now wanting, to Calcutta merchants in the prosecution of their business, the process of loading and unloading cargoes will be considerably expedited, goods will be better and more conveniently warehoused, and the sorting and cleaning of the wheat before shipment will be promoted; while the general concentration of business will be a welcome relief to those concerned with trade and shipping. The measure now proposed is formally supported by an absolute consensus of official and non-official opinion, and has the entire approval of the local commercial Public. We trust, therefore, that we may be favoured with sanction to its being undertaken at the earliest practicable date.”

These are the grounds on which the Government of India recommended the adoption of this scheme, and it is on these grounds that I now ask the Council to grant leave for the introduction of the proposed Bill.

The motion was put and agreed to.

HIS HONOR THE PRESIDENT said:—I think it necessary to explain that it is desirable that the form in which the Bill has been drawn up should be considered both by the Local Government and also by the Government of India; therefore, before we proceed to the next motion on the paper to introduce the Bill, we should submit the papers on the subject, and the Bill which has been drafted, for the consideration of the Government of India. I hope their approval of the form in which the Bill has been prepared will be received in time to enable us to proceed with the Bill at the next meeting of the Council. Therefore the two remaining motions in the name of the HON. MR. REYNOLDS will be postponed to the next meeting.

The Council was adjourned to Saturday, the 3rd January 1885.

LIBERALITY OF THE MAHARANI SURNOMOYEE OF COSSIMBAZAR,
MOORSHEDEABAD.

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 30th December 1884.

RESOLUTION.

READ—

A letter from the Commissioner of the Presidency Division, No. 15Ct.—ME, dated the 21st November 1884, forwarding a copy of a letter from the Maharani Surnomoyee, of Cossimbazar in Moorshedabad, placing at the disposal of Government Rs. 1,50,000 for the purpose of promoting female medical education in Bengal.

Read again—

Letter to the Director of Public Instruction, No. 418T—G, dated 29th June 1883, declaring females fully admissible to the classes of the Calcutta Medical College.

Resolution, dated 6th May 1884, establishing four “Female Medical Scholarships” tenable for five years in the Calcutta Medical College.

THE problem of creating a class of qualified female medical practitioners to attend upon native women in their sickness is one which presents many special difficulties in a country where the habits and traditions of the women of the upper classes prevent them from availing themselves of the services of men as their medical advisers. Attempts have been made from time to time to supply what has always been felt to be a pressing want, but the efforts of Government in this direction have until lately been impeded, partly by the difficulty of introducing a serious innovation into the conservative domain of medical practice, and partly by the inadequacy of the funds which could be appropriated to the furtherance of so large an object. In the letter of 29th June 1883, cited in the preamble to this Resolution, Mr. Rivers Thompson reviewed at length the various objections raised on professional grounds to the admission of women to the classes of the Calcutta Medical College, and gave expression to his final decision, that on grounds of both principle and expediency the exclusion of women could no longer be maintained. In the Resolution of the 6th May 1884 he endeavoured to give fuller effect to this policy by offering special encouragement in the form of scholarships to ladies who, after passing the First Arts Examination at the University, should elect to enter the Calcutta Medical College as students. This was as large a measure of encouragement as the Provincial finances would admit of, and up to the present time the Lieutenant-Governor has had little hope of being able to offer further support to a movement which commands his hearty sympathy. The Maharani Surnomoyee, Lady of the Order of the Crown of India, whose good name in the cause of public charities and private benevolence is already known throughout India, has now come forward to supplement the resources of the State with the munificent donation of Rs. 1,50,000 which she has placed at the disposal of the Bengal Government for the promotion of female medical education. In the letter communicating her gracious intentions, the Maharani imposes no restriction upon the mode in which her gift should be administered; but it is understood that she would be gratified if the money could be expended on the construction of a hostel for native ladies studying medicine in Calcutta. The Lieutenant-Governor agrees with the Maharani in thinking that an institution of this kind will materially forward the cause of female medical education in Bengal. The difficulties experienced by young men in pursuing their education in large towns have already led to the establishment of hostels for their accommodation. These difficulties are of course greatly increased in the case of ladies, some of whom may come from distant homes; and the proposed institution may help to open a useful career to many women who otherwise would have no opportunity at all of instruction in medical science. The Lieutenant-Governor has much pleasure therefore in accepting the very liberal offer of the Maharani, who has thus

increased the large claim to public gratitude which she has already so signally established, and added one more to the many past recognitions by this Government of her acts of beneficence to the people of Bengal.

Measures will at once be taken to acquire the land selected for the site of the hostel, which will be called after the name of the noble donor. The Government Architect will be directed to prepare a design and estimate of the cost of the building.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Secretary to the Govt. of Bengal.

No. 150t.—M E., dated Camp Burwa (Moorshedabad), the 21st November 1884.

From—A. SMITH, Esq., Commissioner of the Presidency Division,

To—The Secretary to the Government of Bengal, General Department.

I HAVE the honour to forward, for the information and orders of the Lieutenant-Governor, a copy of a letter No. 385, dated 12th instant, from the Maharanee Surnomoye of Cassimbazar in Moorshedabad. She places at the disposal of the Government the sum of one and a half lakhs of rupees for the purpose of assisting towards the provision of properly educated female medical practitioners for the treatment of persons of her own sex. The Maharanee's munificent offer should, I think, be accepted and suitably acknowledged, and I am sure that the Government will gladly give such further aid as may be needed to carry out her proposals.

No. 385, dated Cassimbazar Rajbari, the 12th November 1884.

From—MAHARANEE SURNOMOYEE, Member of the Imperial Order of the Crown of India, Cassimbazar,

To—The Magistrate and Collector of Moorshedabad.

THE want of properly educated female medical practitioners for the treatment of persons of my sex has been felt by me for a long time, and gradually with the advance of my age, a deep impression has been made in my mind. I had always hoped and expected that some kind-hearted and noble-minded person would do something for the removal of the sad want, but I regret to observe that this hope has not yet been realized. Consequently, I have now made up my mind to do what little I can to lay the foundation, as it were, of a work which might be completed in the hands of far abler and more competent persons.

2. I had thought of establishing an institution in this district of Moorshedabad for imparting medical education to the females through the medium of the Bengalee and the English languages. But, as at present advised, I have been convinced that an institution of the kind is not likely to be a success here, while, as one, if located in Calcutta and incorporated with the Medical College there, is sure to succeed and realize my long-cherished hopes. An institution of that sort, however, is likely to require a fund which, having regard to my finances and present state of affairs, I regret to say I do not feel myself justified in endowing in full.

3. Under the circumstances, I have thought it proper to place, at the disposal of our noble and benevolent Government, the sum of rupees one lakh and fifty thousand, in order that it may be pleased to accept the amount and supplement the same by such aid as may be necessary, and adopt such measures as may be considered desirable and proper, so that my intentions may be carried out and fulfilled. Already lying under grave obligations to the Government, which has not unfrequently shown me kindness and favour which I shall ever remember, I need scarcely add that my gratitude will know no bounds, if the Government will be kind enough to approve of and accept my humble proposal. I shall be ready and very happy to pay the amount whenever I may be called upon to do so.

4. I have therefore the honour to request the favour of your bringing the proposal to the notice of His Honor the Lieutenant-Governor of Bengal through the proper channel.

OUTBREAK OF CHOLERA IN THE SERAMPORE SUB-DIVISION.

No. 1441, dated Calcutta, the 23rd December 1884.

From—COLMAN MACAULAY, Esq., Secretary to the Government of Bengal,
To—The Commissioner of the Burdwan Division.

I AM directed to acknowledge the receipt of your endorsement No. 5T, dated the 12th instant, with which you submit a copy of a report from the Sub-Divisional Officer of Serampore on an outbreak of cholera in the Mahesh and Rishra wards of the Serampore Municipality. The disease made its appearance on the 17th November last, and lasted for 16 days, during which period 112 deaths took place. You bring to the notice of Government the good work done by Mr. Collier, the Sub-Divisional Officer, Dr. Barker, the Civil Medical Officer of Serampore, and Mr. Finlay, the Manager of the Hastings Mills, who took prompt and vigorous action in order to suppress the outbreak. The last-named gentleman appears to have rendered valuable help to the Sub-Divisional Officer and the Civil Medical Officer, and to have supplied, free of cost, medicines, disinfectants, and good drinking water from the factory.

2. In reply, I am directed to say that credit is due to Mr. Collier and Dr. Barker for their exertions in putting down the outbreak. I am to request that you will be good enough to convey to Mr. Finlay an expression of the acknowledgments of Government for the assistance which he rendered to the local officers.

3. The correspondence will be published in the *Calcutta Gazette*.

No. 5T, dated Camp Howrah, the 12th December 1884.

Memo. by J. BEAMES, Esq., Commissioner of the Burdwan Division.

Copy forwarded to the Secretary to the Government of Bengal, Judicial Department, for information. The Sub-Divisional Officer and the other gentlemen mentioned are deserving of credit for the prompt and vigorous action taken by them.

No. 2130, dated Serampore, the 4th December 1884.

From—F. R. S. COLLIER, Esq., Sub-Divisional Officer of Serampore,
To—The Magistrate of Hooghly.

I HAVE the honour to submit a report, giving some particulars with regard to the recent outbreak of cholera at Rishra and Mahesh.

2. The first case occurred on the 17th November, and the disease spread very rapidly. I was absent in camp at the time the disease broke out, but returned on the 21st, and then heard of it for the first time. I immediately wrote to the Civil Surgeon, requesting him to visit the locality and report what measures he considered necessary. In reply, the Civil Surgeon stated that he had already visited the place on the 20th instant, and had made arrangements for the treatment of the sufferers. He complained that he had received no official intimation from the police before the 22nd.

3. On the 22nd I obtained some disinfectants from Dr. Barker, and sent the municipal overseer to the spot with instructions to use them. He displayed a great want of alacrity in carrying out my orders both then and subsequently, and I was obliged to warn him that I should dismiss him if he failed to do his best to check the progress of the epidemic. The number of deaths which had occurred up to the 22nd was ten.

4. On the morning of the 23rd I visited the village, accompanied by the Civil Surgeon. I found that no sulphur had yet been burnt by the Vice-Chairman, although he had been requested to get this done. I at once gave orders for the thorough fumigation of the *basti* by sulphur fires, and saw a number of them started. On the 24th I again visited the place and met the Civil Surgeon. We sent for 100 maunds of wood and all the sulphur we could get in the town and had it burned. We also sent into Calcutta for a maund of sulphur and a dozen bottles of rum to make tonic mixture for the coolies. There had been 26 cases and 14 deaths on the previous day. Mr. Finlay, of the Hastings Mills, to whose assistance I am much indebted, supplied gratis a large amount of wood and sulphur. It being represented to me by Mr. Finlay that the old burying ground behind the village was quite full, I ordered it to be closed, and selected a new one some three hundred yards further from the village. Having ascertained by personal inspection that the old graveyard was offensive, I had it covered a foot deep with jute waste which was then set on fire; after the jute waste had been burned, it was covered a foot deep with ashes from the mill.

5. On the 25th I again visited the *busti* and went all over it. Complaints have been made that Hindus were superficially burnt on the river bank, I prohibited this practice in future, and ordered that they should be thoroughly burnt at the expense of the municipality. I found that no less than 13 new cases and 14 deaths had occurred since the previous day, and that the deaths now amounted to over fifty. As the outbreak was getting very serious, I placed the overseer under Dr. Barker's order, with a suitable warning directing him to leave all other work undone, deputed four constables to the *busti* to prevent infraction of sanitary rules, burnt another hundred manuds of wood and a large amount of sulphur, and had all the drains covered with quicklime; constables were stationed to prevent the resort to tanks supposed to be dangerous, and a pure supply of water from the mills was laid on across the Grant Trunk Road. Two additional compounders to assist the Civil Surgeon were also given by the Mill Manager.

6. Without troubling you with unnecessary repetition, I may state that similar measures have been taken day by day until within the last two days. I visited the place daily, and the Civil Surgeon was there twice a day as a rule, treating a large number of patients himself.

7. On the 25th the deaths fell to nine and on the 26th to seven. On the 27th and 28th there were eight and nine respectively; but it was noted that the new cases were not of so virulent a type, and we began to hope that the worst was over. On the 29th and 30th there were five deaths each day. On the 1st there were six deaths, but on the 2nd only two. Since then there have been no new cases, and I think that we may conclude that the outbreak is over. One case has, however, occurred in Serampore itself since, and two or three in Chattrā, but the disease has not assumed an epidemic form.

8. The total number of deaths reported by the police as having occurred at Mahesh and Rishra up to date is 112.

Great credit is, I consider, due to Dr. Barker for the care which he took of the patients, and for the large share of personal labour which he took upon himself in visiting and treating them. The assistance which Mr. Finlay rendered in supplying medicines, disinfectants, and good water, and personally in assisting in the measures taken for checking the spread of the epidemic, was most valuable.

No. 2116, dated Hooghly, the 8th December 1884.

Memo. by G. TOYNBEE, Esq., Magistrate of Hooghly.

Copy submitted to the Commissioner of the Burdwan Division for information. The good services of Mr. Collier, Dr. Barker, and Mr. Finlay, will, I hope, be acknowledged by the Commissioner. Due warning of the outbreak was sent to the Military authorities, who arranged for crossing troops at Ghyretty Ghât and marching them *via* Barrackpore instead of *via* Kotrung.

RESOLUTION ON THE CANAL REVENUE REPORTS FOR 1883-84.

GOVERNMENT OF BENGAL.

PUBLIC WORKS DEPARTMENT—IRRIGATION.

No. 1901 I.A., Calcutta, the 29th December 1884

RESOLUTION.

THE CANAL REVENUE REPORT FOR 1883-84.

READ—

The Canal Revenue Reports for 1883-84, and the Chief Engineer's note on the same.

THE total capital outlay (direct charges) invested, up to the end of the year 1883-84, on irrigation works in Bengal, of which capital and revenue accounts are kept, has amounted to Rs. 6,37,51,362, divided as follows:—

			Rs.
Productive Public Works	5,47,20,704
Famine relief protective works	3,00,000
Imperial ordinary works	8,26,524
Provincial works	79,04,134
Total			6,37,51,362

The expenditure coming under the head Imperial ordinary was on preliminary expenses for projects which have since been abandoned or are in abeyance. The large increase in the amount at the debit of Provincial works is due to the expenditure to date on the Calcutta Canals (Rs. 51,92,444) being now for the first time shown under this head. A capital and revenue account for these canals was opened on the 1st of April 1883.

The receipts from the canals classed as productive public works for the last three years are shown in the table following:—

			Receipts, 1881-82.	Receipts, 1882-83.	Receipts, 1883-84.
			Rs.	Rs.	Rs.
<i>Orissa Canal.</i>					
Water-rates	1,24,290	1,80,325	1,11,856
Navigation	83,206	1,08,473	1,10,162
Miscellaneous	15,655	31,212	15,860
Total	2,23,151	3,20,010	2,37,868
<i>Midnapore Canal.</i>					
Water-rates	1,13,588	1,04,060	1,31,000
Navigation	1,20,706	1,46,922	1,20,580
Miscellaneous	10,780	17,028	12,996
Total	2,50,074	2,68,010	2,64,576

				Receipts, 1881-82.	Receipts, 1882-83.	Receipts, 1883-84.
				Rs.	Rs.	Rs.
<i>Hidgellee Tidal Canal.</i>						
Navigation	45,848	43,694	62,317
Miscellaneous	1,446	1,338	1,273
Total				47,294	45,032	63,590
<i>Sone Canals.</i>						
Water-rates	6,03,930	5,66,465	4,84,209
Navigation	93,116	71,205	85,193
Miscellaneous	39,246	47,007	34,405
Total				7,36,292	6,84,677	6,03,807
GRAND TOTAL				12,56,811	13,17,729	11,69,841

The balances of water rates outstanding on the 1st April 1884 and at the close of the two preceding years are shown in the table below:—

				1st April 1882.	1st April 1883.	1st April 1884.
				Rs.	Rs.	Rs.
Orissa Canals	1,14,112	1,21,617	52,303
Midnapore Canal	1,31,701	1,12,476	1,14,691
Sone Canals	4,36,849	3,11,665	4,23,793
Total				6,82,662	5,45,758	6,20,687

The receipts from all sources during the year amounted to Rs. 11,69,841 and the working expenses (direct charges) to Rs. 10,69,394,* so that the net revenue realized was Rs. 1,00,447 against Rs. 1,67,701 in 1882-83. Including interest, Rs. 21,60,758 payable to the Imperial treasury, and indirect charges debitable to revenue, the deficit of the year amounts to

Rs. 21,10,285. The financial results of the year's operations have been disappointing, the receipts being nearly $1\frac{1}{2}$ lakhs of rupees less than those of the previous year, and the arrear balance in which there was a considerable decline in 1882-83 showing a considerable increase. Under the head "Navigation" there was a slight increase in the revenue of the year, so that the falling off was entirely in water-rates and miscellaneous receipts. The decrease in the latter was due to less work having been carried out at the Dehree workshops, and to there having been no receipts in England from the leasehold property which belonged to the late East India Irrigation and Canal Company.

The main decrease has occurred in the item water-rates, the receipts from which were Rs. 1,23,785 less than in 1882-83, whilst the assessments were Rs. 1,27,227 in excess. The demand statements for a large proportion of this amount were, however, only made out in the last two months of the year. In Midnapore there was an increase of Rs. 26,940 in the water-rate collections as compared with the preceding year, so that the falling off occurred wholly in the receipts from the Sone and Orissa Projects, which showed a decline of Rs. 82,256 and Rs. 68,469 respectively. The decrease would have been even greater but for the reduction of Rs. 69,444 in the amount of arrear balances of water-rates in Orissa. The collections in Behar have improved during the current year, and the indifferent results of 1883-84 are due to the short irrigation of former years.

The areas irrigated during the last three years are shown below :—

* Exclusive of 26,631 acres irrigated in an unauthorized manner.

There was, it will be noticed, a large increase in the area under irrigation from the Sone Canals, whilst in Orissa the leases for two-thirds of the area formerly irrigated were not renewed. A Commission has lately been appointed to enquire into the causes of the disinclination of the Orissa ryots to irrigate, and the Lieutenant-Governor awaits their report before passing any orders on the various proposals which have been submitted for consideration. As regards the Midnapore and Sone Canals, the area irrigated was measured by the powers of the canals to carry water, the demand far exceeding the supply available. The rains in September in both places were deficient and in October almost entirely absent, the result being that the crops beyond the limits of the canal water supply were in many places a total failure and in others seriously deficient. It unfortunately happens in seasons like the one described that the anxiety of the cultivators to obtain water leads them to set at defiance the water distribution arrangements of the Engineers. In Midnapore, with crops dying wherever not irrigated, the Superintending Engineer describes the cultivators as cross-damming the distributaries, regardless of authority and even after they had obtained sufficient water for their fields, keeping the outlets open for fishing purposes. This feature of the year's irrigation deserves serious consideration, as the chief value of the Bengal Canals is in seasons of drought, and it is imperative that the most should be made of the water-supply available.

The receipts credited under the head navigation amounted to Rs. 3,78,242, which is Rs. 7,948 in excess of the previous year's collections. This small increase, however, by no means measures the actual progress made, as the returns of the boats which passed through the canals showed a total of 821,934 tons in 1883-84 against 715,000 tons in 1882-83. Very considerable reductions in the tolls charged on the Orissa Canals were made with effect from the 1st of December 1883, and a surcharge of one-fourth of a pie per head per mile formerly levied on passengers was abolished both for the Orissa and Midnapore Canals from the same date. These reductions will, it is feared, check for the time, the steady growth in the navigation revenue of the canals which has from the first distinguished the canals in the Province. The surcharge was, however, found to be an irritating impost which offered opportunities for speculation, and the tolls during certain months of the year in Orissa were higher than those imposed elsewhere.

The Midnapore transport service continues to be managed by the Calcutta Steam Navigation Company, Limited, and the traffic arrangements are reported to be satisfactory to the public. The transport service on the Patna Canal has been made over to a contractor, and it is intended to withdraw the Government service from all canals so soon as private firms or companies are in a position to afford the requisite facilities for transport.

The tollage collections since 1876-77 are shown below :—

The Lieutenant-Governor cannot regard the results of the year in a financial point of view as satisfactory. The cost of the canals, 21 lakhs of rupees yearly, is borne by the whole province, whilst the advantages are reaped by a few favoured districts. The Commission lately appointed to enquire into the administration of the Orissa Canals has been instructed to report on the actual profits derived from the works, independent of the share received by Government, and their enquiries will afford grounds for coming to a conclusion as to the propriety of endeavouring to secure for the State a larger share of the benefits reaped.

Mr. H. C. Levinge, Chief Engineer and Secretary to Government in the Public Works Department, retired on the 1st of January 1884. A public notification acknowledging his services appeared in the *Calcutta Gazette* for the 9th January 1884. But His Honor takes the present opportunity of again recording his appreciation of Mr. Levinge's administration of the Irrigation Branch of the Public Works Department for the five years during which he was in charge.

ORDER.—Ordered that a copy of this Resolution and of the note and its accompaniments, be submitted to the Government of India in the Public Works Department, for information; also that copies be forwarded to the Appointment, Revenue and Financial Departments of this Government; the Board of Revenue, Lower Provinces; the Commissioners of the Presidency, Burdwan, Patna, and Orissa Divisions; the Collectors of 24-Pergunnahs, Hooghly, Midnapore, Burdwan, Patna, Shahabad, Gya, Cuttack, and Balasore; the Superintending Engineers of the Orissa, South-Western, and Sone Circles, and the Examiner of Public Works Accounts, for information.

By order of the Lieutenant-Governor of Bengal,

J. M. McNEILE, *Lieut.-Col., R.E.*,

Joint-Secretary to the Govt. of Bengal,

GOVERNMENT OF BENGAL.

PUBLIC WORKS DEPARTMENT,—IRRIGATION BRANCH.

REVENUE REPORT.

Note by LIEUTENANT-COLONEL J. M. McNEILE, R.E., *Chief Engineer, on the Canal Revenue Reports for the year 1883-84.*

THE capital outlay (direct charges) on irrigation works in Bengal, during the year 1883-84, amounted to Rs. 22,04,808, made up as follows:—

			Rs.
Productive public works	14,03,439
Famine relief protective works	3,00,000
Imperial ordinary works	(—)1,200
Provincial works	5,02,569
Total	22,04,808

2. The total capital (direct charges) invested up to the end of the year 1883-84 was Rs. 6,37,51,362, as follows:—

			Rs.
Productive public works	5,47,20,704
Famine relief protective works	3,00,000
Imperial ordinary works	8,26,524
Provincial works	79,04,134
Total	6,37,51,362

3. The particulars of the above outlay are given below:—

GRAND TOTAL	22,04,808	6,37,51,362

4. The amount of Rs. 3,00,000 charged against the head "Famine Relief Protective Works" is the contribution sanctioned by the Government of India for the Orissa coast canal during the year under review, and is included in the outlay on that canal.

5. The Circular and Eastern canals have been classed as a project for which capital and revenue accounts are kept with effect from 1st April 1883, and the capital outlay incurred previous to that date, Rs. 50,40,147, is for the first time included in the column "To end of the year," thereby altering its total from what it should be according to the corresponding statement given in the report of the previous year.

6. The indirect charges other than interest, viz. (1) capitalized abatement of land revenue, (2) loss by exchange on payments in England, and (3) charges for leave and pension allowance debitable to capital, for and up to the year 1883-84, are shewn below :—

9. The accumulated charges of interest on the capital outlay in irrigation and navigation works not classed as productive, having, in accordance with the Government of India, Public Works Department, Circular No. IV P. W., dated 1st May 1884, been eliminated from the Administrative Accounts of the Irrigation Branch for the year 1883-84, prepared by the Examiner of Public Works Accounts, Bengal, are not shown in this note.

The amount of interest for Productive Public Works for the year under review is Rs. 21,60,758. This is payable by the Local Government to the Imperial Treasury.

10. The following statement shows the particulars of the total accumulated debt on account of interest and unpaid working expenses amounting, up to the end of the year 1883-84, to Rs. 1,48,10,401, inclusive of indirect charges debitable to revenue:—

The lengths of main canal are the same as those in operation at the close of the year preceding, but 13.75 miles of distributary were opened during the year. In addition to the areas regularly assessed 26,661 acres are reported to have been irrigated in an unauthorized manner. The very marked decrease in the irrigated area will be adverted further on; here it may be noted, that the percentage of area leased to that commanded by distributaries has fallen from 63 $\frac{1}{4}$ per cent in 1882-83 to 22 per cent. in 1883-84.

18. The areas irrigated and the rainfall yearly for the last ten years are shown in the table following :—

19. The whole of the five-years' leases expired in November 1882; and, as was anticipated, there was an inclination on the part of the ryots to see if better terms could not be obtained by delaying to renew them. This course was favoured by the rainfall in June and July ($29\frac{1}{2}$ inches) being sufficient for the needs of cultivation, and it was not until late in September and October that water was much required. Up to the 1st of October only 14,758 acres had been leased; so soon however as real need of water was generally felt, there was a rush to lease, and by the end of the season engagements for 47,595 acres had been entered into. There was also a large amount of unauthorised irrigation reported by the Superintending Engineer at 21,801 (a) acres, and shown in statement VIII of the Deputy Superintendent's report as 26,661 acres. It is in years when there is an early cessation of the rains that water is of most value, and the incentive to misappropriate it strongest, especially as, should rain subsequently fall, evidence to substantiate the fact of irrigation is most difficult to procure.

A native association, the head-quarters of which is at Balasore, deputed an agent to visit the irrigated area, and to ascertain what grievances the cultivators suffered; an account of this gentleman's investigations has since been received and will be considered by the Commission which the Lieutenant-Governor has appointed to enquire into the administration of these canals. Meanwhile the area under lease has, up to the 1st of November 1884, reached 56,121 acres, and the circumstances of the year under review and that now current have been such that only lands which really needed canal water to save their crops have been irrigated.

20. As regards the policy of keeping the drainage lines of the country open, which is specially alluded to in the Commissioner's report, expenditure on such improvements adds nothing directly to the canal revenue, and they were undertaken mainly in consequence of representations made by every civil officer who has been concerned with canal management previous to Mr. Larminie. It is possible that in some seasons a small percentage of lands immediately adjacent to the natural drainage lines of the country would be more productive, if no special provision for drainage was made; in years of heavy rainfall this, however, is not the case, and the greater part of the country always benefits.

The matter will be thoroughly discussed with the Superintending Engineer and civil officers in December, so that any real remediable causes of complaint may be removed. If it was a question of the policy of keeping drainage channels open when it is for the benefit of the cultivators, generally, to have them closed, there could be no doubt in the matter; but the real point is that the interests of the large majority of the cultivators would always suffer by the closing of these channels, and that the injury, where there is any, can only affect an exceedingly small minority.

The impolicy of allowing the natural drainage channels of the country to be blocked up has been very forcibly brought to notice in almost every district of Bengal by this Department being called on to undertake remedial measures so soon as the consequence of the stoppage become fully apparent.

21. The total demand for the year on account of revenue recoverable by the Deputy Superintendent, including arrears of previous years, was Rs. 1,94,071; of this amount, Rs. 1,24,161 was realised, Rs. 8,763 remitted or written off as irrecoverable, and Rs. 61,147 remained due at the end of the year, of which Rs. 52,203 is the balance due on account of water-rates, and the remainder under the head "Miscellaneous."

The Deputy Superintendent remarks that the visit of the agent of the Orissa Association produced a general impression that the current year's water-rates would be reduced, and that the reduction would have retrospective effect. This impression had the effect of inducing the cultivators to postpone payment as long as possible, and rendered the process of recovery slow and tedious. The number of certificates filed under Act VII of 1880 during the year was only about one-fourth of those issued in 1882-83, but a large number of objections were disposed of under the Certificate Act, which are apparently referred to in paragraph 6 of the Commissioner's report, the full meaning of which is not quite clear.

Objections to the correctness of the assessment should be decided under the Irrigation Act, under section 91 of which the Commissioner is vested with

revisional jurisdiction. The proper procedure is laid down in Revenue Department letter No. 2779—1054L. R., of date the 9th December 1882, from which the following extract descriptive of the procedure prevailing in the districts watered by the Sone canals is taken:—

“On application to the canal authorities a ryot obtains a license to irrigate. The irrigated land is afterwards measured, and a *khatyan*, or statement of demand, is made out in the canal officer's *sharista*. One copy of this *khatyan* is sent to the Collector; another is served on the ryot by the canal authorities. Any objection on the part of the ryot is heard by the canal officer, from whose decision an appeal lies to the Collector under section 91 of Act III of 1876, the Collector's order being final. So far the canal officer, whose chief duties are those of assessment, assists the collecting staff. If the ryot makes no objection under Act III, or if, having objected, his objection is overruled, the canal officer's functions cease, and the process of realization begins. A notice of demand is issued by the Collector, and the usual procedure under the Public Demands Recovery Act is followed, shortened, however, by the fact that the ryots objections having already been determined under Act III, 1876, cannot be revived under the Certificate Act. This method of deciding objections under Act III, if introduced into Orissa, would obviate all necessity for enquiries under the Public Demands Recovery Act, and would render it unnecessary to vest the Canal Superintendent with the power of a Deputy Collector.”

The recovery of demands for water-rates under the Certificate Act, regarding which there have been some complaints, is one of the points which has been referred to the Commission, alluded to in paragraph 19.

22. Owing to the small area of land leased, the duty of the water utilized is considerably less than in previous years. The usual table is given below, but the results are vitiated by the large amount of unauthorized irrigation which is not taken credit for:—

NAME OF CANAL.	Effective average discharge in cubic feet.	Total for each main canal.	Area of khureef leased.	Total area for each main canal, including branches.	Average duty of each cubic foot of water.	Average duty of water for each main canal, including branches.
	C. ft.	C. ft.	Acres.	Acres.	Acres.	Acres.

Total ...	493	493	44,493	44,493	90.25	90.25

Water escaping is not included in the above discharges, and a better calculation would probably be to take the total discharges of the Kondrapara High Level and Taldundah canals (the other canals are branches) and to include in the area under irrigation the 26,661 acres irrigated without authority; calculated in this way the duty becomes $\frac{71,154}{724} = 98.28$ acres per cubic foot.

23. The usual crop experiments were carried out during the year and details giving the results will be found in paragraphs 34 to 36 of the Superintending Engineer's report; the difference in favour of irrigation is more considerable than in 1882-83, and the produce of irrigated lands is valued at an average of Rs. 1.16 per acre in the Mahanuddy Division and Rs. 4.75 per acre in the Brahmini-Byturnee Division, above that from lands not irrigated.

24. The revenue credited during the year under the head “Navigation” amounted to Rs. 1,10,152. Of this sum, Rs. 61,602 was received from tolls on boats, and Rs. 48,550 was earned by the transport service.

The receipts since 1874-75 under this head are given below:—

	Tolls.	Transport service.	Total.

1882-83 ...	66,736	41,737	1,08,473

25. The length of navigable canals open (164½ miles) has remained the same as in the previous year, whilst there has been a decrease of Rs. 5,134 in the amount of tolls. This diminution is not, however, due to any falling off in the traffic, which it will be presently shown has slightly increased, but to a material reduction in the rate of tolls levied, which took effect from the 1st of December 1883. Up to that date a surcharge of quarter of a pie per head per mile was made on all passengers carried, and the rate of tolls during the eight dry months from November to June was double of that levied during the rest of the year. From the date mentioned the surcharge was abolished, and the lower rate only charged throughout the year.

The earnings of the year under this head were Rs. 1,07,147, compared with Rs. 1,10,129 in 1882-83.

26. Particulars regarding the tollage assessed compared with the previous year's results will be found in the table below:—

27. From the statement following it will be seen that as regards private traffic there has been an increase under all heads except that of tollage, in which there has been a decrease consequent on the reduction in rate previously mentioned:—

SUB-HEAD.				Government traffic.	Private traffic.	Total traffic.
Tollage	Rs.	—785	—10,243	—11,028
Number of boats	No.	—340	+2,422	+2,082
Tonnage	Tons	—6,262	+9,854	+3,592
Value of cargo	Rs.	—45,301	+4,06,198	+3,60,897
Tollage per mile of canal	Rs.	—4'78	—62'27	—67'05

The total decrease of tollage has amounted to 15·85 per cent. during the year, of which 14·72 per cent. is due to the private traffic upon the canals.

28. Classified according to the description of goods carried, the private traffic is shown in table following:—

				TONNAGE.			
				1882-83.	1883-84.	Increase.	Decrease.
				Tons.	Tons.	Tons.	Tons.
Articles of food	39,094	48,703	9,609	...

Empty boats	15,791	19,413	3,622	...
Total	86,493	95,643	15,141	5,991
Increase	9,150

The increased traffic has been mainly in goods coming under the heads of "articles of food" and "staples of manufacture," and has been general throughout the canal system, omitting the Taldundah and Machgong canals. The reduction of tolls amounts to 43 per cent. on that previously charged and it is feared that it will be some years before the increased traffic will be sufficient to allow of the former earnings being again reached.

The present rate of toll is equivalent to a charge of 7·11 pie per 100 mds. per mile, calculated on the displacement caused by the boat.

29. The cost of the establishment employed to work the locks was Rs. 8,603 against Rs. 8,329 expended under that head in 1882-83. In the accounts a sum of Rs. 6,078, properly debitable to the transport service, is shown under the head "Navigation," which includes both the lock establishment and the permanent staff of the transport service.

30. The total receipts, as credited in the accounts, from the Government transport service amounted to Rs. 48,550, or Rs. 6,813 more than in the preceding year; whilst the working expenses, inclusive of the cost of the permanent establishment, aggregated Rs. 29,883, leaving a profit of Rs. 18,667 against Rs. 3,267 realized in 1882-83. The profit was almost entirely due to the Cuttack-Chandbally line, as the steamer *Pioneer* employed between Cuttack and Bhuddruck did little more than cover her working expenses, though no tolls were charged. Details regarding the traffic are given in the table below:—

31. Government has for some time past been desirous of leaving the transport service to private enterprise; and it has only been kept up so long, as a state undertaking, in the absence of competition providing for the public wants by private companies.

Since the close of the year the steamer *Aurora* has been withdrawn from the Cuttack-Chandbally line, a private firm having taken up the work. It is understood that a large company interested in the coasting trade are building steamers with the view of extending their operations to Cuttack.

32. The miscellaneous revenue realized during 1883-84 amounted to Rs. 15,860 against Rs. 31,212, the receipts of the previous year. Of this sum Rs. 14,483 was, however, the proceeds of leasehold property in England

belonging to the late East India Irrigation and Canal Company, so that in reality there was a falling off in this branch of revenue of Rs. 869 only.

The various sub-heads on account of which money was received are shown in the table following, which also gives the corresponding figures for 1882-83 :—

In addition, Rs. 12,840 has been debited to the project on account of indirect charges, so that for the year there has been a loss of Rs. 67,662 against Rs. 35,271 in 1882-83.

35. In 1882-83 there was, compared with 1881-82, a reduction in the maintenance charge of Rs. 7,449, and there has been a further decrease of Rs. 22,972 in the expenditure under this head during the year under review. The table below gives the details by main heads of works:—

36. The head works suffered less damage than usual, the total expenditure on the seven weirs and works connected therewith having been Rs. 49,949 against Rs. 73,094, the cost of maintenance in 1882-83. Their total length being 18,474 feet, the rate per foot run has fallen from Rs. 3.95 to Rs. 2.70. On the main canals there has been a slight increase in the cost of maintenance. The table below shews the cost for each canal separately:—

37. The expenditure on maintaining the 639½ miles of distributaries in operation amounted to Rs. 25,799, being at the rate of Rs. 42 per mile against Rs. 40, the rate for the previous year. A further sum of Rs. 3,965 was expended on drainage channels and on 79½ miles of embankment, the repairs of which are debitable to the revenue account of the canals.

42. The season was peculiar, there were copious falls of rain during the months of July and August and in the early part of September, and it was not until about the 20th of that month that there was any pressing demand for canal water. From that time to the end of the season it became a question of the ability of the canal to supply water, which was eagerly clamoured for every where. New leases had to be refused, and the efforts of the establishment were directed to making the most of the water supply available; eventually the cultivators got quite out of hand and police constables were placed at the disposal of the Executive Engineer to assist in maintaining some kind of order. The

area watered may, perhaps, be looked on as the most the canal is capable of irrigating in seasons, when late in the year there is a sudden rush for water for lands, the irrigation of which has been postponed until the last moment. The Deputy Revenue Superintendent has been vested with the powers of a Magistrate, so as to admit of his dealing more promptly with the cases of the misappropriation of canal water. It is possible that some good may result from the measure, but when the crops are in danger of dying, the ordinary ryot will incur almost any risk to save them. Unfortunately water taken in defiance of authority is wasted as well as utilized, with the result that crops, which might be preserved if the water was carefully and economically used, perish.

It has several times been proposed, as the areas regularly leased have the first right to the water-supply available, not to grant permits after a fixed date, say the 1st of July, but this plan has the demerit of forcing the cultivators who have not made applications to use water without authority, if at all, and consequently to remove all restraints on the way it is applied. A considerable concession in the matter of water-rates is made to persons who lease for five years, and under present circumstances this appears to be the only method in which pressure can be brought on the ryots to irrigate their lands before the crops are in actual danger. The Superintending Engineer observes that—

“The lesson to be learnt from the experience of the season under report appears to be that the cultivators must be advised to complete their watering early and arrange to have their fields well filled before the end of September, and they must be made to understand that in October the supply is liable to fail, and water can only be given after long intervals in such cases. Unless timely precautions are taken to secure the fields before October, we cannot be responsible for subsequent failure of supply, and the remedy is entirely in their hands.”

43. The duty of the water used, calculated on the average daily discharge for the whole irrigation season, was 208 acres per cubic foot per second for the area commanded by the Midnapore weir, and 81 acres for the area commanded by the Panchcoorah weir. In 1882-83 the respective duties similarly calculated were 144 and 85 acres per cubic foot.

44. The Superintending Engineer, at page 11 of his report, has given an interesting account of the irrigation from No. 4 or the Authra distributary, which commands 28,528 acres, and was designed to discharge 211 cubic feet per second.

The following summary is taken from the Superintending Engineer's report:—

“The total area irrigated was only 22,195 acres. The total area leased was 23,980 acres.

The total of the daily discharges for the season was 10,036 cubic feet per second, and the total of the areas irrigated amounted to 55,359 acres.

Each acre, therefore, received on the average $\frac{55,359}{22,195} = 2\frac{1}{2}$ waterings of 43 inches in depth for this season.

The average daily discharge for the season was $\frac{10,036}{101} = 62$ cubic feet per second, which gives a duty of 358 acres per cubic foot of discharge.

The progress of the irrigation month by month may be thus stated:—

TO END OF MONTH.	Areas leased.	AREAS IRRIGATED IN ACRES					Total discharge of month.	Average daily discharge.	Duty per cubic foot.
		First watering.	Second watering.	Third watering.	Fourth watering.	Total.

45. The results show how dependent this system of canals is on assistance from rainfall. As pointed out by Colonel Gulliver, when the Sone Canal distributaries were being designed, it was never intended that the water-supply of a distributary should suffice to irrigate the area commanded independent of rainfall, in all years some assistance is certain, and the duty of the water is to secure a full crop by supplementing the natural irrigation so obtained with water from the river. The duty obtained must consequently vary, and will be the greatest

in those years in which there is a moderate rainfall only, combined with a demand for water in excess of the fall.

46. The arrears at the commencement of the year under the head water-rates amounted to Rs. 1,42,476, the current demand was Rs. 1,47,992, making a total of Rs. 2,90,468. Of this sum, Rs. 1,31,000 was collected, Rs. 14,777 remitted, and Rs. 1,44,691 remained as the balance unrealized on the 1st of April 1884. In addition, Rs. 12,228 were credited as miscellaneous revenue. The demand and recoveries for five years are shown in the table below, which includes miscellaneous revenue collected by civil officers:—

47. It is satisfactory to note that out of the Rs. 1,43,228 realized during the year by the Deputy Superintendent, Rs. 1,12,182 was paid in voluntarily, and Rs. 31,046 only, recovered after legal proceedings had been commenced. A commencement has been made in enlisting the co-operation of the leading ryots in the matter by appointing them as headmen and remunerating them by a small commission. The Collector has been given the widest discretion in the matter, subject to a maximum charge of half-an-anna in the rupee on the total amounts realized during the year, and it is hoped that this system will gradually spread.

The amount collected as water-rates is in excess of any year to date, but it is not satisfactory to find that the arrear balance is constantly increasing. The matter is now having the attention of the Collector, and it is hoped that when once the irrecoverable balances of former years have been ascertained and remitted, the improvements which have been lately effected in the organization of the revenue establishment will bear fruits, and future years show a marked decline in these balances. The Commissioner states that—

“The tohsildars’ offices are reported to be in order, and when the kabulyat registers are completed, and they are reported to be all but complete, there is hardly any information which will not be available at a moment’s notice. Much, however, will depend on the amount of intelligent supervision exercised by the Deputy Superintendent over the proceedings of the tehsildars, and I hope Mr. Ghose will continue to show the zeal which characterized his administration during the year under report.”

This testimony is valuable as showing that a vigorous effort to correct previous deficiencies is being made, and as pointing out how much the work depends on the energy and industry of the responsible officers.

48. The new rules under Act III (B.C.) of 1876, which were adverted to in paragraph 41 of last year’s report, were under discussion throughout the year, but have been passed since its close; they are reprinted as an appendix to this report. They were very fully considered, and it is thought that they will help towards reducing the number of disputes and facilitate the work in various ways.

49. The usual crop experiments were carried out in 1,075 places, the results being very favourable to the irrigated crops, the produce of which was on an average 15.54 maunds more paddy and 20.42 maunds more straw per acre than these grown on unirrigated lands. The Commissioner remarks on this large difference, which he states is not explained either by the Executive Engineer or the Deputy Revenue Superintendent. There was, however, little or no rain during the month of October, and it is notorious that the crops which did not receive water suffered severely; this is probably a sufficient reason for the exceptionally great differences between the yield of paddy from irrigated and unirrigated lands. The experiments were conducted in the manner usual since 1873, and have frequently, notably in 1876 and 1881, showed little or no difference in favour of irrigation.

50. The total income credited during the year under the head “navigation” amounted to Rs. 1,20,586, of which Rs. 1,08,931 was received from tolls on boats, Rs. 11,649 being the amount paid by the Calcutta Steam Navigation Company, “Limited,” as hire of steamers and compounded tolls.

52. The first reach of the Midnapore canal and the Narainghur navigable distributary were closed for silt clearance from the 14th of February to the 6th of March. The Baramullah and Goalsamah locks were closed from the 25th February to the 7th of March, and from the 15th to the 25th of the month to allow of the valves being repaired, thus interrupting the through traffic. A set of diving apparatus have been procured, and it is hoped that small repair will in future be carried out without closing the canal. A project for supplying the Ooloberiah reach with water from the Eden canal is under consideration, and if carried out, may perhaps admit of all silt clearance being effected by dredgers. At present this cannot be done.

53. The steamer service between Calcutta and Midnapore, formerly worked by Government, was in the hands of a private company, and the Superintendent Engineer states that it has given general satisfaction, any suggestions toward securing the safety of the passengers being willingly adopted. There were two lines of steamers belonging to different owners plying on the canal, and it is noted that nine steamers and flats are being built for the service.

54. The table below shows the number of passengers and weight of goods carried monthly by the Calcutta Steam Navigation Company, "Limited," to whom the steamers belonging to Government have been hired :—

55. Generally there has been a slight increase in the traffic on the Midnapore canal during the year, resulting in the tolls received being Rs. 2,990 in excess of the previous year's receipts, notwithstanding a slight reduction in the tolls levied the surcharge of quarter pie per head per mile formerly levied on passengers having been abolished from the 1st December 1883.

56. The realizations under the head "miscellaneous" amounted to Rs. 12,996, of which Rs. 768 was received by the Executive Engineer, and the balance collected by the Deputy Revenue Superintendent.

57. The following tables show the receipts on revenue account and working expenses for the last ten years:—

The above table does not include indirect charges, which for the year amounted to Rs. 7,940, the net revenue derived from the canal being Rs. 40,990 against Rs. 21,508, received in the year preceding. It will be noticed that the decrease in the gross receipts is due to the transport service being no longer maintained by Government, and there is a corresponding reduction in the working expenses.

58. The cost of maintaining the canal and distributaries for the last five years is given in the table below:—

YEAR.	MAIN CANAL.			DISTRIBUTARIES.		
	Length of canal.	Total cost of works.	Rate per mile.	Length of distributary channels.	Total cost of works.	Rate per mile.
		Rs.	Rs.		Rs.	Rs.
1879-80	48	56,945	1,186	254	16,150	63
1880-81	48	80,963	1,687	267	20,140	76
1881-82	48	1,03,910	2,164	277	11,854	42
1882-83	48	1,01,821	2,121	277	20,437	75
1883-84	48	1,06,425	2,216	277	21,195	76

The tendency to increase shown in these charges is unsatisfactory; so far as the main canal is concerned the reason given, the greater quantity of silt dredged, is fairly adequate; but it should be possible to maintain the distributaries at nearly the same rate as is found to be sufficient in Orissa. This was pointed out last year, and the absolute necessity of exercising greater economy in the matter will again be impressed on the local officers.

59. The question of dredging on this canal is yearly increasing in importance. There is a daily service of steamers between Midnapore and Calcutta and *vice versa*, by which the mails are conveyed, and daily or bi-weekly steamers to other places; any closure of the canal causes accordingly much public inconvenience and numerous complaints. Great attention has accordingly been directed towards improving the outturn from the dredgers and to keeping them constantly employed. The results have been satisfactory. The work done during the year has increased from 26 to 44 lacs, and the cost per thousand cubic feet has been reduced from Rs. 13·7 per 1,000 cubic feet to Rs. 10·57 per 1,000 cubic feet. The number of days working has been 1,593 against 1,405 in 1882-83.

60. The following table extracted from the Superintending Engineer's report gives particulars regarding the working of each dredger during the year:—

63. This canal is wholly intended for navigation, and its revenues are entirely dependent on the tolls levied on boats, the receipts from which during the year amounted to Rs. 62,317, or Rs. 18,623 more than in 1882-83. The canal was re-opened on the 15th of April 1883, after a closure extending over three months for silt clearance.

64. Particulars regarding the traffic for the last ten years are given in the tables following:—

65. There has, it will be noted, been an improvement in most of the items enumerated in the above table. The greater part of the traffic is at present towards Calcutta, the Superintending Engineer stating that out of a gross tonnage of 196,767 of all kinds of goods carried, 130,286 tons were consigned towards that place and the remainder 66,481, about one-third, took the opposite direction.

66. No material increase in the receipts from this canal is likely to occur until considerable improvements are carried out. An estimate providing for a new lock at Kalinuggur, dredging plant, and for deepening the canal so far as to provide a minimum depth of $6\frac{1}{2}$ feet of water at low tides has been received, but

returned to the Superintending Engineer for revision. The matter is of considerable importance at present, as it is probable that this canal, which has for many years yielded a small surplus over working expenses, would pay interest on capital if the long and frequent closures for silt clearance could be avoided. When the Orissa coast canal, of which the Hidgeleo tidal canal forms the first part, is opened, the need for its remodelling so as to bring it up to the standard of the remainder will become urgent. As last year remarked, the present Kalinugger lock is 100 feet long, whilst all the remaining locks on this as well as those on the Orissa coast canal are 150 feet in length.

67. The tables below shew the receipts and working expenses of this canal for the last ten years:—

Total ...	219	148½	1,082	1,728,509	381,280	540,000	921,280

72. The area shown as commanded is the full extent over which water could be led from the canals, no deductions being made for village sites or waste land. Assuming that only 500 acres per square mile is cultivated, the area given will be reduced to 1,361,151 acres. The figures in the column "area which can be irrigated" are obtained by multiplying the full supply of the canals by 80, for the area which can be irrigated during the khureef season, and 3,000 cubic feet which is taken as the supply available in average years during the rubbee season by 180 for the area then irrigable. Colonel Heywood considers that the duty on the khureef season should be reduced to 70 acres per cubic foot, and he also says that on the 16th February 1884 the supply in the Sone river was 1,868 cubic feet per second only, which at the high duty of 180 acres per foot would suffice for the irrigation of 336,240 acres only. In dry years the area which could be irrigated reduced as suggested would be 792,240 acres.

The increase in length of distributaries during the year was 6½ miles, the fractional differences in the lengths of canals compared with last year are due to errors in former returns, 53 miles of new distributaries were in progress, but had not been completed at the close of the year.

73. The state of the circle as regards village channels is shown in the table following :—

	Total length of village channels completed.	Area commanded.	Total number of outlets.	Number of permanent outlets.

Of these channels 134 miles were constructed by Government officers on applications made under Act III (B.C.) of 1876, and at the close of the year 34 miles were in progress.

74. The areas assessed with water-rates during the year and that preceding are given in the table below :—

77. The extension of irrigation was due to a serious deficiency in the rainfall of August and October. The following table of rainfall and extract from the Superintending Engineer's report comparing the year 1883 with the years 1873, 1875, and 1877, shows the extreme value of canal irrigation in such seasons:—

In 1873, the whole rice crop died off in Shahabad;

„ 1875, the appearance of the crops was nearly as bad as in 1873;

„ 1877, the transplanting of the late rice was never effected over large areas, and

„ 1883, the rice crop died extensively where irrigation either from canals or ahurs was not available.

It is quite clear, taking the following averages of the four years:—

12.36 inches at	Patna
11.66 „	Arrah
13.33 „	Buxar

that the rainfall in 1883 was not sufficient by itself, as was found to be the case, to allow of the maturing of the late rice.”

78. The statements below give the rainfall for each division separately for both the khuriff and rubbee seasons, the figures are the average of observations at the head-quarters of each canal sub-division:—

79. The area irrigated during the khureef season was measured by the powers of the canal to supply water, and unfortunately this difficulty was intensified by the occurrence of a breach in the main western canal on the 23rd August, which caused a complete stoppage of supply for nine days. The consequence was that the crops towards the tails of the distributaries suffered severely for want of water. The cause of the breach has never been satisfactorily ascertained, but a regulator has since been built at the bifurcation of the Arrah and main western canals, and the whole system can never again be paralyzed by a breach in one canal.

The effect of the breach on the revenues of the year was disastrous, wholesale applications for remission being made, which will be further adverted on under that head.

The area leased was 260,187 acres, the excess being areas either irrigated in excess of, or without permit.

From the table below it will be seen that the leases are only a rough guide as to the areas actually watered, except in the case of five years' leases:—

The most satisfactory feature of the large increase in irrigation is the extension of the area under agreement for five years.

The proportion of flow to lift irrigation was 90 to 10, as against 95 to 5 in 1882-83.

81. The Superintending Engineer gives the duty of the water utilized as follows:—

	Khureef.	Rubbee.
Eastern Sone division	60	53
Arrah division	94	78
Buxar ,,	97	91

The whole area under irrigation during the year was 350,614 acres. Of this 8,524 acres were hot-weather crops, and must be eliminated, taking $\frac{1}{5}$ th of the five-year leases as khureef and the remainder $\frac{4}{5}$ th as rubbee and the 6,782 acres sugarcane in both crops, the area under irrigation in the khureef season was 222,522 acres and in the rubbee season 126,300 acres. The average discharge entering the two main canals for the four months July to October,

was 3,031 cubic feet per second, and in the five months, November to March, 1,924 cubic feet per second, the duty taking the figures on the water entering the canals was therefore $73\frac{1}{2}$ acres per cubic foot in the khureef and $65\frac{1}{2}$ acres per cubic foot in rubbee season. In one selected distributary, the Bhojepore, the duty is given as 88 acres per cubic foot in the khureef and 103 acres per cubic foot in the rubbee season.

82. At the commencement of the year there was a balance of Rs. 3,11,665 due on account of water-rates, and the assessments of the year amounted to Rs. 7,42,311, making a total of Rs. 10,53,976. Of this sum Rs. 4,84,209 was collected, and Rs. 1,45,974 remitted, a balance of Rs. 4,23,793 remaining due at the end of the year. The heavy remissions were mainly owing to irrecoverable balances of former years being written off, but the breach on the canal, mentioned in paragraph 80, also necessitated heavy remissions, and the increase on the arrear balance is chiefly owing to attempts to avoid payment on the ground of the non-supply of water during the nine days on which the canal was wholly closed. The accident was most unfortunate: there was a heavy demand for water at the time, and there is no doubt that the crops on lands supplied from the tails of the distributaries suffered severely, as they had not received any share in the watering in progress, and before the water again became available the crops had been damaged. The area so affected was, however, limited compared with that injured by the want of rain in October.

83. Of the remissions Rs. 83,946 were on account of the assessments of the year 1883-84, and the balance Rs. 62,028 from the demand of former years. The amount remitted is further divisible into Rs. 52,392 written off as irrecoverable by orders of the civil officers, and Rs. 93,582 remitted for causes affecting the assessment.

The amounts written off as irrecoverable are mostly balances of years anterior to 1882-83, which it was found for various reasons to be impossible to collect. The remissions made by the Engineers were very largely due to the breach in the main western canal, and do not include the whole loss caused by that accident, Rs. 16,226 having, in the Arrah division alone, been struck out of the demand statements before their despatch to the Collector.

84. The Superintending Engineer at page 3 of his report gives a full account of the proceedings of the local officers in consequence of the temporary failure of supply; but, as before observed, this was scarcely the main cause of the short crops, which was the late leasing of large areas already injured by drought, which could not be supplied with water in time to more than partially save the crops. As an illustration of this it may be noted that out of 78,116 acres of annual leases in the khureef season, no less than 47,853 acres were leased in the months of September and October after the occurrence of the breach.

The matter was personally investigated by Mr. Levinge, Chief Engineer, the result being that it was determined not to press for water-rates where the supply of water had not succeeded in saving the crops, and eventually the following orders were passed by the Lieutenant-Governor:—

“I.—No hot-weather water-rates will be charged.

“II.—The rate to be charged in villages where there are generally indifferent crops of rice will be for khureef Rs. 1-4 instead of Rs. 1-14 per bigha.

“The fact of there being indifferent crops to be determined on a consideration of—

1stly.—The water-supply available during the time when there was the greatest demand.

2ndly.—On the actual produce as stored in the threshing floors.

3rdly.—On the khusrahs showing that in the village there are many fields in which the rice died.

“III.—No water-rates are to be charged on fields shown in the khusrahs as dead or (where the information has been noted) as unlikely to yield a crop exceeding 3 maunds per bigha.

“IV.—Where it can be shown that the rice crops in a village have been very bad, say not exceeding 3 maunds per bigha, generally no water-rates are to be charged.”

85. As already mentioned, effective measures to prevent an accident, such as occurred in 1883-84, have been taken, but the gradual substitution of khureef for rubbee crops has rendered the canals unable to irrigate more than a proportion of the area for which water is required in seasons of drought.

86. A statement giving particulars of the demands and collections in the last five years follows:—

YEAR.	DEMAND.			Remission	Net demand.	Collection.	Balance.	Percentage of collection to current demand.

87. The increase in the arrear balances is to be viewed with regret; but, as remarked by the Collector of Shahabad, "the circumstances attending the work of collection were of an unusually unfavourable nature, for which allowances have to be made." The Superintending Engineer agrees that the difficulties experienced were exceptional, as will be seen from the following extract from his report:—

"Notwithstanding these extensive remissions, a very large number of complaints of failure of crop were and are still being filed.

I am informed by the Special Deputy Collector that at the time of the promulgation of the Government order as to remission and when the ryots began to understand what those orders were, they very generally in this division at once stopped voluntary payments, and the collections which were going on satisfactorily received a sudden check.

The ryots received the impression that they would all get off any payment for khureef. They proceeded to file petitions, are still withholding payments, and in many instances are lodging appeals to the Collector against the decisions of the canal officers.

This withholding of payments and general filing of complaints is the most prominent in the Agaoon sub-division, where there appears to be a combination of villagers against Government. While remaining silent at the time of measurement, many villages have now come forward in a body, and declare that not only did their annual lease crops die, but even those under five years' lease for which it is always the first care of the irrigation officers to secure a supply when demanded.

So far as investigation on these complaints has gone at present, the allegations of the ryots as to a general destruction of their irrigated crops are not borne out by the facts elicited.

But there are numerous appeals, the ryots employing clever mooktyars in Arrah who take every advantage afforded them by the law."

88. The balances in the various districts on the 1st of April 1883 and 1st April 1884 are shown below:—

	1st April 1883.	1st April 1884.
	Rs.	Rs.
Shahabad	2,55,552	3,16,806
Patna	28,872	66,524
Gya	27,741	40,463
Total	3,11,665	4,23,793

A special enquiry into the administration of the Sone canals partly with reference to these arrears is now in progress under orders contained in the Government of India's letter No. 1831, of date the 11th July 1884, forwarding a despatch on the subject.

89. The collections of the present year are up to the 1st of October Rs. 2,53,164 against Rs. 1,46,400 in 1882-83, so that the effect of the increase in irrigation on the receipts is now being felt.

90. The cost of the revenue establishment employed during the year and that preceding is shown in the table below:—

	1882-83.		1883-84.	
	Amount.	Percentage on collections.	Amount.	Percentage on collections.
	Rs.		Rs.	
Permanent and temporary establishments, such as zilladars, amoens, &c. ...	35,034	6.19	42,106	8.69

Total ...	1,05,883	18.69	1,14,005	23.54

The figures for 1882-83 differ from those given in the revenue account for that year, as the headmen's fees paid by civil officers are now included in the item "establishment employed under Collectors." The higher cost of establishment is due to the increased area assessed, the water-rates on which are now in course of collection: on the area irrigated the cost of establishment was $\frac{107,883}{178,824} = \text{annas } 9.75$ per acre in 1882-83 and $\frac{114,005}{350,014} = \text{annas } 5.20$ per acre in 1883-84.

91. The usual tables giving the cost of measuring the crop and preparing the demand statement are appended, and it will be found on reference to last year's report that there has been a considerable reduction in the cost per acre:—

92. The attendance of the patwaris at the measurements is still unsatisfactory, but since the close of the year canal officers have been vested with the powers of a Collector under section 35 of Regulation VII of 1822, and it is hoped that this will prove of considerable assistance in securing their attendance. The Collector of Shahabad, nevertheless, still considers that a change in the law will be necessary, observing that "the difficulty of making them do the work assigned to them by the Irrigation Act remains the same as before." It is clear, however, that much can be done by good personal management, as the percentage of attendance on the villages measured was 97.7 per cent. in the Ramnugger sub-division and 86.0 per cent. in the Nasirgunge sub-division, against a general average of 71 per cent.

93. The number of complaints is a subject that is now engaging attention. No less than 9,364 applications for remission were disposed of during the year. The point which gives most trouble is the tendency to delay in making objections, until all trace of irrigation has passed away, and then to allege that no intimation that water-rates were due had been received. Revised instructions for canal officers have lately been issued, which give increased facilities for disposing of such claims at the time of measurement, and an effort will be made to insist more strictly on the observance of the rule requiring that complaint shall be made within a month of the demand being made. But it has been held that the demand alluded to in the rule is that made by the Collector, probably months after the irrigation is over, and the date of which is quite unknown to the canal officer who disposes of the objection. On the other hand, the demand statements for various causes, disputes about irrigation, difficulties in ascertaining the names of cultivators, &c., are themselves frequently late, and the Collector cannot make the demand as promptly as he otherwise would. The khureef demand statements are due in the Collector's office on the 15th of December, whilst in October not only is new irrigation in progress, but in seasons of scarcity the canal officer's unceasing attention is devoted to the regulation of the water-supply, so that the most may be made of what is available, and that

it may not be run to waste or be used in filling *aharas*. The increase from 74,55½ acres to 101,322 acres in the five-years' leases will do something toward improving matters, as the difficulties mentioned above, with the exception of changes of names, disappear in respect to lands so leased.

94. The orders regarding crop experiments have not been completely carried out during the year, none being returned from two of the sub-divisions of the Arrah division: the average of the rice experiments gives 3½ maunds of rice and 6½ maunds of straw as the excess produce of lands irrigated by the canal.

95. The revenue under the head "Navigation," since the opening of the canals, is shown below:—

YEAR.	EASTERN MAIN SERIES.			WESTERN MAIN SERIES.			Total.	Total tollage only.

97. The small decrease in the tolls received on account of boats using the Eastern main and Patna canals is due to the long closure, which extended from the 11th of April to the 30th of June, whilst the increase on the Western main series is owing to there having been only a short closure, from the 6th to the 16th of April.

98. Further particulars comparing the traffic for the last five years and the description of goods carried, are given in the tables below:—

99. No information regarding the upward or downward traffic is given by the Superintending Engineer, but the following table, extracted from his report, is useful as showing the position of the trade centres :—

100. The cost of the establishment for working the locks and collecting tolls was Rs. 13,051 for the year, against Rs. 13,133 expended in that preceding, and Rs. 13,174 in 1881-82.

101. The receipts from the transport service during the year 1883-84 were Rs. 37,161, being an increase of Rs. 5,260 over the amount received in the year previous; the expenses were, however, Rs. 32,475, or Rs. 6,485 in excess, so that the net profits were Rs. 4,686 only compared with Rs. 5,911 for 1882-83.

102. An endeavour was made to dispose of the steamers to a private company, but no acceptable offer was received; the service on the Patna Canal was, however, transferred to a contractor, from the 21st of January 1884, on his paying the usual tolls and Rs. 150 per month as hire of the steamer *Umpire*. No complaints have been received as to the manner in which this steamer was managed by him and a fresh arrangement has been entered into since the 20th October 1884, under which he has taken charge of the entire service.

103. The miscellaneous receipts during 1883-84 amounted to Rs. 34,405, being a falling off, compared with the previous year, of Rs. 12,602. The decrease is wholly in the item "Miscellaneous," which includes the profits on the manufacturing operations of the Dehree workshops, from which Rs. 3,550 was received against Rs. 19,359 in 1882-83.

104. The statement below gives the receipts and working expenses of the Sone canals for the last three years:—

	1881-82.	1882-83.	1883-84.
	Rs.	Rs.	Rs.
<i>Receipts—</i>			
Water-rates	6,03,930	5,66,465	4,84,209

	4,57,322	5,29,841	5,14,477
Net profit	2,78,970	1,54,836	89,330

Notwithstanding a decrease in the working expenses, there has been a falling off of Rs. 65,506 in the net revenue derived from these canals.

105. The causes of this unsatisfactory result have already been commented on, but it may be well to again state that so far as water-rates are concerned, in which the receipts have fallen off by Rs. 82,256 as compared with 1882-83, the cause is not a falling off in the area under irrigation, on which there has, in fact, been a large increase, the assessments on which are now being collected.

106. The cost per mile of maintaining the canals and distributaries comprised in the system is given in the statement below:—

	Eastern Sone	311	43'4	311	48'1

107. The increased expenditure on the Main Eastern Canal is owing to the closure of that canal from the 11th of April to the 30th of June for the purpose of clearing the silt which had accumulated in its bed. This was effected by hand, 44½ lakhs of cubic feet of silt having been removed; at the same time 56½ lakhs were taken out of the Patna Canal. The Main Western Canal was not closed during the year, and the decreased costs of maintenance is due to no expenditure being incurred on silt clearance by hand.

108. The Superintending Engineer gives the amounts entered in the table below as the average cost of maintaining the canals and distributaries in the circle:—

	Rs.
The Eastern Main Canal costs to maintain ...	3,128 per mile.
„ Western Main Canal (Arrah division) ...	5,828 ditto.
„ Ditto (Buxar do.) ...	234 ditto.
„ Other main canals—	
Arrah and Patna divisions ...	407 to 413 ditto.
Buxar division ...	243 ditto.
„ Branch canals ...	86 to 183 ditto.
„ Distributary channels ...	44 to 74 ditto.

109. The total quantity of silt removed from the canals by dredgers was 61,35,619 cubic feet. Details shewing the quantity excavated and cost for each canal are appended:—

	Cubic feet.	Cost.	Rate.
		Rs.	Rs. A. P.
Eastern Main Canal ...	11,77,214	4,052	3 7 0
Patna Canal ...	56,24,979	14,575	2 9 5
Sone river bed ...	9,48,470	1,842	1 13 6
Western Main Canal ...	33,79,219	24,560	8 15 10
Head lock, Dehree ...	72,073	213	2 15 6
Arrah Canal ...	5,58,643	3,603	8 11 5

The rate in the case of the Main Western Canal is high, as it includes the cost of removing the silt from the barges, carrying it over a high spoil bank, and depositing it on the berm beyond.

110. The cost of weed clearance during the year was Rs. 8,965 only against Rs. 14,377 in 1882-83, and Rs. 21,163 in 1881-82.

Note.—The account shewing the accumulated charges for interest is not included in accordance with the Governn of India, Public Works Department, Circular No IV, P. W., dated 1st May 1884.

112. The receipts from these canals for the year were Rs. 5,014 in excess of that previous, and the working expenses Rs. 10,882 less, the result being a deficit in the year's operation of Rs. 1,025, against Rs. 16,921 in 1882-83. The income earned by these canals is entirely derived from a guarantee amounting to Rs. 23,000 given by the landholders interested, who manage the irrigation within the limits of their own *dehats*, receiving water-rates not exceeding one rupee per acre from the cultivators.

113. The area irrigated during the year is returned by the Collector of Sarun as 21,121 acres, and Rs. 5,030 is noted in the guarantors' returns as the amount recovered by them.

114. The rainfall table below, extracted from the Superintending Engineer's report, shows that in September and October the rainfall was deficient, and canal water accordingly valuable:—

115. The operations of the year are described by the Executive Engineer, Mr. Faulkner, as follows:—

"Grave fears were entertained that the rice and rubber crops would fail, as there was not the usual rainfall in September and the early part of October. Early in October applications came in fast from the ryots for water from the canals. As usual, the ryots held off till the last moment, expecting the rain would come daily. To irrigate the country thoroughly, is necessary to throw the water from the Rupan Chap Seta into the canals by stopping off the discharge in the Seta. Great efforts were made in October to effect this object, but the discharge in the Seta was greater than could be carried off by the canals, and it was not until the 27th of the month, after four previous unsuccessful attempts, that a bund was thrown across. By this time it was too late for the rice crops on the lower canals, *i.e.*, the Gandaki, Dhanai, and the Gangni. It was possible, however, to irrigate from the Daha through the Seta in October, and later from the head out, and a large tract was irrigated in a rough-and-ready way by constructing dams with escape channels at every two miles or so, which threw the water over the country. A small area of rubber was damaged by this means, but the rice crops received water and were saved."

116. These canals are not provided with distributaries, and when water is required temporary dams are thrown across the *Seta*, an old river channel. There is a disposition on the part of the guarantors to arrange for the construction of permanent weirs and distributaries, but the branch of the river Gunduck, on which the head sluice is situated, shows signs of closing up, and it is not considered advisable to incur further expenditure until the course which the main stream will take is more fully apparent.

CALCUTTA AND EASTERN CANALS.

117. THESE canals are managed by the Board of Revenue, Lower Provinces, who submit a separate yearly report on their administration, that for 1883-84

was reviewed in this Department resolution of date the 28th November 1884.

Capital and revenue accounts were opened on the 1st of April 1883, and the following is an abstract of these accounts up to the 1st April 1884:—

	Rs.
<i>Capital cost—</i>	
Direct charges	51,92,444
Indirect charges	59,090
Grand total ..	52,51,534
Receipts to the 1st April 1884	1,75,62,487
<i>Working expenses—</i>	
Direct charges	63,70,953
Indirect charges ..	1,34,007
	65,04,960
Charges for interest . .	(a) 65,61,871
	1,30,66,831
Balance net revenue . .	44,95,656

(a) Interest is calculated *pro forma*. It is not exhibited in the Administrative account under Government of India public Works Department Circular No. 4P—W, dated 1st May 1884.

These accounts have not yet been finally approved, there has been considerable difficulty in determining the distribution of the capital and revenue charges, and it is only since 1861-62 that the accounts have been kept in this Department.

118. The canals have so far been a very profitable undertaking, and it is proposed to extend their usefulness by carrying out several urgently required improvements, partly in connection with the new Kidderpore Docks. About 65 lakhs of rupees will be required, and some arrangement by which the cost of these works can be met from funds obtained by loan will be necessary, as during the last six years the canals have, after crediting receipts, cost the province Rs. 7,75,777, whilst really earning Rs. 2,38,701, besides working expenses and interest charges.

119. The gross revenue of the year shews a slight decrease of Rs. 93 compared with that preceding; this is attributable to the partial failure of the jute and rice crops of 1883 in the districts served by the canal; in the remaining items of traffic there has been an increase due to the great improvements, which have recently been made in the canals: the tollage in the two articles mentioned above was Rs. 76,457 less than that received in 1882-83.

The revenue accounts for the two years are contrasted below:—

	Receipts.	Working expenses, direct and indirect.	Interest charges.	Net revenue.
	Rs.	Rs.	Rs.	Rs.
1882-83	5,64,194	3,26,897	3,26,897	2,37,297
1883-84	5,64,101	2,32,031	2,32,031	3,32,070

The diminution in working expenses is due to the maintenance charges being confined mostly to repairs; in 1882-83 several improvements, notably widening the canal between Dhappa and the railway bridge, and replacing the suspension by girder bridges, were carried out and charged to the revenue account of the canals.

120. The table following gives detailed information regarding the traffic passed through the canals during 1882-83, and the year now under review.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different parts of Bengal, as reported to Government during the week ending the 27th December 1884

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.			
Western Districts.			
BURDWAN DIV.	1 Burdwan, Dec. 27 '84	Nil	Weather—cool and cloudy. <i>Amun</i> paddy continues to be harvested; outturn varies from 2 to 12 annas. Sugarcane and <i>rubbee</i> crops continue to be promising. Common rice is generally selling at from 15 to 18 seers per rupee. General health is on the whole good. A few cases of fever are reported from three thanas of the Sudder sub-division.
	Cutwa ...	0.16	
	Ranigunge ...	0.07	
	2 Bankoora, " 27 "	Nil	
	3 Beerbhoom, " 27 "	A few drops of rain fell one day.	
PRESIDENCY DIV.	4 Midnapore, " 27 "	0.01	Weather—cloudy, cold, and fine. <i>Amun</i> paddy is being reaped. There was a slight fall of rain in some places in the interior, but enough as to do any good to the crops, which are, however, getting on fairly well. Sugarcane cultivation getting on well; in the Nulhati police station it is being cut. In the Rampore Haut sub-division harvesting of <i>amun</i> paddy is nearly completed. The other winter crops are doing well. Price of new rice is still high. Public health good, except a few cases of fever and cholera in some parts of the district.
	5 Hooghly, " 27 "	Nil	
	Howrah, " 29 "	Nil	
	Central Districts.		
PRESIDENCY DIV.	6 24-Perghs. Dec. 29 '84	Nil	Weather—seasonable, but cloudy towards the latter part of the week. Prospects of standing crops continue satisfactory. <i>Amun</i> paddy is being harvested with an outturn decidedly over an average crop. Public health is generally good, though isolated cases of cholera and fever are reported from the Diamond Harbour and Bassirhat sub-divisions.
	7 Nuddea, " 27 "	Nil	
	8 Khoolna, " 27 "	Nil	
	9 Jessore, " 27 "	Nil	
	10 Moorshedabad, " 27 "	0.13	
RAJSHAHY DIV.	11 Dinagepore, Dec. 26 '84	Nil	Weather—seasonable. Harvesting of <i>amun</i> paddy still continues, fair outturn is expected, except in Patnitola thana, in which the outturn of paddy is very poor indeed. The prospects of other crops good. Rice selling at from 11 to 16 seers per rupee.
	12 Rajshahye, " 27 "	Nil	
	13 Rungpore, " 27 "	Nil	
	14 Bogra, " 27 "	Nil

<i>Eastern Districts.</i>			
CHITTAGONG DIVN.	22 Chittagong, Dec. 29 '84	Nil	Weather—seasonable. Prospects of crops good. Harvesting of <i>amun</i> paddy nearly finished with about a twelve-anna outturn. Prices of food-grains stationary. Sporadic cases of cholera throughout the district.
	23 Noakholly, „ 26 „	Nil	Weather—seasonable; clear with occasional foggy mornings. <i>Amun</i> paddy is still being reaped. Prospects of <i>rubbee</i> crops fair. Cholera reported from the interior.
	24 Tipperah, „ 25 „	Nil	Weather—seasonable. Prospects of crops continue to be favourable; outturn of <i>amun</i> paddy is estimated at 12 annas. <i>Rubbee</i> crops are flourishing. Prices of food-grains slightly falling. Cholera abating, and public health in other respects good.
	25 Chittagong Hill Tracts, „ 23 „	Nil	Weather—seasonable, foggy in the mornings. Transplanting of tobacco is over. Sugarcane and other cold-weather crops are doing well. Paddy is being harvested.
	Hill Tipperah, „ 24 „	Nil	Weather—cold. Reaping of <i>amun</i> paddy nearly over with good outturn. Sowing of mustard, chillies and tobacco also nearly over. A few sporadic cases of cholera here and there, otherwise public health good.
BEHAR.			
PATNA DIVN.	26 Patna, Dec. 27 '84	Nil	Weather—cloudy during the latter part of the week. Harvesting of paddy a <i>jowar</i> still continues. <i>Rahur</i> and mustard look well. Prospects of <i>rubbee</i> crops good. Rain wanted in some places. Poppy crop is growing well. Public health good.
	27 Gaya, „ 27 „	Slight rain.	Weather—cloudy. Harvesting of paddy proceeding. The prospects of <i>rubbee</i> crops excellent; poppy crop also in a satisfactory state. Health good.
	28 Shahabad, „ 27 „	Nil	Weather—cold and cloudy. Prospects of <i>rubbee</i> crops favourable. Sugarcane pressing is still going on. Poppy crop is reported to be excellent and is well advanced for the season.
	29 Durbhunga, „ 27 „	Nil	Weather—seasonable. Harvesting of paddy continues. <i>Rubbee</i> crops coming on well. <i>Rahur</i> and mustard are flowering. Rain is wanted in some places. Tobacco and poppy crops look very promising. Prices of rice stationary. Those of other grains slightly falling. Public health good.
	30 Mozufferpore, „ 27 „	Nil	Weather—seasonable. Harvesting of paddy still going on and a moderate outturn is expected. Prospects of both <i>rubbee</i> and opium crops continue favourable. Public health good.
BHAGALPORE DIVN.	31 Saran, „ 27 „	Nil	Weather—bright and seasonable. Paddy is being harvested. Prospects of <i>rubbee</i> crops continue good. Condition of the poppy crop is excellent, young plants are looking very healthy. Prices falling. Public health good.
	32 Chumparan, „ 27 „	Nil	Weather—seasonable. Prospects of standing crops continue good. <i>Aghani</i> paddy is being reaped. Prospects of poppy crop good. Public health in a few cases of fever are reported from the interior.
	33 Monghyr, Dec. 27 '84	Nil	<i>Aghani</i> paddy is being reaped; the outturn is estimated at 8 to 10 annas. <i>Rubbee</i> crops promising. Poppy crop is doing well. Public health good.
	34 Bhagulpore, „ 27 „	Nil	Weather—cloudy and warmer than usual. Paddy is being cut. <i>Rubbee</i> crops are generally very good, but a little rain would do much good. Prices stationary. Public health good.
	35 Purneah, „ 27 „	Nil	Weather—seasonable; rain wanted. <i>Aghani</i> paddy nearly a full crop in the Kishengunge sub-division, a little over half in the Arrareah sub-division, and very little in the Sudder sub-division. Winter crops very good in the Sudder and the Arrareah sub-divisions, but they are little grown in the Kishengunge sub-division.
	36 Maldah, „ 27 „	Nil	Weather—cold and fair. Harvesting of winter paddy continues; average outturn is not expected to be more than an eight-anna crop. Price of common rice ranges from 12 to 16 seers per rupee. Prospects of <i>rubbee</i> crops still not bright. Cholera has made its appearance at places in the interior; otherwise general health good.
	37 Sonthal Pergas, „ 27 „	Nil	Weather—cloudy for one or two days of the week. Cutting of <i>aghani</i> paddy now well advanced. Prospects of <i>rubbee</i> crops good, but they would be improved by a fall of rain.
ORISSA.			
ORISSA DIVN.	38 Cuttack, Dec. 26 '84	0.38	Weather—cool and cloudy at times. Reaping of <i>sarad</i> on low land has gone on everywhere with an average outturn. The rain on the 23rd injured <i>rubbee</i> crops to some extent. Common rice selling at from 16 to 20 seers per rupee in the town and 25 seers, on an average, in the interior. Public health generally good, except that a few cases of intermittent fever are reported from the interior.
	39 Pooree, „ 25 „	0.38	Weather—getting cooler. Harvesting of <i>sarad</i> continues; <i>dalia</i> crops thriving. Miscellaneous crops doing well. Common rice selling on an average 24 seers 3 chittas per rupee in the Sudder sub-division and 26 seers 1 chitta in the Khorda sub-division. Cholera still prevails.
	40 Balasore „ 26 „	Nil	Weather—cloudy. Reaping of paddy nearly finished, threshing has commenced. Sporadic cases of cholera and fever still continue in the interior.
CHOTA NAGPORE.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Bockley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING THE 26TH DECEMBER 1884.

At the close of the previous week, a small cyclonic storm, which had generated in the south of the Bay, had passed across the Southern Madras coast, and, with the inrush of moist winds following in its path, had given very heavy rainfall over the south of the Peninsula. The strong monsoon thus blowing on the Madras coast had rather intensified the north-east monsoon conditions in Bengal, and at the commencement of the present week, all the conditions were favourable for the continuance of the previous well defined characters of the present cold weather, which has hitherto been marked by abnormally low temperatures, especially at night, and extremely high barometric pressure.

On the first day in the week (the 20th) pressure increased very rapidly in Bengal, and it was then extremely high, but at the same time rainfall and wind velocities commenced to decrease on the Madras coast, showing that the strength of the monsoon was decreasing, and on the 21st a rapid fall of the barometer commenced in Bengal, which was attended by a corresponding increase of temperature. The falling barometer and increasing temperature continued on the 22nd, 23rd and 24th, and from well understood causes during this period of falling barometer, skies clouded over, particularly in Orissa, and also in South-West Bengal and in Chutia Nagpur, and light rain was reported on the 23rd and 24th from most of the stations in Orissa, and at a few stations in South-West Bengal, North Bengal and Chutia Nagpur. The rapid fall of the barometer was, however, succeeded on the 25th by a partial recovery, which was followed again on the 26th by a further decrease of pressure. The changes of temperature during these two days were small and variable, but with the increase of pressure noted on the 25th, skies again cleared and rain ceased to fall.

Pressure—Was, as noticed above, very high, and indeed far above the normal at the commencement of the week under review, but it then experienced a steady fall for four days, succeeded by a slight rise, and then another fall. The mean for the week has therefore not been far removed from the normal pressure, and for the whole Province there has been only the slight excess of 0.01". The excess was, however, greatest, as has previously been the case, in Behar, and least in South-West Bengal and Orissa. The extreme variations from the mean pressure were an excess of 0.035" at Durbhanga, and a defect of 0.013" at Kulse Point. This comparatively large excess pressure in Behar has been a prominent feature in the meteorology of Bengal for the past few weeks.

Temperature—Was in the previous week almost equal to the normal, but as pointed out before, for four days in the week, at almost all stations temperature steadily increased, so that the mean for the week has, in most cases, been decidedly in excess of the normal. Thus Calcutta and a great part of South-West Bengal show an excess of between 2° and 3°, while the average excess for the whole province was about 1°. The increase in temperature has again been most marked in the night temperatures, and the following table, which gives the actual and normal mean maximum and minimum temperatures at eight stations, shows clearly that, while the day temperatures in Bengal have on the average been almost exactly normal for the past week, the night temperatures have averaged 2.8° in excess of the normal:—

For the week ending 26th December 1884.

Rainfall—Was practically confined to the two days, the 23rd and 24th, and was general at the Orissa stations, while it also occurred at a few stations in South-West and North Bengal and in Chutia Nagpur. The atmosphere over Northern India was generally disturbed on these two days, and light rain fell in the Punjab, North-Western Provinces, and Central Provinces, though not perhaps in such large amounts as usual. The rainfall in Orissa, in no instance, amounted to more than a few tenths of an inch, the largest falls occurring in the Pooree and Cuttack districts. The average rainfall over the whole of Orissa only amounted to 0.27 inch, while the maximum amount received appears to have been at Jagatsingpore, which reported 0.82 inch in the two days. The rainfalls in the other dis-

MEMORANDA.

Births and deaths were registered in the first Municipalities in Bengal during the week ending 13th December 1884, at the rates respectively, of 26.9 and 39.1 per 1,000 of population, against 26.5 and 37.6 per 1,000, respectively, in the preceding week ending 6th December, indicating an improvement in the regulation of deaths.

2. The following Municipalities returned the highest proportions of births and deaths:—

Births.				Deaths.			
			Ratio per mille.				Ratio per mille.
Monghyr	91.3	Serampore	160.9
Comillah	50.1	Purneah	65.7
Durbhanga	37.7	Poori	59.8

				Chittagong	35.2
				Beaulah	34.1
				Monghyr	33.4
				Howrah	31.6
				Burdwan	20.5
				Durbhanga	29.9

3. The principal diseases specified in the table appended to this memoranda proved fatal at the rates exhibited below:—

Ratio per mille during the weeks ending—						
				13th December 1884.	6th December 1884.	
Cholera	5.3	3.9	
Small-pox3	.3	
Fever	18.4	18.1	
Bowel-complaints	6.1	5.5	
Injury1	.4	
Other causes	8.9	9.4	

The only noticeable fact disclosed by the above figs is that the mortality from cholera had increased sensibly.

4. Of the above-named diseases, cholera, or, bowel-complaints, and the diseases classed under the head of "Other causes" were notably fatal to life in the following Municipalities:—

Cholera.		Fever.		Bowel-complaints.		Other Causes.	
	Ratio per mille.		Ratio per mille.		Ratio per mille.		Ratio per mille.
